J. P. Plagemann, manager of H. Liebes & in discussing the results of the London

"The fur market is very strong and is likely to continue so. Prices realized at the London sales, which were held from January 24 to January 28, show good advances in most furs, ranging from 10 to 100 per cent over the previous sules. The sturpest advances were in selver fox, 100 per cent, and in musicust in server for, 100 per cent, and in muscuat and oposeum, 70 per cent. Ermine and shunk advanced 50 per cent. The only no-ticeshie decline was in wildrat, but fine, long, full-furred wildrat skilms can always be util-lace at good prices by manufacturers. There to a very strong demand for mink and musk-

The prices that are now being paid in this market for furs, as based on the London sales, may be found in another column.

OREGON EGG MARKET IS VERY FIRM. Prices Advanced With the Elimination of

Eastern Eggs.
With the reduction of the supply of Eastern eggs, the market for Oregon eggs has become much firmer. Front street quotations on locals yesterday were 22@33 cents. So far as can be learned, stocks of East ern eggs on the street are practically ex-hausted and the packers and creameries are believed to have few left. The sharp cut-ting of prices recently caused them to be worked off fast. One of the largest local handlers reports that at the rate the eggs are going he will be entirely cleaned out Easiern eggs in five days. Receipts of Oregon eggs are no more than sufficient for local requirements and besides there is a moderate demand from the North that will pease as the Alaska season approaches. The heavy laying season is several weeks cheap Oregon eggs in the near future. Conditions somewhat similar prevail in the

butter market. Cream receipts are light and most of the city creameries are making no more butter than they can handle. In the main the market is considered firm in spite of the lower quotation put out by one

Light receipts of live pouttry keep price of chickens, ducks and turkeys at a high level. A straight car of Eastern dressed chickens is on the market.

ACCUMULATION IS WORKING OFF ceived-Apples in Demand.

No. 1 much green produce is coming from California this week and by Saturday the accumulation on the street should be well cleaned up. Stocks of all kinds are keep-ling well. Colory is becoming from the d up. Stochs of all kinds are keep-ell. Celery is becoming firmer, as the diminishes. A car of cabbage came Fosterday and the result was decided weakness in that article. A car of mixed vegetables is due Thursday. An express lot way of Sentile and offered at \$4.25 per box. good demand is reported for apples, both fancy and medium grades.

GRAIN TRADE NOT VERY ACTIVE. Only Demand For Wheat Comes From Call-

There was not much doing in the grain mar-ket yesterday. Aside from some inquiry from California, there appeared to be no de-mand for wheat. The barley market shows fromness because of the continued advance at San Prinnelsco. Onto are dull. frameway because of the continued advance at Ban Francisco.

FINAL RALLY IN PRICES

Drive at Interborough Metropolitan Has a Bad Effect on the New York Traction Group-Railroad Earnings.

NEW YORK, Feb. 1.—The generally heavy tone of today's stock market was due to neglect as much as to any active selling pressure. Today's demonstration invaded a new field and brought suggestions of messayes of resentment against the pushing enterprise of a newer figure in the raliroad world. The effect on the general level of prices was not very marked, but the influence on the speculative tone was not one of hopefulness. The most notable example of defiation was in the Interborough Metropolitan stocks. The whole of the local traction group suffered in sympathy. Third Avenue sold at 10%, the lowest price in its history.

cal traction group suffered in sympathy. Third Avenue sold at 10%, the lowest price in its history.

The additional speculative purging, the necessity for which was thus disclosed, helps to account for the repression of the speculation. Conjecture continued busy, nevertheless, with attempts to fathom the more general causes lying back of the heavy deciline in prices. The fall in prices of iron is cited along with the fact of some countermanding of equipment by the railroads. The agitation of anti-corporation policies is said to have spread its effect of depression from the stock market into general business to some extent. Such showing as the December net earnings report of Union Pacific and Southern Pacific, made public today, give point to the discussion, even though the heavy operating cost there shown is due principally to Winter weather conditions. Toddy's report of the growth of the Buropean visible supply of copper and the falling off in our December exports of the metal had their bearing on opinion concerning the trade outlook.

metal had their bearing on opinion con-cerning the trade outlook.

The Pennsylvania dividend was disappoint-ing to a speculative party that had looked for an increase. Colorado Fuel suffered from the disaster to its mines. Strength of Jap-anese bonds was the result of the new do-mestic ions to be floated for refunding pur-poses.

INDIANS GOOD "SHAKERS"

This Form of Christianity Makes Redskins Industrious.

SEATTLE, Wash., Peb. 1,-Miss Sarah SEATTLE, Wash, Feb. 1.—Miss Sarah E. Ober, who has spent three years among the 7000 Indians of the Washington Coast, studying their religion and customs, says that some of the tribes have doubled in population in the past 20 years. These people are healthy, live in comfort and some are citizens. They are practically all Shakers, this religion being a graft of Christianity upon the old Tomahnous, or spirit worship. When a new convert receives the "power," he becomes afflicted tempora-"power," he becomes afflicted tempora-rily with a strange twitching of the muscles and shakes and shivers in a manner that no one possibly can imi-tate while in a normal condition. "The religion has done more to save the Indians from vice than all the missionary work they have received," says Miss Ober. "When once converted, an Indian immediately becomes industri-
