

GOOD ORANGES SELL

Growing Demand for the Best Grade of Fruit.

LARGE SHIPMENT IS DUE

Probable Effect on the Market of Heavy Offerings of Frosted Stock — Better Feeling in the Grain Trade.

Two cars of oranges were received yesterday and six cars are due to arrive today. These six cars are a part of the trainload of oranges which one of the California exchanges is shipping North for distribution in Oregon and Washington.

There is a very good demand for oranges, especially when the right quality is offered, and prices of such are firm in sympathy with the position of the California market.

A subscriber writes me that it would be well for California fruit men, in trying to sell for the California market, to remember that one-third of the consumptive demand has been killed by the sale of the inferior trash that has been dumped on the market.

Analysing present conditions, it is interesting to observe the fact that the high-class, high-priced fruit is being handled only by a certain class of retailers, while the poorer grade, suspicious fruit is being handled to a great extent by another class entirely.

The discriminating trade insists upon having only the best, yet with the class of fruit being so limited the demand necessarily is very strong and prices higher accordingly.

As a great extent it is going to be found true this year that the low prices on poor, off-grade fruit, has no more bearing upon the value of fruit than does suspicion and is excellent in quality, than a low market on lemons has upon the orange market.

There was a rather better feeling in the wheat market yesterday because of some improvement in the demand here and on the Sound. There was considerable talk of Mexican business, and it is probable that wheat will soon be taken if they are not already under way, to send a cargo out from this port.

The weekly grain statistics of the Merchants Exchange follow:

SEATTLE, Wash., Feb. 14.—With Seattle jobbers unable to secure full deliveries on contracts placed in California last week and with little butter coming through from the East and local brands increasing very slowly, no immediate decline in prices is looked for here.

Eggs were weak at 30 to 32 cents. While receipts were light today, the market arrivals are expected to be the heaviest of the season. Orders from Southeastern Alaska, aggregating 100 cases, were placed today.

What was weak. One lot of binest was offered at \$1.14 but found no takers. The market for fruit has been about steady, but arrivals are expected to be the heaviest of the season.

Good Receipts of Vegetables. A mixed car of celery and cauliflower and a car of sweet potatoes arrived yesterday morning and a car of cabbage last night.

Bank Clearings. Bank clearings for the Northwestern cities yesterday were as follows:

Portland 1,000,000; Clearings, 1,000,000; Seattle 500,000; Clearings, 500,000; Tacoma 200,000; Clearings, 200,000.

Scanty Offerings of Stocks Sustain Prices.

Professional Element Disappointed Over the Contents of President Taft's Speech — Trading Is Light.

NEW YORK, Feb. 14.—The principal fact imparted by the action of the stock market today was its lapse, in large part, into the hands of the professional element. The element had been impressed on Tuesday with assertions put in circulation regarding the contents of President Taft's speech, then in prospect for Saturday night.

The professional element had been broadly intimated in some of Friday's receding that the professional operators' stocks promptly retraced the steps they had taken on Friday before the two-day holiday interval in the market.

The sustaining effect on prices of the scanty offerings of stocks caused fresh intimation to the bear party. Western railroad traffic officials reported a large tonnage moving. Northern Pacific's December earnings statement bore testimony to the severe effects of storm blockades, in addition to the switchmen's strike in that territory.

The decreased activity of the market is ascribed to the purpose to await more complete information on sundry subjects. The dealer deliveries of copper into consumption during January are regarded as being prompted by the belief in an argument among producers to restrict output and there is apprehension that this laying in of stocks will curtail the later demand for the metal.

COOP DAMAGE TALK

Causes Strong Buying Demand for Wheat.

ADVANCES AT CHICAGO

Unfavorable Reports Received From the Southwest Send Prices Upward and the Close Is Near the Top.

CHICAGO, Feb. 14.—A strong buying demand in wheat today, induced by many reports of crop damage in the southwest wheat country, caused prices for the grain to advance. May opened at about Friday's closing figures and forged rapidly to the front, progressing from \$1.10 to \$1.12 1/2.

The close was strong, with the more distant months at the high point and May a trifle off from the crest at \$1.12 1/2. In corn, generous buying failed to produce the effect seen in wheat, with prices between 60 1/2 and 61 1/2.

The bullish tendency to a speculative demand in oats was counterbalanced by liberal offering and forged rapidly to the front, progressing from \$1.10 to \$1.12 1/2. In provisions, pork showed a net advance of 1 cent to 7 1/2¢ for July. Lard closed 27 1/2¢ to 28¢ up and ribs 25¢ to 27 1/2¢ higher.

The leading futures ranged as follows:

Table with columns: Month, Open, High, Low, Close. Rows for Wheat, Corn, Oats, Mess Pork, Lard, Short Ribs.
