"Bradley Land," Named for Benefactor, Arouses Curiosity.

WILL FIT OUT EXPEDITION

York Millionaire Anxious to Find Whether or Not Cook Really Discovered Land-Norwegian Explorer to Go North.

NEW YORK, Jan. 2.—(Special.)—To satisfy his own curiosity as to whether there is any Bradiey land in the Arctic Sea, John R. Bradiey, financial backer of Dr. Frederick A. Cook's Pohr expedition, has decided to organize an expedition to locate the vast area which Cook reported he had discovered and named in honor of his benefactor.

Captain Otto Sverdrup, the Norwerian exploirer, has been asked to head the expedition, which is to start from St. Johns, N. F., in June.

Bradiey was pleased when Cook told about the land to which he had given the name of Bradley, but there was no mention of Bradley land in Cook's final report to the University of Copenhagen, and the main who had furnished \$50,000 to equip Cook's Polar expedition was bitterly disappointed.

His acquaintances twitted him on the subject, increasing his irritation. So he decided to send the expedition.

Details of the trip will not be arranged until he hears from Captain Sverdrup. Bradley says he will have his ship stop in Greenland to get Cook's instruments and records which he left in a cache at Etah.

Captain Sverdrup, if he heads the expedition, will be asked to talk with the two Eskimos who accompanied Cook and learn from then just how far north the Brooklyn physician went.

Kansas City Woman Also Lost \$1000 When Savings Bank Failed.

KANSAS CITY, Mo., Jan. 2.—In the trunk of Miss Margaret Sullivan, who died here recently, after she had worked as a servant in the Coates house for 27 years, more than \$5000 was found. The woman was thought to be penniless. She died at the age of 65 years.

When Colonel Kersey Coates, an old-time hotel man here, died several years ago, he left Miss Sullivan, who had worked for him, \$1000. She placed this amount and her other savings in a bank. It failed and her friends supposed she had lost all of her money.

But with the opening of the trunk came

had lost all of her money.

But with the opening of the trunk came the discovery of a certificate of deposit of \$2000 from another bank, showing Miss Sullivan had an account besides her unfortunate one. About \$2000 in currency was secreted in one corner of the trunk. During her entire life the woman never took a vacation. The money probably will go to Miss M. Sullivan, of Ogdensburg, N. Y., and to Mrs. C. R. Helbing, of Grand Crossing, Chicago, sisters of the woman.

ALASKA WANTS OWN RULE None Killed and Few Hurt When

Wickersham Opposes Taft Plan to Govern by Commission.

OREGONIAN NEWS BUREAU, Washington, Jan. 2.—Delegate Wickersham, of Alaska, who has just arrived in Washington, takes issue with President Taft. He declares that the President does not understand conditions in Alaska and that if he did he would not oppose giving Alaska her own ter-ritorial Legislature.

He said today that men in Washington could not intelligently legislate, for Alaska's best good. Wickersham will continue his fight to secure the passage of his territorial government and Legislature bill, notwithstanding the objection of the President.

The Unionist Association of Ireland has issued a manifeste to the British electors, accusing the Nationalist party of separatist designs, which is proved, the manifesto asserts, by the party's acceptance of separatist Irish-American funds, and the recent Irish tour of Captain Condon and John O'Caliaghan, delegates from the United Irish League of the United States, as John Redmond's guests.

The manifesto warns the British people that Home Rule would lead to Irish independence, involving a standing menace from a military and naval viewpoint. William O'Brien, who formerly represented the Nationalists of Cork in Parliament, has decided to return to politics. He was nominated today as a candidate for Cork City.

Rev. J. Campbell, pastor of the City Temple, in his sermon today, related a characteristic anecdote. He was the guest early last year at a luncheon party. The conversation turned on what each would do if he knew that he had only two months to live Chancellor Lloyd-George, who was present, replied:

PROGRAMME OF EXPENDITURES IS HELD UP."

Condition of Uncertainty Said to Be Largely Same as in 1907, When Growth Was Stopped.

NEW YORK, Jan. 2—(Special.)—Railway improvements and extensions planned for the present year with a view to enabling transportation lines to catch up with the demands of the rapidly increasing tonnage—the betterments which would cost at least \$300,000,000 and possibly \$500,000,000—are being "held up" awaiting Congressional, labor and other developments.

This fact became known today when several of the big Eastern roads were asked for information regarding their budgets of expenditure for 1910. Usually the budgets are completed and approved during the final days of the old year, and by New Year's day the railroads are ready to announce their policy as to expenditures for the year. This is far from the case this year, and the beginning of 1910 finds Wall street rather gloomy with respect to the general railway situation. In fact, it is contended that conditions are an exact parallel to those existing during the early part of 1907.

parallel to those existing during the early part of 1907. early part of 1907.

Strangely enough the same cause is assigned for the present uncertainty as obtained at the opening of 1907. Then it was declared to be legislation, state and National, which rallroads felt to be hostlie to their interests. Just now the same apprehension exists regarding the legislative situation, state and National, but more largely National.

Whether warranted by facts or not it.

Whether warranted by facts or not, it is undoubtedly true that rallroads are halting upon the threshhold of a liberal policy of expenditure and that the halt may become a positive retreat provided certain things happen which the railroad management anticipate.

Herman Ridder Makes Charge

Counts Allege Restriction of Open Market Through Co-operation of Manufacturers Both in Output and Prices to Be Charged.

NEW YORK, Jan. 2.—Herman Ridder, president of the American Newspaper Publishers' Association, on December 2 invited the attention of Attorney-General Wickersham to statements made at a banquet of paper-dealers in New York, in which it was declared by a representative of the International Paper Company that the president of the American Paper & Pulp Association, A. C. Hastings, was advising paper mills white paper prices should be.

The Attorney-General referred the matter to United States Attorney Wise, of New York, who asked for specifications. As a result of the request, John Norris, chairman of the committee on paper of the Publishers' Association, has submitted ietailed data purporting to cover the folowing matters:

detailed data purporting to cover the following matters:

1—Restriction of 46 news print paper milis in use of news print paper—restrictions that make impossible either an open market or public quotations of paper prices.

2—Action of news print paper milis east of the Rocky Mountains in refusing to sell of .o. b. mill for spot cash or in quoting excessive prices, because, presumably, it would literfere with "a gentleman's agreement."

3—Refusai of many news print paper milis to sell other than 32-pound paper.

4—Restrictions of contracts by many mills one year periods and inclusive of wrappers on rolls in actual gross weight to be paid for.

5—Collection by the American Paper & Pulp Association of daily reports from practically all news print paper milis and most other paper milis—information that apparantly has been used as a basis for concerted action in regulating prices.

5—Trade Customs" adopted by papermakers and used by them as a basis for concerted action in regulating prices.

5—Reported agreement upon news print prices.

8—Reported agreement upon news print paper price by two large paper-making con-

eerns.

3—Action that seems to be in contempt of court by former members of the General Paper Company and of the Fiber and Manilla Pool, through disregard of injunctions

TAFT 'NICE YOUNG FELLOW'

Mississippi's New Senator Takes Liking to President.

WASHINGTON, Jan. 2 — Colonel James Gordon, who on Tuesday will present to the United States Senate his credentials entitling him to the seat made vacant by the death of ex-Senator A. J. McLaurin, declares President Taft is a "nice young fellow." Colonel Gordon called at the White House today to pay his respects.

"What did I think of the President?" he repeated. "He's a mighty nice young fellow. I like him. I felt just like putting my hands on his shoulders and calling him Bill."

Colonel Gordon does not believe there will be any opposition to his taking his seat, although he may be a Senator of the United States for a few hours only, for the Legislature of Mississippi meets Tuesday and is expected immedi-

ately to take up the matter of selecting a successor to Mr. McLaurin. Whether Governor Noel's selection will be in-dorsed by the Legislature is prob-lematical.
