### SECOND SEANCE IS GIVEN Dr. Willey Puts Man in Cataleptic

Dr. Felix Willey, hypnotist and menfor Felix Willey, hypnotist and mental telepathist, gave a second seance at the Bungalow Theater Sunday night, placing one subject in a state of catalepsy and putting another through capers while under hypnotis. S. A. Himovsky, cutter and fitter for Olds, tion in the Spring.

Wortman & King, was the subject who went into catalepsy. Stretched be-tween two chairs with feet on one and went into catalepsy. Stretched between two chairs with feet on one and head on the other, he became stiff enough to sustain Dr. Willey's weight. After being revived he tried several times to walk, but fell back helpless. Later, however, he recovered himself, and said after the performance that his knees were quite sore, but that as he had not far to walk, he thought he would get home all right.

When first placed in the cataleptic condition Mr. Himovsky remained so after Dr. Willey had made several efforts to ravive him. It was necessary to splash coid water in the man's face to revive him. Later he was hypnotized again, and while cataleptic's pin was thrust through his ear.

Harry Bert, a young man living at the Winchester, bit off a piece of potato wille hypnotized, thinking it to be a pear. He also sang a sole, although those who know him say he cannot sing.

those who know him say he cannot sing.

A disturbing element in the audience last night made it difficult for Dr. Willey to perform his feats. Harold Benney, an actor whom Dr. Willey met at Salem, and who came to Portland and posted some bills for the hypnotist when he was here two weeks ago, went upon the stage with the volunteers, at this Dr. Willey refused to continue with the performance.

The trouble, as told by Dr. Willey's manager, R. L. Black, last night, was that Henney demanded a third of the box office receipts, and said he had a \$28 claim against the hypnotist, on account of the first performance given in Portland. The situation was briefly explained to the audience, and Benney left the stage.

Several feats of mental telepathy,

such as finding a pin, writing on a blackboard by mental suggestion and toeing a chalkline while blindfolded, were performed.

## HANDS AND FEET WERE SWOLLEN

Case of Inflammatory Rheumatism at Portland That Resisted Ordinary Treatment.

Almost any pain or ache which cannot readily be accounted for is usually classi-fied as rheumatism. Some of these are transient and cure themselves. An actual attack of rheumatism is

very difficult to ours so that it will stay oursed. Ordinary freatment aims only to relieve the pain until the attack wears litself out. Then it is liable to occur again and usually does, year after year.
The only lasting cure is secured by driving the rheumatic poison from the system and building up the blood so that the disease is prevented from obtaining a new foothold. The cure of Mrs. E. Oisen, of No. 972
