

McGINNIS TELLS STORY OF RESCUE

Hero of Kentucky Wreck Gives Narrative of Race With Rising Water.

WIRELESS KEPT WORKING

While Crew Struggles to Prevent Dynamo From Being Swamped, Wireless Operator Calls Till Alamo Is Sighted.

SAVANNAH, Ga., Feb. 6.—W. G. McGinnis, wireless operator of the ill-fated steamer Kentucky, yesterday told the story of the wrecking of his vessel and the rescue of the captain and crew by the Mallory liner Alamo, sending the story to the station of the wireless company at Savannah. McGinnis said:

"At midnight February 2 a leak was reported and by 2 A. M. February everybody was on deck, as the water was slowly overcoming the pumps. At 2:30 A. M. the captain called me and stated the condition of the ship, at the same time telling me he did not think there was any danger, though the sea was rough, but to keep the wireless going in case we needed them. I had heard from Charleston and we expected to reach there without aid.

"I started calling and shortly afterward Chief Engineer Grand told me the water was slowly creeping up on the dynamo, which would not give current much longer. I picked up the Alamo, which answered my S. O. S. signal. The Alamo was about 90 miles away.

"I gave my position as nearly as Captain Moore kept watching for the sun to get a time-sight to give them our correct point.

Struggle Keeps Dynamo Running.

"The electrician, Robert Lacey, came up about 8:30 o'clock and said the water was up to the wheels of the dynamo, which would not hold its power much longer. After some time we decided the only way to do was to put all hands to work to keep the dynamo running regardless of anything else, as the ship was settling fast. Mr. Lacey wrapped the whole thing, dynamo and turbine engine, in canvas, which gave her eight inches before she would burn the armature out. We kept in constant communication with the Alamo and made about two miles toward her.

"Everyone on board was in a serious mood. We gave up hopes of reaching Charleston and waited for the Alamo.

Water Gains Last Inch.

"About 11 A. M. just before the captain got his noon position, the electrician reported the water was up to the last inch and that the dynamo might stop at any moment. The object was to keep the dynamo running until we could get our noon position to the other ship. After a hard fight we managed to hold the dynamo running right up to the moment we sighted the Alamo.

"At 1:30 P. M. all the boats were lowered and by 3 P. M. the Alamo was alongside.

"Today the revenue cutter Yamacraw reported that the little steamer last night and today she was unable to find any trace of the Kentucky and that the vessel must have gone down.

GIRL IS KILLED BY TRAIN

Sadie Utting Struck by Chicago Special at Troutdale.

TROUTDALE, Or., Feb. 6.—(Special).—Thirteen-year-old Sadie Utting, daughter of a widow residing at Troutdale, was dashed to death and the body mangled by the Chicago Special of the O. R. & N. road at 9:20 o'clock Saturday morning. The girl was passing the depot, carrying pails of milk for delivery to customers in town. The walk on which she was traveling passes close to the depot and she stepped upon the tracks. It is thought her attention was attracted by some object of interest. At the moment the girl placed her foot on the rail the engine struck her at a speed of nearly 60 miles an hour. The body was thrown against the end of the depot by the tender of the train.

Sadie Utting was one of five children of a widow. Two years ago the husband went to Canada, where he died. The people of Troutdale assisted Mrs. Utting in starting a small dairy business.

It is not believed that the coroner will hold an inquest. No blame seems to attach to the train crew.

SAFER FOOTBALL RULES

Intercollegiate Committee Blames Tacklers for Injuries.

NEW YORK, Feb. 6.—A radical revision of football is under advisement by the Intercollegiate rules committee in charge. Greater safety for the player and more variety for the spectators are said to be essential if the game is to be permitted by public opinion to live.

The rules committee adjourned last night until March 25, after appointing a sub-committee to consider three plans of revision. The sub-committee is composed of A. A. Stragge, University of Chicago; Dr. W. L. Dudley, Vanderbilt University, Nashville, Tenn.; and O. W. Savage, Oberlin, O. When the committee reconvenes it will pass formally on recommendations decided upon in the meantime by the sub-committee.

In the main, the committee feels that injuries to players are largely due, not so much to mass plays as to savage tackles.

Accordingly, it is recommended that there be no more diving tackles, that a rigid physical examination of all candidates be insisted upon, with medical supervision of all players. Under one of three plans suggested, halves would be shortened from 35 to 30 minutes, with 15 minutes intermission, and these halves themselves split again into four periods of 15 minutes' play with intermission of five minutes.

The three plans upon which the sub-committee will report provide in substance for the following changes of alignment and play:

- 1. Seven men on the scrimmage line.
- 2. No pushing or pulling of the man with the ball.
- 3. Prohibition of diving tackles.
- 4. Ends going down the field not to be body-checked.
- 5. Players going down the field un-

UNKNOWN WOMAN PURSUES TO KILL

Supposed Wife Follows J. B. Haney to Madras, Shoots Him, Poisons Self.

TEAMSTER WILL RECOVER

Employee in Porter Bros.' Camp Refuses to Reveal Identity of His Assailant—Officers Summoned at Once From Prineville.

MADRAS, Or., Feb. 6.—(Special).—J. B. Haney, a teamster in the employ of Porter & Clarkson, in Porter Bros.' camp No. 2, in Willow Creek Canyon, four miles from Madras, was shot and seriously injured at 7 P. M. Saturday by a woman supposed to be his wife. The woman, who came with the evident purpose of committing murder, took poison after the shooting and died at Madras at 8 o'clock. The woman, who was exceptionally well dressed, came to Madras Friday night on the stage from Shaniko, and all today she was busy inquiring where she might find Haney. Finally, on learning that for the last month he had been employed as a teamster at Porter Bros.' camp No. 2, in Willow Creek Canyon, near here, she secured a buggy and drove to the camp tonight.

Arriving at the camp, she called Haney to one side and engaged in a heated argument with the man, but the bystanders were unable to hear the remarks, other than to gather from the tones that a serious argument was under way. Suddenly the woman produced a 44-caliber revolver and shot Haney in the right side, the bullet striking a rib, glancing and lodging in the man's back.

Haney grappled with her and managed to tear the gun from her grasp, when the men working in the camp rushed to his aid and, after a struggle, overpowered the woman. Both were then placed in the buggy and hurried to Madras. It is believed that when about a half mile from Madras the woman took a quantity of poison, although she was not detected in so doing. When the party arrived at Madras the woman was found to be unconscious and died without regaining consciousness.

Haney, who is out of danger and will live, absolutely refuses to make any statement. Haney has been in prison one month in his present condition. The Sheriff and Coroner at Prineville have been notified and will arrive at Madras in the morning.

MADRIZ FORCES ROUTED

INSURGENTS TAKE MANY PRISONERS AND MUCH CAPITAL.

Mena and Chamorro Soon to Join Forces—Revolt Comes Under Nose of Madriz.

BLAUPELDES, Feb. 6.—Dispatches received here describe the engagement between the provisional forces under General Mena and the Government troops. In an official dispatch Mena is reported to have defeated 600 of the enemy commanded by General Garrida, a Guatemalan, at Las Garzas, which is midway between La Libertad and Jangalpa.

Mena completely routed the enemy, capturing many prisoners and rifles. The losses to the Madriz forces were heavy, while the provisionals suffered only slightly.

General Mena is pushing forward to join General Chamorro at Comapa, which is well on the way to Managua. Chamorro in the last few days of his advance upon the capital executed a flank movement, thus avoiding the Madriz troops, who expected to engage him at Acopyas. Comapa is one and a half days from Teustepe, in Managua province, with a clear road from there to Granada.

The Madriz forces, the dispatches say, have retreated to Santo Domingo, directly to the north of Teustepe. General Chamorro holds all the lines to the interior and the enemy behind him is completely cut off.

General Aurelio Estrada, brother of the president of the provisional government, has 1200 men in the hills six miles from Managua, having succeeded in capturing a rising some time ago directly under the nose of the administration. He will join Chamorro and Mena in the march on Managua.

The provisional government expects that the people of Granada and Rivas will reinforce the provisionals, making Estrada's army 800 strong.

The expedition which went to Greytown on the gunboat Ometepe has returned after having been fired upon a number of times by the batteries. No landing was effected.

A courier from Chamorro, bearing dispatches to General Mena, was captured by the Madriz soldiers and shot.

REGISTER SHOWS FRAUD

Three Men Indicted in Seattle—Many False Addresses Found.

SEATTLE, Feb. 6.—The grand jury today indicted three men for violation of the registration law and in default of \$1000 bail, two of the men were locked up in the County Jail, the third escaping arrest by leaving town.

The two in jail are alleged to have obtained the registration of 118 fraudulent names in the interest of a candidate for Mayor who has promised a "wide-open town" if elected. One of the men, a paid party worker, was given charge of the registration books at the election. No elect and was also appointed election judge for the same precinct.

Grand jury detectives have found many fraudulent addresses and there will be arrests if the suspects try to vote at next Tuesday's primaries, the special prosecuting attorney says.

INDIAN TRIBE OUTLAWED

Surveyor Returns From Nelson River Telling of Meeting.

WINNIPEG, Man., Feb. 6.—James Whitstein, a government surveyor, who returned to Edmonton yesterday, reports having encountered near the upper reaches of the Nelson River an outlaw tribe of Indians headed by Johnny-Gun-a-Noot, who is wanted for the murder of a white man on the Pacific Coast five years ago and on whose head the British Columbia government has set a price of \$1200.

Pianos of Highest Standing

Remember, here you choose between instruments of known worth, of unquestioned durability, backed up by Oregon's foremost, largest and most responsible house.

Take choice of the famous Kimball; Philadelphia's best, the Lester; the artistic Hobart M. Cable; the reliable Marshall & Wendell; the celebrated Schumann; the time-honored Hallet & Davis; Doll; Leland; King; Story & Clark; Whitney; Hinze; Haddorff; Kohler & Campbell; Lawson; at our lowest established Portland retail prices, less whatever cash and the 5 per cent premium on same your prize check entitles you to.

Bear in mind, we guarantee every instrument as to quality and also as to price. Your money back if at any time you can buy the same grade of piano elsewhere, East or West, at anywhere near such a low price.

Remember, too, any instrument is exchangeable at buyer's option at any time within two years for either New York's most beautiful art product, the Weber, or the hand-made Hazelton, or Chicago's greatest piano, the Kimball, or the world's standard instrument, the Chickering—or the genuine Pianola Piano—we allowing full cash amount paid toward payment of the instruments above named.

Bear in mind, too, that nowhere else can be found under one roof so many high-grade pianos to choose between and test side by side as at the House of Eilers. You'll never be thoroughly satisfied with your purchase unless you have investigated our pianos, our prices and our terms.

Remember, 5 per cent does not mean a loss of profit to us, but represents the amount of money that would ordinarily go for preliminary advertising, printing bills, etc. In this case it is your gain.

Why a Bonus of 5 Per Cent?

In the past we have conducted several publicity contests, where certificates have been issued. Our experience has been that the cost of the prizes, the advertising, etc., has averaged about 5 per cent of the volume of business resulting therefrom. In this instance it is out costing us a cent for this expense, so we have determined to give our patrons the benefit of this additional saving. Each and every piano in our stock bears a card upon which is marked in plain figures the regular established lowest retail price of the instrument. Select the piano you want and if the price be, for example, \$265, deduct the amount of your prize check, plus 5 per cent; pay one-tenth of the balance in cash and take twenty-four months—yes, thirty months, if you wish, to pay the balance, for the mere additional simple interest on the deferred payments.

Remember, 5 per cent does not mean a loss of profit to us, but represents the amount of money that would ordinarily go for preliminary advertising, printing bills, etc. In this case it is your gain.

FACTIONAL WAR OPENS

DAYTON, WASH., DIVIDED OVER MEN'S ARREST.

Two Face Charges of Attempting to Break Up Revival Meeting. Oregon Minister Involved.

DAYTON, Wash., Feb. 6.—(Special).—Dayton is divided into two bitterly opposed factions over the arrest of Ira Jones and Everett Pounds on charges of attempting to break up a religious revival meeting at the Christian Church. Intense feeling is developing and the case promises to be one of the most sensational recorded here. Churchmen are arrayed against friends of the young men.

Jones and Pounds intend to fight the charge, and their attorney, Will H. Fouts, will probably ask for a jury trial. Over a dozen witnesses are supposed yesterday and it is thought many more will be called. Friends of the defendants declare a warrant will be issued for the arrest of the Rev. Mr. Stephens, of Forest Grove, Or., who is conducting the meetings and who, they declare, forcibly laid hands on Pounds and is alleged to have been giving a buck and wing dance in the aisle. It is said the minister stopped down from the pulpit, took hold of Pounds and marched him up the aisle for identification by Elder Richard Harper.

Witnesses are being selected from 600 people who sat in the congregation when the disturbance occurred. One of the principal witnesses will be the church janitress, who, it is said, saw the young men writing obscene expressions in the church hymnals.

"SPARTAN" DOCTOR DEAD

Child-Raising Theorist Bursts Blood Vessel Aiding Patient.

LONG BEACH, Cal., Feb. 6.—The strain of supporting a 200-pound patient, who had rolled off the operating table, burst a blood vessel in Dr. William Lawrence Woodruff's lungs yesterday and the surgeon died shortly afterward.

Dr. Woodruff's views on the simple life and Spartan methods of raising children had made his name known throughout the country. His first practice began to flourish on his infant children, who thrived on coarse foods and tea baths, and the wearing of only a single garment even in the coldest weather.

QUICK AIM SAVES LIFE

DOUGHTY ASOTIN HUNTER LAYS LOW FOUR COYGARS.

Stalking Supposed Coyotes He Comes on Band of Starving Animals, All of Which Bite Dust.

ASOTIN, Wash., Feb. 6.—(Special).—Charging four animals gathered about the carcass of a dead horse, N. K. Gabril, who lives in the Blue Mountains, found that instead of encountering coyotes, as he expected, he was face to face with four fierce cougars.

He did not notice the fact until so close that to retreat would mean an attack from the beasts, so he took careful aim and fired, killing one, when the rest made off to the brush. Gabril followed and, as he entered the shade, saw one of the animals crouched for a spring. A quick shot brought it down.

The other two began to advance on the surety of his aim and his quickness in handling his gun. Two well-directed shots, however, dispatched them. Gabril scalped the animals for the bounty.

He says the cougars were thin, and in the opinion of the severe winter has driven the beasts to forage in bands.

Skimmed Milk is Pure

But would you put it in your coffee in preference to rich cream? Hardly.

Ordinary Vanilla May Be Pure

But why injure the flavor of your desserts when you can get the finest, purest, most delicious extract made at practically the same cost?

BURNETT'S VANILLA

surpasses ordinary vanilla as much as rich cream surpasses skimmed milk. A trial bottle will convince you.
