James E. Moore signed the affidavit that Miss Wilson, who resumed her maiden name when she obtained the divorce, is over 18 years old and that no legal impediment stands in the way of the marriage.

"I would rather have that woman than \$1,000,000," said Mr. Haba Haba to "Cupid" Prasp, when he applied for a license.

"I gave her everything when she got that divorce from me—the home in Seattle—everything I had. Well, she thought it over and decided she was willing to live with me again, even if I do make a monkey of myself."

Haba Haba Man Happier Than Ever,

"Oh, I am the happlest man alive, even if I am a monkey," continued Mr. Haba Haba. I married her in September, 1900, at Muscatine, Iowa, and I hope I shall be married to her for a hundred years more. "You see," he explained, "my wife and I were the happlest couple living. Of course, she is much younger than I am and seemed a little like my daughter. I was always busy making money, and she made my heart sing.

I left her in Seattle. That's where I made a mistake. I lost \$200. Even the best shows there lost money. My the best shows there lost money. My wife rented a room to a woman named Edwards. Her husband was a saloon-keepr. The woman introduced a man to my wife and won her confidence, so she decided she didn't want to live with a monkey any longer, that she had rather have this other man. When I returned I took her down and introduced her to a lawyer, and told her if she wanted a divorce she could have it—she could have had everything I have."

Then Haba Haba, Ki Ki, the man monkey, grew confidential.

"Do you know, I have been wearing this rig for 24 years?" he said. "I am the youngest son of Signa Biltz, the magician. Old Mr. Barnum—we used to call him "Governor"—had six Zulus in his show when not of them Dunn. in his show, when one of them Dunn, the head chief, died.

"One day, between shows, the Governor was watching the Zulus go through their stunts—and you know a Zulu is one of the laziest creatures on God's earth—when the Governor turned to me and said, Boy, you should be able to do that. I said, I guess I can. He replied, Til give you \$10 more a week if you will make up like one a week if you will make up like one of them tonight. His physician believes the condition to have been hysterical and tried to find out from Ogura if he had received any physical or nervous shock. Ogura declared not. Ogura's case has created great interest among physicians. It is one of the very few cataleptic cases where there has been a complete recovery, and in this respect is declared to establish a record. For months his body was absolutely rigid. Were an arm to be placed in any position it would remain unmoved for hours. If Ogura were stood against the wall he remained there.
