THE MORNING OREGONIAN, THURSDAY, JANUARY 13, 1910.

come. We sincerely hope Multhomah County will accept us."

SCOTTISH RITES UNITE

Twenty-first Annual Reunion Opens

Twenty-first Annual Reunion Opens Today at Cathedral. Preparations were complete last night for the 21st semi-annual reunion of the Scottish Rite for the Valley of Port-land, and at 3 o'clock this morning can-didates will be gathering at the cathed-ral. Of the several hundred who have been slected from time to time, it is probable that from 50-to 100 will be ready to put on the white ribboms of the o put on the white ribbons of the initiate.

There are four separate and distinct lodges in the Scottish Rite-Oregon Lodge of Perfection No. 1, Alasworth Chapter Rose Croix No. 1, Multinomah Council No. Boy Federation Act, J. Answorth Chapter Rose Creix No. I. Multinomah Council No. J. Knights of Kadosh and Oregon Con-aistory No. I. Masters of the Royal Se-cret. A separate election is had in each of the lodges, and a candidate is al-lowed the privilege of taking one or more of the sets of degrees conferred. For that reason many applicants have halted in one division or another of the rite in past years. They are privileged to come in and apply at any time for another installment of the work. In some of the lodges the class may be larger than in others. Many prominent men of the state are expected to be in attendance at the re-union and to participate in the work J. R. Seymour, deputy of the Supreme Council for the district of British Co-lumbia, will head a delegation from across the line.

across the line. Thursday, Friday and Saturday will be

utilised in the conference of the 12 de

THE SIMPLE HOME REMEDY

The new remedy. Salgrone, for rheu-matism and kidney trouble daily growing more popular. Retarded action of the kidneys causes an accumulation of uric acid in the blood and forms the founda-tion for rheumatism. Salgrene acts di-rectly on the kidneys, eliminating the uric acid, thereby giving almost instant voted.

Procure two ounces Salgrene, four ounces pure olive oil and mix thoroughly and take two tesspoonfuls every three hears until relieved; then one tesspoon-ful three times a day.

\$50 REWARD

For any case of Kidney, Bladder or Rheumatic trouble Hall's Texas Won-der cannot cure if taken in time and given a fair trial. One bottle often per-fects a cure. Sold by all druggists or mail 31.00. Send for testimonials. Dr. E. W. Hall, 2926 Olive st., St. Jouls, Mo.

Chamberlain's Cough Remedy is not a common, every-day cough mixture. It is a meritorious remedy for all the troublesome and dangerous complica-tions resulting from cold in the head, throat, chest or lungs. Sold by all deal-ers.

bers of the board of Pictata as to his findings. The Board has now before it for consideration several bids, among them being one by the Public Works Engineer-ing & Construction Company, of Portland, for the type of crematory objected to so strenuously by Mr. Lombard. The board

ays: I spent a day on an investigation of the plant a Oak Fark, III, a suburb of Chicaso. The incinerator is the Lewis & Kitchen type. I was asked to see this by Mr representative, and he stated to me that this plant was a representative one, and probably the best for the purpose of judging as to parts from the city Hall. It has been in operation for two years; no repairs of conse-tences have been made to date. The garbage is hauled up in carrs on an inclus grade, and it may be directed from the main floor into the furmaces through all or any of six drop doors. They are destroy-ing on about 10 toons per diem, working a 10-hour shift. The furmace is lined with brick, with shelves on cach side; the pur-pose of the latter being to dry the garbage to make extent before it drops into the fur-ace. This plant has no chamber to burn obnox-

to some extent before it drops into the fur-nace. This plant has no chamber to burn obnex-lous cases, all of the latter going up through the shaft and out into the open air. The shaft was originally 100 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height, but has been raised lately to 150 feet in height of the stack has not solved the problem yet, it still being considered to zome extent a numance. This is inevitable where no pro-vision is made to hum othonalous gases. The premises are sanftary, and there are no of-fersive odors around the building. Incheration is Complete.

Incineration 1s Complete.

Indication to condition.
Interaction to complete. No system the two states in the degree of heat developed is maintained, and i am of the optimion that is an of the optimion that is an of the optimion that is developed, thereby causes in the two states in the refuse in neveral places. The inline is nearly worn out of the furnish the present time, and must be replaced soon at considerable expense, yet I spread to the the process and the transferable expense, yet I spread to the the process and plant is the fact they are now using two pounds of coal to each ton of refuse developed. They state they might use is coal, but that if they did so they would be doubt be exploined out of business as a more than the defects as to complete incineration, the fact that 200 pounds of coal the fact that 200 pounds do coal the fact that 200 pounds do coal the fact that fact the fact that fact

I our city. I wish to emphasize the fact that this plant was pointed out to me as a star exam-le of the Lewis & Kitchen type. I should strongly object to the use of this system in Portland, for the reasons given above.

the operator on piece work was not paid on the time basis.

PAVING HIGH FOR SUBURB

Sellwood Taboos Portland Material

as Too Costly, Inspects Another.

J. W. Campbell, A. C. Mowrey and L. J. Hicks, special committee of the Sell-wood Board of Trade have reported that the cost of hard-surface pavement as the cost of hard-surface pavement as used in Portland is too great for the suburb. They ascertained that the as-sessed value of Sellwood residence prop-erty was not sufficient to carry the sewer and street improvements at this time, and to lay hard-surface pavements on top of the sewer system would con-facate the property ascessed. However, it was thought some of the business streets might be paved. The committee received a proposal from

The committee received a proposal from Archie Mason, a Portland contractor, to put down a concrete pavement at \$1.25 a cathic yard. This bld was favored by the meeting. The committee was instructed to investigate Mason's pavement material and report at the next meeting. Dr. R. S. Stearns, president of the Sell-wood Commercial Club, addressed the meeting commending the streetcar service Sellwood is receiving.

SPECIAL DEPUTY NEEDED

Municipal Court Tries 7941; Too Many for Part Time Man.

The annual report of City Attorney The annual report of City Attorney Kavanaugh now in preparation shows that in the past year 7941 cases were tried in the Municipal Court. Deputy City Attorney R. A. Sullivan, who rep-resents the City Attorney's office in this

court, is compiling data upon which, it is said, Mr. Kavanaugh will recommend that in the future the city provide for the appointment of a special deputy, who shall have no other work to attend to

shall have no other work to attend to save the criminal cases. Under the law the Municipal Court is a court of record and a written complaint must be filed in every case, even the sim-ple charge of drunkenness. In one in-stance recently a case appealed from the Municipal Court was reversed be-cause the records failed to show that the City Attorney had filed the proper com-plaint.

TO CUBE A COLD IN ONE DAY.

to private firms and corporations. An ordinance, granting to the Chi-nese the right to celebrate their New Year, by discharging fireworks and otherwise, was passed, carrying an emergency clause. The celebration will begin early in February. The Council had so much business to transact that an afternoon session was required, the second one since Mayor Simon took office last July. An ordinance repealing the ordi-nance ordering the special election on the water question, was passed. Coun-ciliman Wallace voted against it, say-ing the amendment should have been adopted as proposed by Mayor Simon. Devin Says Employes Shirk.

Devlin Says Employes Shirk.

As was expected, a verbal engage As was expected, a verbal engagement occurred when the question of safarfes came up. Councliman Davlin, chairman of the ways and means committee, at-tacked the appropriations for this pur-tacked the appropriations for this purtacked the appropriations for this pur-pose as arecommended by the committee, which held its sessions with Councilman Baker as acting chairman, Mr. Devlin having been ill. Mr. Devlin said that there was a lot of shirking of duties in the city's employ and that he would not vote to increase any salaries until, at least, somochecking system should be in-stalled to keep tab on the employes, to see that they worked the hours required

see that they worked the hours required by the charter.

by the charter. Councilman Baker replied that he sup-posed Mr. Devlin had forgotten the time when he, too, was only a clerk in the City Hall, having "run the gamut and landing as receiver for a bank." But, Mr. Baker argued, others were not' so fortu-nate, and still were working for the city and should be cared for and should re-ceive increased salarles when they de-serve them.

serve them.

ceive increased salarles when they de-serve them. Councilman Rushlight stood with Mr. Baker, being a member of the commit-tee. Councilman Wallace, also a mem-ber of the committee, submitted what was called a minority report, but it was signed by the majority of the members of the committee, Councilmen Cellars and Devin having decided to support Mr. Wallace. These reports, however, were relative to the police and fire departments, fixing the salaries at \$50 a month for the first year, \$50 for the second and \$100 thereafter. The Baker-Rushlight report was for \$50, \$50, apd 5100 and finally pre-valled, the vote being six to nine. The lower scale was recommended by the Executive Board committees of the re-spective departments. spective departments.

Mayor Simon, answering the argumen of Councilman Baker that it is difficult of Councilman Baker that it is difficult to get men for the police and fire de-partments at \$50 a month, declared that he had been assured by the police and fire committee of the Executive Board that plenty of first-class men can be had for those salaries. Mayor Simon favors the lower rates of pay, and that he will veto the portion of the ordinance relat-ing to these propositions is believed cer-tain.

Various other salaries were increased

among them those of Deputy Auditors Gill, West, Pierce and License Inspectors McEachern and Hutchinson. Gill's salary is increased from \$150 to \$15 a month and the others from \$125 to \$150 a month. Three stenographers in the Auditor's of-fice were advanced 100 each. Slight in-
