A real treat for Portland people, especially provided by this progressive store at a seasonable time. Send your friends a valentine box of raisins, of beautiful sun-kissed amber clusters, sun-cured and packed at Fresno, Cal. The truth is not commonly known that raisins are food of the highest quality; 50 per cent more nourishing than meat and far more healthful.

Comparative Food Value—One pound of these sun-cured raisins represents a food value equal to each of the following: Six pounds of apples, five pounds of bananas, four and one-quarter pounds of potatoes, one pound of bread, four pounds of milk, four and three-fourths pounds of fish (edible portion), two pounds of eggs, one and one-third pounds of beef. An important medicinal value of raisins is in their laxative effects. U. S. Dept. of Agriculture, Bulletin No. 142.

Women's New Tailored Suits Spring Styles
\$40 VALUES FOR \$18.75

Another season greets you with an outpouring of charming, tasteful new fashions at prices that have never been equaled in the great West. These for Economy day only. 200 new Spring Suits, picked up by our buyers, who are now in New York, and expressed to us early for a February trade stimulant. We own them at a mere trifle of their real worth, as the factories from whom we buy thousands of suits feel duty bound to give us a few hundred at our own price in order to hold our trade, and to assist us in giving our customers something out of the ordinary at the opening of the season. The jackets are semi or tight-fitting, with various styles of plaited skirts. The collars are the new shawl effect, with cuffs trimmed to match, in Persian trimmings. Others are trimmed in moire silk. Coats are 2 and 3-button styles. All the new Spring colors are shown in many qualities of cloth. It would be a pleasure to you to see these actual values to \$40.00, priced for Economy day **\$18.75**. These suits will be found just as represented. Remember we are building a beautiful new store (finest in the Northwest) on a foundation of honorable dealing. Therefore we cannot afford to exaggerate in our advertisements. See our Fifth-Street Windows.
