## JOHNSON IS TRIED

Restaurant Man's Appeal Up After Long Delay.

### JURY OF EIGHT IS CHOSEN

Delmonico Wine List Introduced Despite Objection - Policemen Tell of Raid in Early Morning Hours.

The trial of Ed D. Johnson, ex-propriefor of the Delmonico restaurant, at 149 Seventh street, on one of his appeals was begun yesterday before Judge Morrow. The appeals number four in all. Repeated delays have been secured in the past by the defense. The trial yesterday was upon a charge different from the one which had been set and the City Attorney had to summon a new set of

After a consultation yesterday, City Attorney Sullivan announced himself as ready to go on with the case in which Johnson is charged with the sale of a bottle of beer to F. A. Venemoon on August 28 last, out of hours. Johnson had been fined \$100 and sentenced to 50 days in Jall in the Municipal Court.

### Jury Trial Granted.

Attorney Idleman, for the defense, de-manded a jury trial. Judge Morrow in-formed him that it was not customary to grant jury trials when the first trial had not been before a jury, but the court said he was willing to grant a jury to prevent delay. The January jurymen having been excused by Presiding Judge Bronaugh, Deputy Clark Bush was called the collection of the property of upon to collect a sufficient number by telephone to try the case. When eight had been obtained, both sides expressed

themselves as satisfied.

There were many objections by idleman, who succeeded in excluding testinony as to the amount of beer sold to Johnson by various breweries. The wine list of the restaurant was admitted over objections

Louis Trummer, who was summoned by Deputy Constable and who said that he had not answered the summons because he was busy unloading a car of beer, was not permitted to testify definitely how many bottles of beer he had sold to Johnson. The evidence in the Municipat Court showed the number to be between 2000 and 2000. Trummer held a mortgage for \$2500 on Johnson's place and was af-fected directly by the officers' action against Johnson.

The case was not completed last night. Mr. idleman said he wanted to argue the case before the jury an hour, Mr. Sulli-van asked for five minutes. The trial will be completed today.

### Policeman Tells of Raid.

foseph Klenlen, a member of the polic force, testified that he raided Johnson's place with Policeman T. E. Maher and that Policeman C. T. Potter was called in later. The waiters started on the run with trays loaded with beer bottles when he entered, he said. Then Johnson to'd him the patrons brought their beer with them, but when the patrons told a differ-ent story, he wanted to know why he was continually harassed by the police. The jurors who are trying the case are R. J. McCollum, J. A. Mariett, C. H. Tabke, K. C. Couch, J. F. Mahoney, A. J. Van Wassenhove, Thomas Cochran and

Johnson is charged also with selling two bottles of beer to a man named Mackay on August 2s. He was sentenced to 60 days in Jall for this offense. The appeal was taken October 1.

Another charge is that of selling beer cups to C. E. Freeman, E. England of F. W. Keller on January 17, for which Judge Van Zante fined him \$100 and gave him 56 days in jail. guve him 56 days in fall.

The fourth charge was made by Joseph Klonien on November 19, for which he was sentenced to serve 60 days.

ESTATE ALLOWED TO BORROW

## County Judge Permits Executors to

Redeem 573 Acres.

O. M. and Howard T. Rankin, executors of M. B. Rankin's estate, were permitted by County Judge Webster, yesterday morning, to redeem 573.38 scree of land in Lane County which formerly belonged to the estate, but were sold to J. P. Porter in satisfaction of a judgment for \$42,605.40 obtained against Rankin in the Lane County Circuit Court by H. C. Mahon on March Porter paid \$10,321.92 for the tract,

although the executors say it is worth much more. The time in which it may be redeemed expires January 21, and neither the executors nor the estate have the \$11,494,47 required to redeem the land. But they can borrow this the land. But they can borrow this sum from Merritt C. Griswold at 7 per cent on a promissory note and mort-gage of all the property of the estate in Benton and Lane counties. This will

### Application of Executive Denied; Partial Distribution Ordered.

County Judge Webster Tuesday de-nied the application of B. G. White-house, one of the executors of the es-tate of John Green, for a final account-ing and the designation of himself and C. J. Reed, the other executor, as trustees, with authority to dispose of the real estate, valued at about \$500,000, and distribute it among the helrs. At the same time Judge Webster directed

about \$40,000 being on hand.

Mr. Whitehouse had asked the court to require Mr. Reed, who has charge of the books and accounts of the estate, to make an accounting covering the last 12 years. This was desired by Mr. Whitehouse preliminary. Whitehouse, preliminary to disposing of the property of the estate and distributing it among the heirs through trustees as rapidly as it could be

French Bark First Vessel to Get Away in January.

### WHEAT TO UNITED KINGDOM

Grain Shipments for Month Are Far Short-During First Month of 1909 Eight Grain Cargoes Were Cleared Foreign.

January shipments of wheat, foreign, opened yesterday when the Port-land Flouring Mills Company cleared land Flouring Mills Company cleared the French bark Jean Bart with 169, 674 bushels of wheat, valued at \$120, 642, for Queenstown or Falmouth for orders. The clearance of the Jean Bart is the first for the first month of the second half of the cereal year. She will be followed by the French bark Andre Theodore, which has been loaded by the same exporting firm.

Foreign grain exports have been unusually slow for January. During the first 19 days of the same month of last year the exports amounted to 51,945

ruary 1.

The contract for the delivery of the The contract for the delivery of the lumber was recently awarded to J. Ernest Laidlaw, of Portland. His bid was 50 cents less than any of the offerings made by Puget Sound mills, but owing to the differential of \$1 a thousand feet in transportation rates it was thought that the lumber would be dispatched from Puget Sound. Waterhouse held a contract for carrying lumber at \$3 a thousand from the Sound and \$10 from the Columbia River. and \$10 from the Columbia River.

Timber could be secured at about 50 cents a thousand cheaper on the river than on the Sound, but the \$1 differential made a difference on the wrong side. When Mr. Laidlaw secured the contract to furnish the lumber for side. When Mr. Laidiaw secured the contract to furnish the lumber for Manila, every effort was made to secure transportation at the same rate as prevailed from the Sound. He was successful, and the Falls of Clyde will load at Portland for the Philippines.

## REMOVES THE CAUSE OF CATARRH

S. S. S. cures Catarrh by removing the cause from the blood. It so thoroughly purifies the circulation that there is nothing left to inflame and irritate the mucous linings of the body, which is the most prominent and dangerous effect of Catarrh. As long as the mucous membranes and tissues are kept in a state of inflammation and irritation by an impure and infected condition of the circulation, Catarrh will remain. Its disagreeable symptoms of ringing noises in the ears, mucous dropping back into the throat, headaches, watery eyes, difficult breathing, and even stomach disorders and weakened health, cannot be permanently relieved until the blood is purified. Local applications alone can have no real curative value, because such treatment does not reach the blood. Sprays, inhalations, lotions, etc., are valuable only for their cleansing and antiseptic effect, but if depended on alone Catarrh sufferers will find a cure impossible. Nothing equals S.S.S. for curing Catarrh. It goes down into the circulation, gets at the root of the trouble, and removes every particle of catarrhal matter at the root of the trouble, and removes every particle of catarrhal matter from the blood and enriches this vital fluid so that instead of irritating the different nucous portions of the body, it nourishes them with rich, health-giving properties. Then the symptoms begin to pass away, and Catarrh is permanently cured. Book on Catarrh and any medical advices the control of the control of the symptoms of the symptoms begin to pass away. ## QUALITY IN EXPERIENCE

Experience is a thing of quality as well as quantity. Years of practice are no true measure of a physician's skill. Medical spe-

measure of a physician's skill. Medical specialists, as a rule, give prominent mention to the number of years they have devoted to the practice of the various specialities. In this regard I do not differ from most other specialists. I frequently state that I have treated men only for 15 years. This is a thing of importance that can be told in a few words. That's why I tell it so often. The thing I now wish to tell about requires more space in telling, and I may or may not tell it more than this once.

Experience isn't worth much unless it has quality in it. In fact, it isn't worth anything. It is just like all other bad things the greater the quantity the more badness the freeze to any other doctor, whether general practitioner or specialist. I merely make the statement because it is the truth that has application here. To do a thing wrongly a thousand times only fits one for doing it wrongly again, and the oftener he does it wrongly, the less apple is to do it rightly? To treat a thousand patients indifferently or carelessay doesn't make skill, but it adds indifference and carelessness. To treat a thousand patients thoughtfully, carefully and conscientiously develops skill, a thing of value to the physician himself, and to every patient he may treat thereafter. This is experience of quality. It is a kind of experience that I have been constantly acquiring for 15 years.

I have carried no meas-grown theories or methods with me. Others may clims to theories—I profer truths. I have put thought and study into all my work that I might ascertain the truth and make ny trearment scientific. I have fell a personal interest in the welfare of my patients, and have treated them carefully and conscientiously. I have studied each case I treated. I have learned the truths that I have sught, and have treated them carefully and conscientiously. I have studied each case I treated. I have learned the truths that I have sught, and have treated them carefully and conscientiously. I have studied each case that I am postavely certai

## Gloomy and Despondent -LET ME REBUILD and RE-

VITALIZE You at MY OWN RISK

It is always safeet to try a strange horse out in the harness a while before starting on a long trip with him. You don't need to be a "trial horse" for anybody, but it is a safe conclusion that the man who shuts his eyes and buys a horse on the seller's estimate will not siways get what he pays for. The same is true in selecting a physician.

There may be plenty of good apples in the "top talk layer," but you can't always be sure the whole barrel is sound without looking through them, and that is what you ought to do with every proposition.

You certainly can make no mistake by letting a doctor cure you first and then pay him for "goods delivered." Many doctors advertise this plan, but are not always sincere in the proposition. I advertise not a dollar need be paid unless cured, and "that goes."

I correct unhealthy conditions the same as a shoemaker would mend a pair of shoes. I made men strong enough to succeed because my whole time and study for years have been in this one line of thought, and my knowledge and experience have brought me to a point of proficiency that the average doctor has found it impossible to reach in the general practice of medicine and surgery.

These are the ailments that wreck men: Blood Poison, Varicose Veins and the Aftermath of Infectious Ailments

These are the things in the life of men that MAIM, CRIPPLE AND KILL, and the thing that gives them more power than they would have otherwise is neglect and indifference of the individual. Neglect rusts the mind, is the mother of poverty, and the root of all svil. Habitual neglect shows not only a weak head, but a faint heart. If you intend to succeed in life get "The Today Habit" of doing your duty.

I want every man who feels that he is not up to the proper standard of health to come to my office and have a confidential, heart-to-heart talk with me. This will cost you absolutely nothing, and you do not place yourself under the slightest obligation to take treatment from me by so doing any more than you would be expected to buy a sait of clothes that might not suit you simply because you had asked the price. I will cheerfully give you any information concerning your case free of cost, and if your condition is one that I consider curable I will make price and terms that will unquestionably be perfectly saitsfactory to you. Consultation and advice always free, whether at office or by mail. Medicines from \$1.50 to \$6.50 per course; within any man's reach. If you cannot call, write for self-examination blank.
