Henry L. Stribling, Decatur, Ga., and W. G. Smith, Spencer, N. C.
Much sime was required to remove the dead and injured from the debris.

Gould and His Son Unbart.

George J. Gould, who, with his son, Jay, was in one of the Pullmans when the train jumped the track, and who was reported dead, escaped uninjured. He, his son, Jay, and a friend, H. R. Russell, of New York, ex-editor of the Metropolitan Magazine, had just got out of their berths when the wreck occurred. Mr. Russell was badly hurt by coming in contact with a car stove, and is at the hostptal. Mr. Gould and his son came in on th

special bearing the dead and injured. He left this afternoon for his hunting trip. Is miles from here, stating that the wreck bad not disarranged his plans for a wack's outing.

Broken Rail Is Cause.

The derailment was caused by a broke rail about 200 feet from the trestle that spans a small stream. The train was composed of two bagsage, express and mall cars, three day coaches and two Pullmans. The engine, baggage, mall and express cars passed over in safety, while the day coaches and Pullmans were thrown from the trestle into the creek and along the banks 20 to 30 feet At the point where the first coach left the track, the right rail was broken into fragments for several feet and torn en-tirely from the ties.

Cars Fall in Water and Mud.

The wheels ran on the ties until near the trestle, when the outside wheels went yer, allowing the brakebeams and axles to fall on the guard rails of the bridge. As the lam coach was on the trestle, the five coaches toppled over, broke loose from the mail and express car and tumbled into the mail and water below. The Norfolk Pullman fell into the water, while the Richmond sleeper, just in front, lunded only partially in the water. Most of the injured and killed in he sleepers were in the Richmond leeper, which was totally demolished. The Norfolk sleeper was not so badly tern up, but fell on its side in the swollen dream, submerging many passengers,

Several Bodies Still in Wreck.

The appearance of the dead at the undertakers' shops showed that some were scalded to death and others were badly mutilated, while one was cut in half at the walst, bis dismembered parts being found at opposite ends of the coach.

At 5 o'clock this afternoon the track had been cleared. Three cars have not been raised, and it is believed that several bedder will be found because. bodies will be found beneath the

Secretary of War Reports Adversely

on River Improvement. OREGONIAN NEWS BUREAU, Wash-ington, Dec. 15.—Secretary of War Dick-inson today sent to Congress an adverse report on the proposed improvement of the Okanogan River, in Washington, from its mouth to Riverside, a distance of 42

Investigation showed that this rive could not be made navigable without of structing an expensive system of canals, and, in the opinion of Army engineers, file commerce, present and prospective, is not sufficient to justify this expenditure by the Government, at least at this time. The adverse report will prevent any ap-propriation in the river and harbor bill for the Okanogan River.

The House committee on immigration is also meeting a few obstacles in its consideration of the "white slave" question. When the committee took up the Bennett bill today it was found that the
