FOOD COMMISSIONER TOO ZEAL-OUS, IS DEFENSE.

Idaho Butter Label Law Not Fully Carried Out, but Jury's Verdict Is Not Guilty.

BOISE, Idaho, Feb. 9 .- (Special.) -- Secand blood in the fight of the consumers against present high prices, tactics pursued by manufacturers in placing goods on the market, and the cost of living brought into the spotlight by the Pure Food Commissioner, went to the manufacturer today when the state lost its case against Roy Lee, manager of Swift & Co., charged with selling butter which had not been properly labeled. The case was tried before Judge Dunbar

and the jury returned a verdict of not guilty, after some deliberation. The trial was filled with sensations and outbursts of had feeling, in which Commissioner Wallis was charged with being over zealous in the performance of his duty, and State Chemist Mason was called a second "Sherlock Holmes."

Butter to the amount of 150 pounds was exhibited in the court and many of the packages were found not libeted as required by law. This butter has been held by the state for the past few weeks and was the bone of contention during the trial. The defense won on the argu-ment that the state officials had not given the manufaucturers sufficient time in which to comply with the labeling law.

## FOR ripe flavor of the whiskey reaches

Rheumatism is in reality an internal inflammation; a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. The disease is caused by an excess of uric acid in the blood, which comes from indigestion, weak kidneys, constipation, and other irregularities of the system. This uric acid produces an inflamed and acrid condition of the blood, and the circulation, instead of nourishing the different portions of the body, continually deposits into the muscles, nerves, joints and bones, the irritating and pain-producing acid with which it is filled. Then follow the painful and torturing symptoms of Rheumatism. We do not claim for S. S. S. that it is anything more than a first class blood purifier, and that is just what is needed to cure Rheumatism. S. S. S. goes into the circulation, and by neutralizing the uric acid and driving it from the blood, effectually and surely removes the cause of Rheumatism. S.S.S. strengthens and invigorates the blood so that instead of a weak, sour stream, causing pain and agony throughout the system, it becomes an stream, causing pain and agony throughout the system, it becomes an invigorating, nourishing fluid, furnishing health and vigor to every portion of the body, and permanently relieving the suffering caused by Rheumatism.
