It is made plain in the advices that the top flures were realized only for the best stock, and all sales were made with difficulty owing to excessive supplies and a weak demand. The situation, so far as the European markets are concerned, is considered less promising for the immediate future on the bex stock, but there is a fair cutlook is some sections for all the best fruit in barrel stock, especially the best Baldwins. NO CONTRACTING OF 1910 WOOLS. Buyers' Offers Not Up to a Level With

Growers' Views. Contracting for the 1910 wool clip has me to a stop, according to the Boston Commercial Bulletin, which says:

In the West, the growers are apparently ason. From time to time reports are dis-ninated of contracting the 1910 clip on the sheep's back, with operations told of in hearly every State but Montana. Eastern representatives have gone through the latflar state of affairs exists in all other wool sections and buyers are therefore, generally

SEATTLE MARKET FIRMER ON

LIGHT SUPPLIES.

Butter Offerings Are Limited and Market Is Steady-Poultry Demand Less.

SEATTLE. Wash, Feb. 10.-(Special.)-The local potate market was firmer today with more commission men asking \$18 for good stock. One house claimed to be getting \$10 for extra fancy Yakima tubers. The strength of the market is due to the light receipts for the last few days. Shippers are heiding rather than sell at prices which net them practically nothing. It was also reported today that large quantities of Klistias
Valley potatoes have passed into strong
hands and that selling pressure from that
district at least has been removed.

A car of Florida grape fruit arrived and
moved rapidly at \$5.50 a crate.

Celevy sold at lon prices. Another car or

Celery sold at top prices. Another car or
two are due Saturday. Pabbage is in better
supply and does not sell above 2½ cents.
Ontons are in over-supply and the top on
Oregon's \$1.55.

With mearly all jobbers holding back orders butter is in rather limited supply, although prices are dropping in almost every
other market in the United States.
Eggs sold at 25 cents. A few sales were
reported below 25, but the stock was not first
class. Poultry arrived more freely and the

Stock Market Gets Away From the Big Buyers.

HOLD PRICES IN CHECK

Desire to Add to Their Accumulation at Low Values - Result Is an Uncertain Tone Through.

the day before. The suddenness and violence of that movement carried prices away from the level which had been the attraction for the kind of buying which proved an effectual check to the unbridled activity of the bears. There began to come back on the market the stocks which had been bought for purposes of support in the period when the downward movement was checked and turned.

The symptoms did not materially alter the conviction that great progress had been made in clearing up the situation and in strengthening the tschnical position. The process of accumulation of speculative holdings by the larger class of operators was believed to have set in. The halt in the recovery and the lack of aggressive action toward bidding up prices was read as an indication of desire on the part of the important functional interests to continue their accumulation without too rapid a rise in prices.

accumulation without too rapid a rise in prices.

Signs of renewed selling from time to time today gave rise to the supposition that liquidation remained to be completed in ayots. The statistics for January of the Copper Producers' Association were much more favorafile than had been anticipated. A small reduction in the output of the metal was accompanied by larger deliveries for domestic consumption and export than for any month of last year, the surplus stocks being reduced in consequence unward of £1.000.000 pounds to 88.483.339 pounds. The late at which the exports of the metal are going into stocks in warehouses abroad, rather than into consumption, modifies the advantage of the position. Business for the current month also is believed not to be holding fully at the January rates. For these reasons, the effect of the showing on the copper industries was neutralized.

Resumption of interest payments on the Peoria & Eastern income bonds, a substitution of a selividend policy on the part of the influential financial authorities. The retention of the former dividend rate by the Southern Pacific directors was not unexpected.

Albany Moves Too Late.

ALBANY, Or., Feb. 10.-(Special.)-Albany's city limits will not be extended before the national census is taken and its population will be that of the old limits, which do not include the newly built suburbs. Plans for the extension of the limits have been under consideration for some time, and at its meeting last evening the city council took steps for a special election on the matter, but it is said to be too late to comply with before the taking of the census.
