Clearing House Will Lend \$300,000 to German-American Bank Direc-

It is now known that the negotiation by which it is expected a financial deal will be consummated between the Portland clearing-house and the directors of the German-American Bank to enable the latter to settle the 200.000 in unpaid ac-counts of the old Oregon Trust & Savings Bank are not being long drawn out be-reame of a hitch in the proceedings, but merely because of the vast amount of details involved in a proposition involving fee great a sum

It is further known that the negotia-tions are confined solely between P. L. Willis, one of the directors of the Ger-man-American, and the committee ap-pointed by the clearing-house from among its members to conduct the deal. It is also regarded as highly probable that the deal will go through and that the money will be advanced by the clearing-house as personal loans to the directors of the German-American Bank as individuals and not on behalf of the German-Ameri-rcan Bank.
