

Phases of Industrial Growth in the Pacific Northwest

BOOM IS EVIDENT

Construction Work Means Activity for Deschutes.

CAMPS DOT ENTIRE LINE

For Full 120 Miles Along Canyon Crews Busily Engage in Making Territory Affected Thrive. Future Most Noticeable.

THE DALLES, Feb. 12.—(Special.)—Thanks to the ever-increasing scope of the construction work along the Deschutes and the rapidly enlarging forces there engaged, this city is the scene of an almost unprecedented activity. Not since the first days of the railroad builders' drudgery, when the rival contractors started their lively campaign for vantage grounds in the contested canyon has this the key town of the work for one of the new roads, evinced such a bustling appearance.

Contrary to reports recently in circulation that the number of the railroad workers did not exceed four thousand, it is now definitely stated that the camps of the Porter-Broder contractors alone more than that number are employed. The total of workmen on the two roads, then, probably exceeds 8000, for it is conceded that neither side has any advantage in numbers.

Deschutes Road Pushes Along.—This being the headquarters for the Oregon Trunk constructors alone, statistics dealing only with their work have been obtainable. But those familiar with the field declare that the Deschutes road is pushing ahead with equal rapidity. The Porters have 51 established camps in operation and are every day putting new ones into the field.

In these camps are at present employed, according to the last field report, 4300 men, and this number is being increased at an average weekly rate of about 200. These figures authority declares that before the end of the month more than 10,000 workers will be on the grades, this estimate, of course, including the forces of both sides.

The first stages of what promises to be one of the most interesting and "showy" phases of the work are now undertaken in the vicinity of Celilo, at which point the bridge across the Columbia is to be constructed. On either side of the Columbia, steam shovels have just been installed for the purpose of putting in approaches for a trestle to connect the bridge with the Deschutes work. For this ferry a movable incline is to be arranged to facilitate the handling of rails and heavy construction material of all kinds for transportation to the new grades along the Deschutes.

Pile drivers are now being built for the piling to be employed in the work. As soon as the preliminaries are completed and the ferries are in operation, rail laying will be undertaken up the Deschutes.

A fact significant of the activity along the canyon of the Deschutes is that in the entire mile between the construction work it is impossible to proceed at any point for more than three miles without coming to a camp.

As regards the future and that of the new Inland Empire of the Deschutes, the business men of the Dalles feel most optimistic.

Business Comes to Town.—A very considerable amount has been expended in the town in the purchase of various supplies, the building of a new office and warehouse have brought to the town, and the presence of the men coming and going from the camps, the streets and stores seem at all times overflowing.

But it is not upon the passing presence of the workmen that the business men of the Dalles are counting for its ultimate growth into a large city. Its position near the mouth of the Deschutes, the greater power producing stream in the far West, and the fact that the products of all the great Central Oregon country will practically pass through the town, are the "boosters" to declare that its future as a considerable milling and manufacturing point is assured.

They also point to its strategic position at the head of Columbia river navigation. The first move towards the attainment of any manufacturing eminence will be inaugurated next summer when, it is reported, work will be commenced upon the Moody power dam on the Deschutes river five miles above its mouth.

This, it is estimated, will produce probably more than 20,000 horsepower.

LANE COUNTY SLIGHTED
Disappointment Felt That Congress Eliminated Siuslaw-Harbor Act.

There is great disappointment here and throughout the county at the failure of Congress to include Siuslaw Harbor among those for which provision was made in the Pacific Coast bill. It was not doubted here that after the Port of Siuslaw had bonded itself and had disposed of its bonds and awarded contracts for the work of harbor improvements that the National Government would co-operate.

As a result of that disappointment, telegrams and letters are going out today from all parts of this county to Senators, Representatives, Chamberlain and Representatives Hawley and Ellis, expressing disappointment and protests and inquiring if anything can be done to correct the step that has been taken. While it may be that provision will be made later for the Port of Siuslaw, the general undertaking here is that the bill that has just been reported should have included the appropriation.

ASTORIA WILL HAVE MILL
Reduction of Freight Rate Followed by Incorporation.

ASTORIA, Or., Feb. 12.—(Special.)—As the first result of the action of the Interstate Commerce Commission in reducing the rate on wheat to Astoria, articles of incorporation were filed here by the Astoria Milling Products Company, the object of which is to manufacture flour and feed. The incorporators are Frank Patton, C. J. Trenchard, John E. Gratzke, J. T. Ross, T. L. Hall, James W. Welch, Asmus Brink and A. W. Norblad, comprising the membership of the Chamber of Com-

TWO COTTAGE GROVE HOMES WHICH SHOW TYPES BEING BUILT THERE.

RESIDENCE OF HERBERT EAKIN.

merce promotion committee, and the capital stock is \$20,000, divided into 4000 shares of \$5 each. A site for the proposed mill has been donated by the Taylor estate, and the plan is to erect a plant with a capacity of 200 barrels a day.

BOHEMIA MINES ACTIVE

Company Installs Stamp Mills, Tunnel Contract Is Let.

COTTAGE GROVE, Or., Feb. 12.—(Special.)—The Kelso Gold Mining & Milling Co., of Kelso, Wash., which has a group of claims in the Bohemia district, is installing stamp mills and other machinery, to be ready for operation by February 25.

The company has its ore bins and shafts full, having carried on development work for several months. J. S. Brund who put in a two-stamp mill last November has just finished a run of 15 days, which netted him \$353.

The West Coast Mining Company and Oregon Securities Company have shipped several thousand dollars worth of gold concentrates. These two properties have been producers for some time past. The North Fairview group is showing up as well as any in the camp. Two rich finds were made recently. The Golden Slipper has just let a contract for 100 feet of tunnel.

CLACKAMAS TO ORGANIZE

Fruitgrowers to Get Together for Mutual Benefit.

OREGON CITY, Or., Feb. 12.—(Special.)—Definite plans will be made through the Clackamas County Horticultural Society for the organization of a fruitgrowers' union, and a meeting of the society Saturday George M. Latta, Ben Kupper and William Beard were named as a committee to draft constitution and by-laws.

The meeting today was very enthusiastic and was well attended, and in future the Horticultural Society will hold a meeting each second Friday in every month at 1 o'clock P. M. The formation of a union will mean that the packing and marketing will be done through the union.

COOS BAY PEOPLE HAPPY

Bar Dredge May Be Installed if Congress Acts Favorably.

MARSHFIELD, Or., Feb. 12.—(Special.)—Coos Bay people are elated because of a message from Representative Hawley stating that in the report to the river and harbor committee it was recommended that there be appropriated \$250,000 for a bar dredge for Coos Bay and \$50,000 for the first year maintenance.

Hawley gives assurance of probable favorable action by the committee.

Long Beach to Boost.—SOUTH BEND, Wash., Feb. 12.—(Special.)—Some of the leading citizens of Long Beach organized a "push" club with about 30 charter members. The aim of the club was declared to be to secure a boulevard, a water system, sewerage, sidewalks, improved railroad service and such other facilities as will contribute towards making North Beach a popular summer resort. The officers of the club are: H. E. Deputy, president; Harvey Woodgate, first vice-president; C. P. Rogers, second vice-president; Joseph McKeane, secretary; C. H. McKinney, correspondent; W. E. Straubel, treasurer.

Pacific County's Taxes Higher.—SOUTH BEND, Wash., Feb. 12.—(Special.)—There will be \$60,000 more taxes collected in Pacific County this year than last year, and in the city of South Bend the taxes will be 100 per cent higher than last year. Notwithstanding these facts, County Treasurer Whitcomb reports all previous records for a week's taxpaying wiped out by a week just passed. The county, state, school and road levies are three mills higher than last year, and the levy in South Bend is 25 mills as against 14 mills last year.

AFTER SUFFERING FOR YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

Park Rapids, Minn.—"I was sick for years while passing through the Change of Life and was hardly able to be around. After taking six bottles of Lydia E. Pinkham's Vegetable Compound I gained 20 pounds and am now able to do my own work and feel well."—Mrs. Ed. LA DOR, Park Rapids, Minn.

Brookville, Ohio.—"I was irregular and extremely nervous. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me and I have become regular and my nerves are much better."—Mrs. R. KINNISSON, Brookville, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, including irregularities, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

bling material on National street to erect 300 ton bunkers and an overhead crossing above the electric line, for loading coal direct from the mines. The work is on the siding of the Northern Pacific. The Chehalis Brick and Tile Company has changed its drying plant where the output of the factory will be doubled. When the Superior Coal Company improvement is completed it will increase its force from 60 to 90 men. The sawmill of the Coal Creek Lumber Company is running full blast. Chehalis has had a record year in its history the coming summer.

ROSE FESTIVAL BOOMED

\$260,000 IS APPLE FUND

Touchet Valley to Plant 850 Acres of Trees This Spring.

DAYTON, Wash., Feb. 12.—(Special.)—Estimates furnished by nursery dealers place the acreage to be planted in apple orchards in the Touchet Valley this spring at between 700 and 850 acres, representing an investment of \$260,000.

The land, which is choice bottom soil, was principally pooled in small tracts, and means an investment of \$260,000. An additional expenditure of \$25,000 will be required to plant the orchards and bring the trees into bearing.

Varieties to be planted are principally Rome Beauties, Jonathans, Delicious and Yellow Newtowns, preference being given to Rome Beauties. One instance of the interest developing in fruitgrowing is the assertion of J. M. Hamilton, a nursery man, that he will bring the trees to the present has been scooped at the idea of commercial orchards in the Touchet Valley, are now enthusiastic over the possibilities of the industry. Among those who will plant orchards this spring are Dent & Wilson, 60 acres; J. T. Taggard, 50; J. L. Dumas, 25; Touchet Apple Company, 40; and others.

Business men of Dayton, Waukeburg and other smaller towns of the valley head the list of new orchardists. The clearing of land has become quite an industry here. One company alone near Grants Pass has let a contract to gear 1000 acres. This tract will be planted to fruit as rapidly as the land has been prepared.

The new city administration contemplates paving the entire business section with bituminous pavement, and some advancement has been made already. The paving alone will require many teams and a big force of men to operate the plant.

Aberdeen Gets Big Pipe Plant.

ABERDEEN, Wash., Feb. 12.—(Special.)—Contracting a total expenditure of over \$20,000 the Glazed Cement Sewer Pipe Company will be removed from Tacoma to Aberdeen. The plant here will be ready for business in 30 days, within 60 days. Charles Allen, of Tacoma, manager of the plant in that city, will have charge here.

Clatsop Will Display Products.

ASTORIA, Feb. 12.—(Special.)—The County Board has set aside \$100 to be used in getting together a display of the agricultural products of the county for a permanent exhibit to be maintained in this city, and also for an

NEHALEM WILL ADVERTISE

Board of Trade Formed, Publicity Plans to Be Taken Up.

NEHALEM, Or., Feb. 12.—(Special.)—The Nehalem Valley Board of Trade has been organized here and the first meeting will be held next Tuesday evening, when plans will be discussed as to the best means of advertising this section of the country.

The Board of Trade will take up work which up to the present has received little attention in the Nehalem Valley. This valley offers to dairymen and ranchers some of the most fertile lands in the Oregon coast. It contains a billion feet of timber stand tributary to Nehalem Bay and with the completion of the P. R. N. & C. Railroad and the improvement of the bar, this tract of timber will support an immense lumbering industry.

GRANTS PASS DEPOT NIGH
Proposals Are Posted, Telegraph Companies to Move.

GRANTS PASS, Or., Feb. 12.—(Special.)—This city will soon have a new depot. Already notices for sealed proposals are posted calling for bids on certain portions of the work. The present depot, situated in the center of the city, with the main street in front of it, has always been inconvenient. The new depot

REAL CURES FOR MEN ONLY

Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real ailment remains, and will bring the symptoms back again, perhaps the same as before, or perhaps modified in some manner.

I claim that nothing less than complete eradication of the ailment can be a real cure. I treat to remove the ailment and not merely the symptoms. I search out every root and fiber of an ailment, and I cure to stay cured.

DR. TAYLOR, The Leading Specialist.

YOU CAN PAY WHEN CURED

I CURE ALL AILMENTS OF MEN

I have treated hundreds of men who had long suffered a gradual decline of health as a result of ailments, and have been interested in noting the marked general improvement that follows a thorough cure of the chief ailment. My success in curing difficult cases of long-standing has made me the foremost specialist in the treatment of men's ailments. This success is due to several things. It is due to the original, distinctive and thoroughly scientific methods of treatment that I employ.

To those in doubt as to their true condition who wish to avoid the serious results that may follow neglect, I offer free consultation and advice, either at my office or through correspondence. If your case is one of the few that has reached an incurable stage, I will not accept it for treatment, nor will I urge my services upon any one. I treat curable cases only, and cure all cases I treat.

CONTRACTED AILMENTS
FREE MUSEUM
VARICOSE VEINS

In no other ailment peculiar to men is a prompt and thorough cure so essential. Contracted ailments tend to work backward until the most vital nerve centers become involved in the inflammation. This follows a chronic stage that stubbornly resists all ordinary treatment. Safety demands that every vestige of infection be eradicated at the earliest possible moment. My treatment is thorough. The remedies employed have a more positive action than has ever before been attained, and so perfect my method of application that even chronic cases yield completely.

All men visiting Portland should see Dr. Taylor's Free Museum of Science. As far ahead of all other advertised museums as the Dr. Taylor methods of treating men's ailments are superior to the old, haphazard and guesswork treatment. An exhibition prepared at a great cost of time and labor. No charge to see museum, which is entirely apart from medical offices.

CONSULT ME FREE

To give ailing men every opportunity of investigating my methods of treatment and equipment, I offer FREE consultation. Compare the thoroughness of my examination and diagnosis with that of other physicians, and you will readily see why my exact knowledge of the ailments included in my specialty enables me to foretell the exact result. I refuse to treat incurable cases at any price. If impossible to call at my office, write for particulars of treatment by mail.

GRANTS PASS PLANS BIG

New Mills to Rise, Hundreds of Acres Being Cleared.

GRANTS PASS, Or., Feb. 12.—(Special.)—The coming Spring and Summer will be unusually attractive here if the present plans are carried out. Major enterprises will be erected and hundreds of acres will be planted out to fruit trees.

The clearing of land has become quite an industry here. One company alone near Grants Pass has let a contract to gear 1000 acres. This tract will be planted to fruit as rapidly as the land has been prepared.

The new city administration contemplates paving the entire business section with bituminous pavement, and some advancement has been made already. The paving alone will require many teams and a big force of men to operate the plant.

Aberdeen Gets Big Pipe Plant.

ABERDEEN, Wash., Feb. 12.—(Special.)—Contracting a total expenditure of over \$20,000 the Glazed Cement Sewer Pipe Company will be removed from Tacoma to Aberdeen. The plant here will be ready for business in 30 days, within 60 days. Charles Allen, of Tacoma, manager of the plant in that city, will have charge here.

Clatsop Will Display Products.
