

WEST ADMONISHES OLD WALL STREET

Sentiment Backs Taft's Reassurances on Financial Situation.

DEMOCRATS PESSIMISTIC

But President's Lincoln Day Address in New York Generally Lauded by Men of Affairs of Country.

CHICAGO, Feb. 13.—(Special.)—That the country has been reassured by President Taft in his Lincoln-day speech in New York that the Administration has no intention of turning the business world topsy-turvy, and that the law-abiding corporations have nothing to fear, are keynotes sounded today in the editorial comment of the country on the speech.

Western financiers admonish Wall street that it is time to put its hooseys away and to get down to business on a basis of belief that legitimate business is safe under the Taft Administration.

Sentiment Won't Down. The sentiment seems to be that the President fell short of convincing the people that the tariff law is to be trusted for results and that in spite of the New York speech, will go on as before.

The Democratic press expresses the view that Mr. Taft is solicitous of the integrity of his party and that there is no less cause for worry now than there was before. He is credited with a sincere desire to avert anything that would upset the business equilibrium, while at the same time adhering steadfastly to his declared policy of making the corporations subservient to the public welfare, and not vice versa.

Words of Praise Heard. Of the general tone of the speech the financiers had nothing but words of praise.

Many men who keep well abreast of the day confessedly had not read the speech, but would do so later. This admission by so many is interpreted as meaning there was no anticipation of a "red-hot" talk which would tend to disturb the popular mind. It was expected Mr. Taft would be just as thoughtful and expression as the laudatory readers, and they could possess their souls in patience and await a quiet hour to go over the address.

Chicago Record-Herald.—The President's policies toward the interests are those for which the interests and the entire public have been preparing, and there can be no quarreling with the principle of action which the President proclaimed.

Philadelphia Record.—That the amount of reduction in the tariff is unsatisfactory, even to a majority of the Republican newspapers, the President recognizes fully, and his effort is to convince the members of his own party that they ought to be better pleased with the tariff than they are.

South Expresses Doubt. New Orleans Picayune.—His endeavor to acquit the tariff of assisting the increase of the cost of living and to lay the blame on the overflowing abundance of gold which the trusts and monopolies have acquired is especially peculiar.

Baltimore American.—Mr. Taft made it clear that it was not his purpose to lead exploring expeditions into untried ways of legislation. He did not utter anything to warrant the assumption that he would inaugurate policies that would be prejudicial to business.

Milwaukee Sentinel.—He certainly is not a man to be sneered at on a plain and sworn duty by a false alarm of "panic" raised by a small minority who would like assurance of Executive immunity in the form of a "liberal endorsement" which is the notorious euphemism for no enforcement at all.

St. Louis Globe-Democrat.—There is nothing in the address to which Wall Street should object. Enforcement of the law ought to carry no terrors for legitimate trade. The charge that Washington is responsible for the recent collapse of the New York Stock Exchange is absurd. Crops turned out smaller than expected and the Stock Exchange bubble burst.

Middle West Backs Taft. St. Paul Pioneer-Press.—The President has no thought of conceding in the attitude that will have the backing of the people. The President is still on the defensive in his discussion of the tariff. If the Payne law is as splendid an achievement as the President would have us believe, the appointment of a tariff commission would seem to be unnecessary.

Indianapolis Star.—He says much about the difficulty of ascertaining the difference between the cost of production here and abroad, but he will have the backing of the people. The President is still on the defensive in his discussion of the tariff. If the Payne law is as splendid an achievement as the President would have us believe, the appointment of a tariff commission would seem to be unnecessary.

Indianapolis Star.—He says much about the difficulty of ascertaining the difference between the cost of production here and abroad, but he will have the backing of the people. WOMAN MENTIONED AS REAL CAUSE OF NAVY COURTS-MARTIAL, WHOSE SUIT FOR DIVORCE MAY FOLLOW.

MRS. FLORENCE COWLES, WIFE OF DR. E. S. COWLES.

NEW CAUSE FOUND

Mrs. Cowles Was Instigator of Recent Courts-martial.

HEART AFFAIR INVOLVED

One Engagement Broken, Two More Brought to Light and Possibility of Divorce in Navy Circles All Fruit of Fight at Dance.

BOSTON, Feb. 13.—(Special.)—No Navy squabble of recent years has so stirred the public as the one just ended by the two courts-martial at the Charlestown Navy Yard, which resulted in the practical acquittal of the two young men accused, Paymaster George P. Auld, and Passed Assistant Surgeon A. S. Robnett. Part of this story was due to the fact that the general public the whole affair was more or less of a mystery, and part because of the attractiveness of the women concerned in the affair.

One of the real causes of the trouble, has only just come to light, is Mrs. Florence Cowles, wife of Dr. E. S. Cowles, who was set upon by Paymaster Auld at a dance, severely beaten and compelled, with his wife, to leave the function. Mrs. Cowles did not resist this unpleasant humiliation, and having some influence herself with the powers in the Navy, was it said, more than anyone else instrumental in causing the courts-martial.

Mrs. Cowles' husband it was brought out at the trial, is on a precarious footing professionally, and his attentions to Miss Dorothy Heiser, the beautiful girl of Evanston, Ill., the theft of whose picture by him was urged as one of the reasons of the trouble at the dance, were again, it is said, Mrs. Cowles' food for thought. The result of her cogitations, it is hinted, may be a suit for divorce.

Thus while the trouble may bring about one separation, it has shown, on the other hand, two romances in which hearts will be united. One is that of Miss Heiser and the young assistant surgeon, Robnett, whose engagement was brought to light, and the other that of Miss Madeline Swift, daughter of Admiral Swift, and Paymaster Auld, which was culminated suddenly after she had broken her betrothal with Harry Duer Storer.

YOUTH CARRIES SMALLPOX

Quarantined Here, Returns to Castle Rock, Where Disease Spreads.

CASTLE ROCK, Wash., Feb. 13.—(Special.)—Smallpox, has made its appearance here again. It seems that a young man working here went to Portland to visit his mother and while there a doctor decided that she had smallpox and quarantined the family for three weeks. Then the doctor decided smallpox was not the trouble and raised the quarantine. The young man came back to Castle Rock and resumed his work. Eruptions on his face appeared, but as the doctor at Portland had said it was not smallpox he continued at his work, mixing with the men at the mill. Meanwhile some of the children of his sister, with whom he lives, were taken ill. Schoolteachers became suspicious and notified the school directors. Dr. Campbell pronounced the disease smallpox, placed the family under quarantine and notified Dr. Sims, County Health Officer, who came from Kalama yesterday morning and confirmed the diagnosis of Dr. Campbell.

AIRSHIP TO BE SHOWN

Educational Exhibit Opens Today in Connection With Food Show.

Beginning today, an aviation display will be conducted as a free educational exhibit in connection with the Pure Food Show on the fourth floor of the Meier & Frank main building. This aviation display includes a real Farman airship, 30 feet from tip to tip, a replica of the machine with which Farman once established a world's record for height at 76 feet. Since then the airship has gone 300 feet high, and this ship is one in

which Aviator Paulhan operated successfully.

In connection with the aviation exhibit at the Pure Food Show there will be still another attraction in the nature of a North Pole exhibit. This is also educational in nature and consists of several photographs, enlarged, taken by Commander Peary on his trip to the Pole and at the Pole also includes a replica of the flag which Commander Peary nailed to the pole. The flag which was at the Pole will be brought here from Washington in the latter part of March. While the aviation exhibit is in progress, this week and next, balloons will be sent up from the roof of the annex every few minutes, each bearing an "aerogram" to be under, entitling him to certain prizes from the goods shown at the Pure Food Show. Every article shown will be included in this list of messages sent up from the building.

The airship exhibit will be accompanied by Lawrence M. Dare, a French aviator, who, with two assistants, will demonstrate the Farman machine and seven models of other machines. These other machines will be a Wright biplane, a Bleriot monoplane, the Antoinette monoplane, the Langley monoplane, Santos Dumont's monoplane, a Sommer double monoplane and a Curtiss biplane. There will also be a demonstrator with the North Pole exhibit.

HIGH SEAS RETARD WORK

BODIES FROM GENERAL CHANZY WASHED ON ISLAND.

Report That More Survivors Landed on Neighboring Island Is Not Credited.

PALMA, Island of Majorca, Feb. 13.—The supposition that the boilers of the French trans-Atlantic steamer, General Chanzy, exploded after she struck on the reefs near the island of Minorca Thursday night, is based largely upon the character of the wreckage of the ship, which was reduced almost to kindling.

The work of salvage and recovery of bodies continues, but is greatly retarded by the high seas. Among the bodies washed ashore was that of a woman with a baby clasped in her arms.

HERMANN JURY STILL OUT

(Continued From First Page.)

divided for one night and one day. In the first two trials of that case the jury was unable to reach a verdict after two days' deliberation. In the trial of the opium-smuggling cases in 1904 two hearings were had. At the first hearing there was a "hung jury" for two days and nights, but in the second trial a verdict of guilty was reached after 36 hours' deliberation.

Apoplexy Takes Vancouverite.

VANCOUVER, Wash., Feb. 13.—(Special.)—Robert J. Taylor, of Vancouver, died this morning from a stroke of apoplexy from which he suffered two days. Mr. Taylor came to Vancouver in 1882 and settled near Lake Shore. He engaged in the logging business on a large scale. He retired three years ago. He is survived by three daughters, Mrs. William G. Wolfe, Mrs. Alice H. Thibodeau, and Mrs. Gertrude E. Smith, and a son, Robert J. Taylor, Jr.

While it is often impossible to prevent an accident, it is never impossible to be prepared—It is never beyond any one's purse. Invest 25 cents in a bottle of Chamberlain's Liniment and you are prepared for sprains, bruises and like injuries. Sold by all dealers.

TAFT'S SPEECH IS GUIDE TO ACTION

Emphasized Topics Scheduled for Early Consideration by Congress.

SUBSIDY NOT MENTIONED

Inquiry Into Cost of Living Will Be Directed Toward Defense of Tariff Appropriation—Bills Coming Up Soon.

WASHINGTON, Feb. 13.—The fact that President Taft in his New York speech picked out for emphasis such subjects as postal savings banks, interstate commerce legislation, anti-injunction, statehood and conservation of natural resources seems to mark these subjects for early consideration by Congress. Especially is this true for the reason that measures to carry out the party pledges have been made and are being before the appropriate committees. It is remarked also that the character of Mr. Taft's allusions to the Federal incorporation bill would hardly justify the placing of that measure in the first rank of administration measures, and the fact that ship subsidy was ignored altogether makes it questionable whether the executive will bring pressure to further its chances.

Subsidy May Fall In House.

Ship subsidy legislation seems almost certain to pass the Senate, but the Democrats in the House are preparing to line up against the bill and believe that with some Republican assistance they will be able to defeat it. It is not improbable that the Senate would then place the measure upon the postoffice appropriation as a rider, in which event a second contest would be precipitated in the House.

It is expected that the selected committee of the Senate to conduct an inquiry into the cost of living will be announced this week. There is little doubt that Republican members of the committee will be Senator Lodge, chairman, and Senators Elkins, McCumber, Smoot and Crawford. The Democratic membership has not been determined, but indications are that Senators Simmons, of North Carolina, and Senator Clark, of Arkansas, will be asked to serve.

Inquiry to Be Speedy.

Republican members generally express the opinion that the inquiry can be conducted so speedily as to insure a report before the conclusion of the present session. They will undertake to demonstrate that the tariff is not responsible for the rise in prices.

The question whether the House committee on ways and means will undertake an investigation of the cost of living is still undetermined. There is no general demand for a rival inquiry and indications are that the House will be willing to leave the whole subject to the Senate. The investigation is intended to be defensive of Republican principles and is designed for use in the Congressional elections.

Appropriation Bills Ready.

Postal savings banks and appropriation bills are ready for consideration in the House. In the House, the rivers and harbors bill probably will occupy much time, and there are other appropriation bills ready for consideration. Among these is the postoffice bill, carrying about \$240,000,000, and the railroad bill, which is considered in the House this week. The Banking and Currency investigation is scheduled for resumption tomorrow. There will be important hearings also at both ends of the Capitol on the Administration railroads bill. The hearings on the anti-option bill are attracting general interest. Hearings will be resumed tomorrow.

FRUITGROWERS TO BUILD

Eugene Men Secure Option on Property for Warehouse.

EUGENE, Or., Feb. 13.—(Special.)—The board of directors of the Eugene Fruit-growers' Association secured an option yesterday on a large lot known as the Dunn property, where the association expects to erect a large warehouse. This arrangement is necessitated by the fact that the property on which their present plant is located has been sold and the building will be razed preparatory to the erection of a large business block. The association has been an institution

Thompson's Glasses Give the Best Results

WALTHAM WATCHES

The Authentic American Watch

There was a time when the term "American Watch" was one of contempt at home and abroad. To-day Waltham Watches are the standard pocket time piece from Christiania to Cape Town, from Melbourne to New York.

Peary used them in discovering the North Pole and the whole world pays respect and good will to their accuracy and honesty.

Beginning with the exposition of the Massachusetts Charitable Mechanic Association held in Boston in 1856, and up to the present time Waltham Watches, wherever exhibited, have taken the first prize and highest award at all the national and international expositions, including that at Seattle in 1909.

EATON SEARCH ABANDONED

Walla Walla Authorities Unable to Ferret Out Mystery.

WALLA WALLA, Wash., Feb. 13.—(Special.)—It was one week ago today since Mrs. Alice Eaton wandered from the Oddfellows' Home and completely disappeared. It was also the first day that no search was made on the part of the home officials, and they probably will do little or nothing more to ferret out the mystery, which has caused no little excitement in this city. Wednesday a search will be made again of the streets, for if the woman did meet her death by

drowning, her body would come to the surface on the ninth day.

Many of those searching refuse to believe the woman dead, being of the opinion

that she has been taken in by some family which does not know she is wanted or are either holding her for a larger reward.

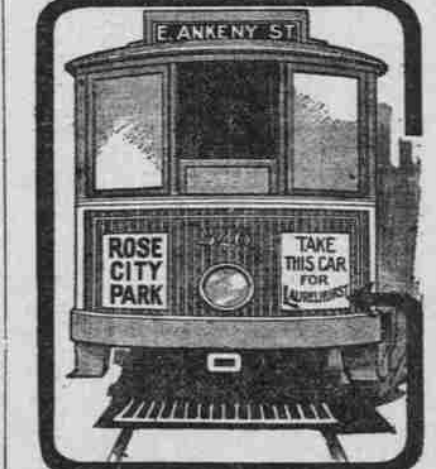

Our Glasses Preserve Your Sight

Glasses may give good present vision, yet waste the reserve power of the eyes in doing so. Later you pay the bill with eyesight that is dimmed and see all things darkly.

Avoid sacrifice-future-for-present glasses; avoid the eye strain that accompanies them then—the unhappiness that must follow their use.

Consult our opticians. Leaders in this profession, their scientific knowledge enables them to supply glasses that give present comfort and at the same time preserve your eyes for the demands that the future will make on them.
