Only Four Days More of The Greater Meier & Frank Store's Annual Clearance Sale--Supply All Your Needs at Great Savings

Don't Fail to Buy a Sewing Machine, \$2 Down, \$1 Week

Our special demonstration and sale of Willamette Sewing Machines has met with instantaneous favor. We are selling dozens of machines, and all who come to investigate, quickly admit the superiority of the Willamette and the littleness of the prices. Willamette machines are priced at \$20.00 to \$35.00, and every model we have is the best of its kind to be had, no matter what the price. 'Tis wasted time and effort, spoiled material and temper to try to do your sewing on an old style, hard-running sewing machine when a "Willamette" can be had on easy terms.

Factory Expert Is Here This Week

Come in and let our demonstrators show you the good points of the Willamette. Let them explain our easy payment plan, get a booklet which shows you all about these machines. Pay \$2 down and we'll deliver the machine. Then pay \$1 a week while using it. Expert from the factory in our store this week. You'll need a machine for the Spring sewing.

NEW BRIDGE URGED

Sellwood Board of Trade Begins Agitation.

FERRY OFTEN INADEQUATE

Committee Appointed to Confer on Subject of Deeper River Chan-*nel-Test of Concrete Pavement May Be Made.

Another bridge across the Williamette River is wanted by the people of Sellwood, and at the meeting of the Board of Trade in the clubhouse of the Sellwood Com-mercial Club the subject took definite form. The meeting was largely attended by prominent residents. The following resolutions were adopted:

resolutions were adopted:

Whereas: the rapid growth of the southern portion of the city and the business interests are hampered by the lack of proper facilities for crossing the river, and

Whereas, the present ferry is unable to run during high water, often being tied up for days at a time, to the inconvenience of the people of Fulton, Sellwood and surrounding communities, showing the necessity of a bridge, and it is imperative that action he at once commenced toward that end. Resolved, by the Sellwood Board of Trade, that councilinan Rushlight he requested to libtroduce a resolution into the City Council at its next regular meeting, instructing the City Engineer to prepare plans and estimates for a bridge to be built across the Williamste River at right angles, commencing from the foot of either Umatilla aveque, or Douglas avenue (which in his judgment shall be the most advantageous point), to a convenient place on the West Side, with all approach on the East Side commencing at the west line of East Soventh street, at a height to avoid a grade crossing of the tracks of the Portland Railway, Light & Power Company, at Grand avenue, with proper approach on the West Side above the grade of the railroad track to any point he may deckle.

Premature, Campbell Suggests.

Premature, Campbell Suggests.

J. W. Camphell, who is a member of the Mayor's executive committee, ex-pressed the opinion that the movement for this bridge might be premature and that in the present temper of the people might be defeated. He called attention to the Broadway bridge, which he said would cost a vast sum. However, he said that would not oppose the movement. Walter Adams, who introduced the resolution, declared that the time was ripe for starting agitation for this bridge, as perhaps it would be three or four years before it could be built. He pointed out

that it would be a high bridge, much shorter than that at Broadway, and would cost less. The need of the bridge, te urged, was present, and he declared that the ferry was a poor make-shift.
"This bridge," said Mr. Adams, "is part
of the Olmstead system of boulevards for Portland, and will have to be built sooner or later, and the sooner we get it under way the sooner we shall get it." Deeper Channel Urged.

D. M. Donaugh brought up the subject of having the Willamette River deepened

south of Hawthorne avenue, and said that he had ascertained that the Port of Portland has jurisdiction within the city limits, which would give that body au-thority to deepen the channel south of the city limits. He said that this would not be far enough, and that it would be necessary to take the question up with the Government engineers at once, before the surveys for the year are arranged. It was desired, said Mr. Donaugh, to have the river deepened to Oswego to be of benefit to the southern district. D. M. Donaugh, J. F. Kerchem, A. C. Mowrey and William La Force were appointed to confer with the Government engineers and also with the people of Milwaukie, Fulton, Oswego and others interested. The pavement question was discussed by J. W. Campbell, Archie Mason, I. N. Day Engineer Brown and others. Mr. Mason offered to lay a concrete pavement on the streets of Sellwood if the property-owners will let him have the contract and can secure the approval of the City Engineer to a pavement of that kind. Engineer Brown said that in paying for the Hassam pavement, the prop erty owners paid two-thirds for the pavement and one-third for the name. N. Day, who represented asphalt, talked about pavements and said that the best pavement was the wood-block and asphalt, but that the former was too expensive for Portland. It was de-cided to refer the whole question to the property owners. Spokart avenue prop erty-owners will take up the question of the concrete pavement as proposed by Contractor Mason, which will be the test

A few minutes' delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberiain's Cough Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by all dealers.

CARS ARE TOO COLD

Mayor's Committee Hears Complaints of Citizens.

ABUSES MAY BE REMEDIED

Neglect of Comfort and Convenience to Be Investigated-Street Railway Superintendent Will Make Reply to Charge.

Councilmen Lombard, Rushlight and Ellis, constituting Mayor Simon's spe-cial committee on streetcar service, held the first of a series of meetings yesterday afternoon and heard complaints that have been submitted in writing concerning various alleged abuses and neglect of the comfort and convenience of passengers by the Portland Railway, Light & Power Company. Superintendent of Traffic Franklin and a staff of inspectors were present representing the company.

Meetings will be held at 2 P. M.
each Tuesday, and at the next one
Superintendent Franklin will make Superintendent Franklin will make written replies to the complaints sent to him by order of the committee. When a letter contains any specific complaint, a copy will be sent to the officers of the company, after consideration by the committee, and Mr. Franklin will make reply as to the attitude of the company at the following session of the committee will be in continuous session for a long time, at least as long as complaints of a specific nature are received. These must be addressed to the City Auditor in order to receive consideration.

Rushlight Offers Remedy.

Rushlight Offers Remedy.

Heating of cars received a good deal of attention yesterday afternoon, and the next most serious feature of al-leged neglect by the company was lack of cars and the method of hand-ling the traffic. Councilman Rushlight himself entered a complaint as to the manner in which cars are handled on the Brooklyn line, there being few cars, he said, the cars being "bunched together at times" because of poor dispatching or emergencies that arise. He also suggested that a new system
be inaugurated for bringing in the
Sellwood or Mount Scott cars.
Mr. Rushilght suggested that the
Sellwood or Mount Scott cars be routed
down Hawthorne avenue to East Wathe next session.

ter street, and thence run to East Mor-rison, which, he suggested, be made the transfer point, instead of Grand avenue and East Morrison street. Superintendent Franklin replied that he would answer these suggestions in a letter to the committee, but it seemed doubtful, he believed, whether the idea could be carried into execution, on ac-count of peculiar conditions as to the street and trackage. Mr. Rushlight also suggested that the company build some sheds for the comfort and con-

venience of citizens along the line at

been disturbing the peace in Sunny-side, had a hearing, and Mr. Franklin teld the committee that he had taken the wheel off and replaced it with an-other, perfectly round. He said that he had caused 400 pairs of wheels to be replaced in recent months. These wheels, he stated, are made "flat" by sudden application of the airbrakes and the condition of the track. and the condition of the track.

There were several complaints as to heating the cars, and members of the committee expressed themselves as of the opinion that there was much justification. Chairman Lombard asked Mr. Franklin why the cars were not heated, and the reply was that some are heated, and that others are not because of the lack of proper equipment. An effort, he said, would be made to improve the conditions, but he would make full reply to the complaints in make full reply to the complaints in writing, so that the committee would know the position of the company. know the position of the company.

Chairman Lombard expressed the opinion that there was no merit in the contention of Mrs. Nina Larowe, who complained of the high steps on the cars. He said that the cars here have lower steps than in many other cities, and he could see no objection, although Mrs. Larowe was emphatic in both of her communications on the subject. She is endeavoring to get the Portland Woman's Club to ask the committee for reitef. for relief.

The committee members were in-

The committee members were inclined not to pay much heed to a good deal that was said by certain complaints, as the tone of their letters was rather harsh. For example, A. D. Cridge said that the City Hall would be filled with complaints if the public had any confidence in the honesty of the committee and in its intentions to act in good faith. This letter was ordered "filled," which means it got little consideration. It was a sample of several others.

In Portland

Cridge said that the City Hall would be filled with complaints if the public had any confidence in the honesty of the committee and in its intentions to act in good faith. This letter was ordered "filed" which means it got little consideration. It was a sample of several others.

The committee considered all of the specific complaints. The company will submit its time schedules and other data for the use of the committee at the next session.

where it was necessary for him to go and interest prominent residents of those countles to insure the required number of competent enumerators to perform the work. In some of the more remote sections of the state, where the population is scattered, it became necessary to pay enumerators \$6 per day, rather than a per capita basis, to have the enumeration made

Owing to a delay of more than a

week in receiving the application blanks from the census burcau at Washington, it was not until yester-day that Mr. Beach was able to complete forwarding to applicants for appointment as enumerators the neces-sary blanks which must be filled out. These blanks must then be returned to Mr. Beach at Portland, and he then will forward to each applicant an "admission" card, which will apprise him where he shall report for taking the examination. When the test has been concluded, the papers will be forwarded immediately to Mr. Beach, who will deimmediately to Mr. Beach, who will de termine the appointees from the result of the examination. The announcement of the enumerators therefore will be made early in February. This will give the appointees about two months in which to acquaint themselves with the nature of the work they will be required to perform.

Threat of Murder Causes Divorce. Mrs. Irena W. Wymore brought suit in the Circuit Court yesterday agains Walter S. Wymore, alleging that he went

home drunk last Saturday night and threw a chair at her, threatening to kill her and then himself. She asks \$25 a month alimony and \$100 suit money, as she says Wymore earns \$4.50 a day, She married him October 3, 1903,
