CLOUD OF STEAM WRAPS FIREMEN

Men on Torpedo-Boat Hopkins Plunged in Scalding Bath by Explosion.

Five Others Are Scalded, but Will Recover-One Man Escapes Being Cooked Alive by Jumping Into the Coal Bunkers,

SAN DIEGO, Feb. 14 .- One man is EAN DIEGO, Feb. 14.—One man is dead, five are badly burned, one of whom may not survive, and two are painfully scalded about the face and hands as result of a boiler tube blow-lang out in the forward battery of the torpedo boat destroyer Hopkins at 7:30 this morning.

Anis morning.

R. E. Taylor, a first-class fireman, is the first to succumb to the terrible burns sustained in the rush of steam holler-room could escape. He died after 11 hours of agony.

L. H. Carletillo, a second-class fireman, is nearly as badly burned as was Taylor, and his recovery is doubtful. Following is the list of the others injured:

Five Less Seriously Scalded.

J. F. Hunt, chief waterlender, Mightly scalded on hands and face. E. A. Clary, assistant waterlender, scalded on neck, arms, and shoulders. W. A. Neave, first-class fireman, scalded on neck, arms and shoulders.
G. B. McNearlin, first-class fireman, scalded on neck, arms and body.
T. J. Brown, coalpasser, slightly burned on the hands.

C. L. Davis, coalpasser, scalded on face and hands.

Torrent of Steam Envelopes Men. At the time when the accident oc-

At the time when the accident oc-curred the Hopkins was at a pier on the Coronade side of the bay and was geting up steam for a run with other vessels of the midget fleet to San Pedro. There were but eight men in

Pedro. There were but eight men in the forward engine room. Seven of them wereon the port side and one on the starboard side of the boat.

When the tube slipped and the heated steam rushed hissing from the dislodged end, six of the men on the port side scrambled up the ladder to the deck, giving the alarm. The water-tender, Cleary, who was on the starboard side, followed, sounding the fire-alarm, which instantly brought every officer and sallor to his station. The seventh man on the port side, Brown. officer and sallor to his station. The seventh man on the port side, Brown, did not have an opportunity to clamber up the stairs, and saved himself from being cooked alive by jumping into the coalbunkers, from which he emerged after the blowers had been

Rest of Crew Surprised.

There was not sufficient concussion from the pulling ont of the tube and the escaping of the steam to jar the vessel and thus warn the officers and vessel and thus warn the officers and men that anything out of the ordinary had happened. The first that men shove the deck knew thatan accident had occuerred was when they saw a great cloud of steam rush upward from the hatch above the forward fireroom. The next moment the men who were in the room began appearing in the cloud of steam as they poked their heads above the top of the hatch. Their cries of "Fire" startled the men shoard the Hopkins and the four other torpedo boats which were alongside.

The damage to the Hopkins is not extensive.

BOILER TUBE WAS DEFECTIVE

Accident Is Fourth of Kind Within Few Months.

LOS ANGELES, Feb. 14.—The flotilia strived off Los Angeles harbor at 9 o'clock after a slow run from San Diego and anchored outside the breakwater. The flotilla is composed of the destroyers Whipple, flagship; Truxton, Hopkins, Stewart, Lawrence, Gainshorough, Perry, Proble and Hull.

Proble and Hull.

Lieutenant Fredericks, commanding the Hopkins, said that the accident today was doubless due to a defect in the belier tube which burst. Three similar pened aboard the Hopkins during the past len months. The board to investigate to-day's accident will be named tomorrow and the investigation begun at once.

STRICKEN FERNIE DUNNED

Government Demand for \$7457 for Relief Aid Causes Indignation.

VICTORIA, B. C., Feb, 14.—(Special.)

The Department of Militla and Defense at Ottawa has forwarded to the Mayor of the city of Fernie a demand for the payment of \$7457 for blankets and camp equipment sent to the stricken city immediately after the great fire of August, 1908. Some of the tents and other equipment were de-stroyed or scattered and could not in consequence be returned to the Depart-ment—hence the bill.

As the federal government did not contribute anything for relief after the destruction of the city by fire, and as it has on many other occasions subscribed liberally for the relief of sufferers abroad, the bill has occasioned many historians. much indignation in Fernie and among the miners of the neighbor communi

Women Teachers Quit-Criticism of Principal Denied.

VALE, Or. Feb. 14—As a result of the controversy between many of the patrons and the principal of the Vale High School, the four assistant teachers, all women, sent their resignations to the board of trustees. This action was a result of the alleged statement of two of the trustees. Naken and Cillian was the trustees, Nelson and Gilham, published in a Boise paper, that the rumors and insinuations against Principal Seeley were ineligated by the teachers Many of Professor Seeley's critics maintain that the trustees should have demanded a public hearing of all the evidence on both sides before they issued this alleged statement. The trustees are making an effort to secure the services of other leachers.

DAMAGE SUIT WINS \$14,000

Reynolds Lumber Company Is Victor Over Simpson Company.

MARSHPIELD, Or., Feb. 14 .- (Speial.)-In the \$100,000 damage suit of the Reynolds Lumber Company against the Simpson Lumber Company, the jury returned a verdict assessing damages at \$28,000.

There was an offset of \$14,000 allowed the defendants for logs furnished

the plaintiff, so the net damages allowed was about \$14,900.

The Reynolds, Company claimed a breach of contract on the grounds that the Simpson Company refused to take

lumber, after agreeing to purchase a stated amount, and that the Reynolds mill consequently had to be closed. BUTCHERS ARE INDICTED

"And that was all you did mean?"

"Yes, sir."
At the afternoon session Mr. Vertrees said: "Let us take up Secretary Ballinger. What constitutes your dec-

laration of improper conduct on his part?" Charges Summed Up.

Glavis proceeded at some length to sum up the reasons which he declared convinced him Mr. Ballinger was "un-fit for his office and unfaithful to his trust." He said:

trust." He said:

"The first I would cite is the appearance of Mr. Ballinger in the Wilson coal case. While that was a long time ago and people may have looked at things differently, his action or participation in the drawing up of an escrowagreement to turn over claims that should have been proved up and had not been proved up, as a matter of fact, was criminal. But the statute of limitations has run and the evidence is not clear. The record speaks for itself.

clear. The record speaks for itself.

'Another thing was Mr. Ballinger's expression in the Summer of 1967 to support Agent Jones when he knew there had been violation of the coal land laws; his statement that he was coming to Washington to see what Congress could do to help the claimants

get patents. His next action His next action—one of the most important going to show that he is not loyal to his trust and not faithful to the people was this: After giving me the full right and instructions to make a complete investigation of all the coal cases, he personally took up an old report by Special Agent Love a few days after and deliberately ordered the Cunningham claims to proceed to receive ningham claims to proceed to patent.

Love Report Showed Fraud.

"The Love report, to my mind—and I have acted on a thousand or more reports—did not in itself warrant a favorable recommendation. It showed there had been an understanding among the claimants and suggested fraud rather than a compliance with the law.

"The next step Mr. Ballinger was not trying to protect the people's rights was his appearance before the public lands committee of the House in favor of the Cale bill, which carried out the statement Ballinger made to Jones that he would do what he could to obtain legislation which would have enabled these fraudulent claimants to get patents. If the Cale law had passed it would have validated the claims.

"The next step Mr. Ballinger took "Another evidence that Mr. Bal-

The next step Mr. Ballinger took was his unprofessional action-at least members of the bar regarded it so, and I know of no attorney of my acquaintance who would have done it—in deliberately going around and representing the other side after having been Commissioner of the Land Office and Commissioner of the Land Office and having full knowledge of the character of the investigation he had made. He did not act alone in the Cunningham group, but in the Green group as well he took six affidavits. He also acted as arbitrator between H. R. Harriman and John Hartline relative to the purchase of some coal claims.

Delay in Investigation Asked.

"His next action consisted in asking me, in the Pall of 1908, when he was in politics and arranging for campaign contributions, to hold off any investigation of the coal cases. This showed he did not have the interests of the Government at heart."

"No, sir; he was on a committee to get csuppaign contributions. Another action which showed him unfaithful was the fact that after hearing at the conference of Mr. Schwariz, Mr. Dennett and myself of Mr. Schwarts, Mr. Dennett and myself that there was great necessity of having a construction of the law of May, 1898, and agreecing with us that the matter was of such importance that the Attorney-General should act on it, and after instructing us to prepare a letter to the Attorney-General for him to sign, he deliberately changed his mind for some reason and turned the matter over to a subordinate of his own department.

Cowardly, Says Glavis.

a criminal charge could be predicated but, to my mind, it was far more cowardly for him to do these things than if a man had actually stolen something for which be could have been convicted.

"In July, 1999, when I saw Mr. Ballinger at his office in Seattle, and told him we had been ordered to proceed to an immediate hearing, he knew the weakness of our case. The greatest weakness was the affidavits he had himself prepared for Cunningham. In spite of this he did not take any action to bring about a postponement of the hearing.

"These facts are all that I can recall that show him unfit for his office, and unfaithful to his trust and not loyal to his people."

Mr. Vertrees next questioned Glavis as to incidents connected with the turning over of his office to his successor when Mr. Glavis was dismissed from the

Mr. Vertrees read a demand that Glavis' successor had made upon him for certain letters that were missing.

Glavis said he turned all the papers over. The ones that were said to be missing, he declared, ought to have been in his office.

Mr. Vertrees then read some letters

published recently in a weekly paper. Glavis said they were included in the list his successor had prepared as miss-

"Didn't you furnish these letters to this paper?" asked the attorney.
"No, sir; I did not."
"Didn't you leave some of your effects in boxes in the grand jury room at Seattle?"
"Yes some bear aking and camping."

"Yes, some bear skins and camping outfit." "Now, isn't it a fact that you did furnish these letters to this paper, that you placed all the papers that had been

called for by your successor in one of the boxes in the grand jury room, which was broken open on the 8th of this month, and the letters and copies found therein?" found therein?"

"That is absolutely false—it is a frame-up," cried Glavis, showing anger for the first time. "Those letters did not hurt me. Why did I want them? They hurt Ballinger." Glavis was interrupted with a ques-
