#### NEWPORT MAN ATTACKED

Dregonian Correspondent Assaulted by Alleged Ropper.

NEWPORT, Or., Jan. 11.—(Special.)
—The Oregonian's local correspondent was attacked today in Rich's barber shop by R. B. Smith, the former restaurant proprietor here, who is now out on bail, accused of having robbed the storeroom of the Reception Saloon last December.

Smith returned from the Benton County Jail a few days ago and offered a signed statement of the rebbery to the correspondent. The statement, containing a personal charge against the magistrate who held Smith's hearing, today was declared a torgery by Smith. The correspondent objected, and in the presence of two men they fought desperately for the paper, Smith trying to throttle the correspondent and succeeded in getting half the paper, but had to give up before securing the signature.

Later the signature was identified by an expert in the presence of the Mayor. Smith's efforts to secure favorable evidence in Newport have not been successful.

County Courthouse struck 13 at 8 s'clock last evening.
County Clerk Lee, who, though somewhat superstitious, wears a perennial smile. Sheriff Harry Brown, always alert, and who senerally gets his man, and County Judge Thompson, who have not entered their respective offices for years without a rabbit's foot lucked away in some pocket, have, as a result of the town clock's 13-strike, some to the conclusion that all is well and that Bunny's left hind foot is no longer a necessity around the county building.

Careful examination of the works of the clock in the Courthouse tower by Janitor Sherman reveals not the slight-est indication of the cause of the unusual strike.

during the coming 12 months the water of the Wymoochie River, with the idea of its ultimate use as a source of municipal water supply. The only cost to this city will be the payment of about \$16 monthly to some rancher to take necessary samples of the water at certain intervals for shipment to Scattle.

If the offer is accepted, the test will be made above the residence of the farthest settler, so that there will be no contamination of any kind. The tests would prove for one thing how much alkali, if any, there is in the water, and avoid the frouble Spokane is up against. During a recent trip to the Canyon of the Wynoochie, City Engineer Ewart found a vast volume of apparently pure crystal water flowing through the great division of rock, and says there is an inexhaustible source of supply. Altogether, if the water test proves favorable, this undoubtedly will be the source which Aberdeen will eventually rely upon for its water supply.

(Special.)—With the passing of Captain Bob Hook at his home on Williamson River in the Klamath Reservation, there is lost to the tribe a Klamath of pure blod and a famous figure in the civilization of the Oregon Indians. He had no education, but was for many years captain of the Indian police, and always threw his influence on the side of the Government in trying to enforce the regulations laid down by the Indian Service.

Captain Hook knew no fear, and no exertion was too great for him to bring to justice a lawbreaker. After his days of service with the Indian police were over he settled down on a farm and became one of the best-known Indians on the reservation, setting always an example of an industrious, law-ahiding citizen to his tribesmen.

Among the many tales told of his exploits in the police service is the encounter with a bad Indian named Major, who killed his wife and, after starting to floe, met an inoffensive Indian whom he also shot down. #### QUART OF GOLD SPILLED

Bank Messenger's Mishap Gives Crowd Visions of Wealth.

RICHMOND, Va., Jan. 3.—A messenger from the First National bank spilled a quart of gold on the sidewalk in front of the bank, the sight of which nearly caused a rlot among the pedestrians, who rushed in from all directions, endeavoring to get rich quickly.

Most of the money, however, was recovered, along with a quantity of dirt, which the anxious messenger scooped up with the gold and returned to the bag. The young man was taking the gold across the strest when the bag ripped, and, before he knew what had happened, the street was yellow with money. Big, shining double eagles seemed endowed with life as they stood up on edge and rolled away, crowding over each other and seeking out incredibly small cracks between the paving stones in which to hide themselves.

With a heavy bag of gold in one hand and a half empty bag in the other and a quart of gold rolling merrily along the sidewalk, the messenger was hearly paralysed.

## Why Does Not The Stomach Digest Itself?

An Unsolvable Problem, Which Has Puzzled Physicians of All Schools. A Trial Package of Stuart's Dyspepsia Tablets Sent Free,

There seems to be no logical reason why the stomach should not digest itself when we consider the fact that it seeretes digestive fluids and acids which are powerful enough to disintegrate and digest meats, eggs, fruits, cereals, vegeigest meats, eggs, fruits, cercals, vege-ibles and other forms of food taken

tables and other forms of food taken into it.

In animals which were killed while in full digestion the stomach has undergone complete self-digestion after death, when the body was kept warm; and in human beings who have died suddenly, while digestion was going on, it was found at the autopsy that not only had the stomach been digested, but also the liver, pancreas, spleen, and portions of the intestines.

The question inturally presents itself, "What protects the stomach from self-digestion during life?" Dr. Hunter declared that the "principle of life" in living things protected this organ from being digested by its own fluids, but Dr. Barnard successfully demonstrated that the hind legs of a living frog, when introduced through a fistula or artificial opening into the stomach of a dog, undergoes complete digestion, and Dr. Pavy, through similar experiment, found that the same was true of a rabbit's ear. While the normal stomach is immune from self-digestion, there are many cases on record, however, in which a long. from self-digestion, there are many cases on record, however, in which a long-standing gastritis, and perverted digestion, has completely digested or eaten away the mucous membrane lining of the stomach, and in some instances has

the stomach, and in some instances has engendered gastric ulcer, which ate its way clear through the stomach wall, and caused a fatal peritonitis.

In all cases of perverted function of the stomach, which manifests itself by the numerous well-known symptoms of indigestion and dyspepsia. Stuart's Dyspepsia Tablets act as a corrective, restoring it to a normal condition, toning up the secretory glands, as well as the lacteal glands, which absorb the food, and at the same time assisting the stomach in the process of digestion, and preventing all possibility of such conditions arising as will cause perverted function, gastritis, gastric ulcer, or the eating away of the mucous membrane of eating away of the mucous membrane of the stomach.

Suart's Dyspepsia Tablets are exceed-ingly powerful digestives, a single grain being sufficient to digest 3000 grains of food, including meats, vegetables, cereals, etc. They digest albumenous and starchy foods equally well. and so lacking in tone, that it furnishes an insufficient amount of gastric juice, such symptoms as heartburn, biliousness, headache, belching of gas and sour eructations are sure to appear, and make one feel generally miserable.

Bell Set a-Clanging When Company's Home Is in Peril From Burning Paper.

NEW YORK, Jan. 2.- The frantic ringcome Good Wives.

NEW YORK, Jan. 5.—George Doan Russell, a lawyer of this city, announced yesterday that he has prepared papers for the incorporation of, an institution to be known by the name of the Wifehood Guild, which will be situated at Huntington Manor, L. L. Besides Mr. Russell the incorporators will be Mrs. J. W. Clark, of New York, and Mrs. J. Elsworth Tappan, of Pittsburg. At the institution it is stated proper instruction in the ruddments of matrimony will be given to prospective brides, praticularly young women who through circumstances are forced to work in offices and thereby miss a home training in cooking and hygienic housework.

Mrs. Tappan said that after an investigation of domestic unhappiness she ing of the bell on the spare fire engine

ringing the beit until nearly the whole company was gathered around the engine. Then, as one of the firemen started to climb up to get her, she leaped to the floor, and running with shrill sureoches to the back of the building jumped and caught with hands and feet the wire netting over the glass in the rear door, and shook it until lock and hinges ratified.

tled.
Curious to find out what made the monkey act in such an unusual way, the firemen looked out and saw the cause of the disturbance. Near a wooden fence that surrounds the little yard in the reas of No. 22's quarters a small bundle of newspapers were burning brightly, where it had evidently been thrown from one of the neighboring apartment houses.

Jackson Smith Is in Hospital,

Jackson Smith, vice-president and gen-Jackson Smith, vice-president and general manager of the Oregon Trunk Line, is confined in the hospital, suffering from malaria. Mr. Smith was one of the Panama Canal commissioners in the Roossvelt administration and contracted malaria on the Isthmus. The trouble remained latent for more than a year, but recently developed and failed to respond to home treatment.
