

COURT TIP ROUTS MCGARTHY'S POLICE

Squad Sent to "Protect" Appointees Gives Way to Taylor Faction.

DESK LOCKS ARE BROKEN

Woman Member of Educational Board Is Subject of Indignity of Having Suitcase Searched. Later She Resumes Duties.

SAN FRANCISCO, Feb. 16.—(Special.)—The war between the McCarthy and Taylor factions of the city administration for possession of the offices of the Board of Health and the Board of Education goes merrily on, first one side having the upper hand and then the other.

Chief of Police Martin, Lieutenant Dinan and five policemen placed themselves in contempt of court for a time this morning in their effort to uphold the hand of Mayor McCarthy in keeping the old Board of Education out of office. Judge Sturtevant's denial of the original injunction asked by the Taylor directors was barely announced yesterday before Mayor McCarthy named S. C. Clayburgh, James E. Power and J. J. Tierman as the Board of Education.

When Directors Payot, Bannerman and Mrs. Kincaid acting under the authority of Judge Sturtevant's order issued last evening, appeared at their offices this morning they were denied admission by a squad of police.

Chief Sends Police Squad.

Chief Martin sent Lieutenant Dinan and several policemen to "protect" the McCarthy school directors from interference, and the orders were literally and forcefully carried out.

But just before the McCarthy court convened some one advised Chief Martin to countermand his instruction to ignore the court order, and Lieutenant Dinan was ordered to "come in" and let the Taylor board have possession of the school headquarters.

Henry Payot and the other directors had been ordered to come in and the lock broken entirely out of its socket. In spite of the fact that he had turned over his keys to the opposition when he was ejected. The lock on the doors to Payot's and also to President Bannerman's rooms had been forced and torn off, though the keys to these locks also had been surrendered.

Political Debts Paid.

The lock to Mrs. Kincaid's room had not been forced, though she suffered the indignity when ejected of having her personal effects taken to the police station, despite her assurance that there were no official records in it.

President Bannerman made clear his position and revealed the reasons which Mayor McCarthy had urged for his removal.

"I did not seek this office," said Bannerman, "and I would have been willing to retire gracefully if a fair opportunity had been offered. I went to McCarthy some weeks ago and discussed the matter with him. He asked for my resignation and stated frankly that he desired it because he had pledged himself during his campaign to remove the Common Council and to give their places to men who had supported his canvass and were in sympathy with his administration. That was the only reason he gave."

Old Board Resumes Work.

The members of the Board resumed their accustomed place at the desks and the affairs of the department went on as usual, with all the old employees in their places, after the interruption caused by the police in the morning.

The only difference between the action of the Educational Board and the Health Board when it sought an injunction is that the former lost no time in acting. The latter wasted four days in deciding upon the course to pursue, and in the meantime, according to the interpretation of the law, the McCarthy Board had established a de facto right.

Warning Given Brewers

Los Angeles Mayor Will Drive Them Out of Politics.

LOS ANGELES, Feb. 16.—"When the brewers realize that their business is the making of beer, not some act of the government, they will have no further trouble with the police commission," said Mayor George Alexander today, in announcing the policy of the city administration with relation to the regulation of the liquor traffic.

Twenty-one saloon licenses were revoked by the police commission on the ground that they were held by "dummies" of the so-called "brewery trust." This action followed a report by a special investigating committee, which alleged that the brewers were attempting to control the entire saloon business of the city by acquiring permits already granted to individuals and bringing pressure to bear on independents to drive them into the combine.

Tillman Again Is Ill

Senator Stricken on Capitol Steps When Old Trouble Recurs.

WASHINGTON, Feb. 16.—Senator Tillman, of South Carolina, was taken suddenly ill on the steps of the Capitol today. Later he was removed to his home, where he is under the care of a physician. The attack is said to have been a recurrence of the Senator's old trouble, hardening of the arteries. The physician in attendance said he did not regard the attack as serious, and later it was said that Mr. Tillman was much better.

He was called to give a deposition in the slander suit brought by Dr. B. C. Hyde against John G. Paxton, executor for the Swope estate.

The "Doctor's" name was first brought into the Swope case when Mrs. B. C. Hyde issued a statement expressing confidence in her husband's innocence and saying that Christian Swope used Jordan's remedies. The State Department believes the roads will be constructed, not by a loan subscribed by the provinces through which they are to run, but with a loan subscribed by the lending powers in which the United States will share fully.

BLIZZARD FAR-REACHING

WEST, NORTHWEST, SOUTHWEST SWEEP BY STORM.

Traffic in Rocky Mountain States Blocked—Denver Drops 58 Degrees—75-Mile Gale Rages.

CHICAGO, Feb. 16.—A severe storm approaching in some places to a blizzard and bringing to other localities a heavy downfall of snow, driven by wind of high hurricane violence, swept over the West, Northwest and Southwest today, and tonight is moving rapidly eastward.

The storm extended as far east as Indianapolis, where nine-inches of snow fell. Twelve inches of snow is reported at Terra Haute. Reaching into Oklahoma and into Northern Texas, Kansas, Iowa, Arkansas, Missouri and Minnesota, the storm played havoc with the Rocky Mountain states, where it delayed for hours transcontinental passenger trains.

At St. Louis the worst blizzard of the winter is interfering with traffic and causing much suffering there as well as throughout Missouri and Southern Illinois.

Temperatures near the zero point prevail over Kansas tonight, and the south-western portion is covered with snow. Livestock is suffering.

Northern Pacific trains are from seven to 14 hours late on account of heavy snow in the mountains.

CANAL PLANS ENLARGED

Engineers' Report on Sunnyside Project Approved by Ballinger.

OREGONIAN NEWS BUREAU, Washington, Feb. 16.—The Secretary of the Interior has approved the report of the board of engineers submitting plans for securing additional storage capacity to provide 40,000 acre-feet of water for lands under the extension of the Sunnyside canal. This storage is to be obtained at Lake Kachess.

POPULAR RECIPE

This Home-Made Cough Syrup Stops Coughs Quickly

Make a plain syrup by taking one pint of Granulated Sugar, add one-half pint of warm water and stir for two minutes. Put two and one-half ounces of p. r. Pinex in a pint bottle and fill it up with the Granulated Sugar Syrup. Take a teaspoon every one, two or three hours. Keep well corked and it will never spoil.

The effectiveness of this simple home-made article is surprising. It usually stops a deep-seated cough in twenty-four hours. It is also excellent for colds, whooping coughs, rashes in the chest, bronchitis, troubles and similar ailments.

Use the real Pinex in making it, however. It is the most valuable concentrated compound of Norway White Pine Extract, and it is far superior to the numerous pine oil and pine tar preparations. If your druggist does not have it, he can get it for you without trouble.

The above prescription suggested makes a full pint of the best cold and cough remedy. The taste is so pleasant that children take it willingly. The total cost is about 34 cents.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

Some of the best known druggists here, as Lane-Davis Drug Co. (distributors) and others think so well of the above prescription that they guarantee it to give perfect satisfaction or refund the purchase price.

ing of the witness," interposed Representative Graham (Dem.). "I am not aware of that fact," remarked the chairman.

"It strikes me differently," replied Mr. Graham.

"I am sorry to differ with you," retorted Senator Nelson.

"The witness," stated Mr. Vertrees, "tries to put in an argument to establish all your state of facts he thinks I may be developing."

"Proceed," said the chairman.

"Now, Mr. Glavis," resumed Mr. Vertrees, "please permit me to request you to answer my questions and not add anything unless it is necessary to explain your answer. It will be greatly obliged if you will do that for me."

The examination proceeded quietly for a time.

Mr. Vertrees sought to draw from the witness the admission that, when he telegraphed the department he could not submit a report on A. A. Shaw's claims because additional evidence was available, he did not know any evidence could be obtained.

Glavis insisted that he thought evidence might be had in Alaska. He was not sure, however.

"Forestry" Letters Read.

Mr. Vertrees asked Glavis when he first received word that he was to be supplanted. He said on July 1, 1909.

Several letters and telegrams dealing with the cutting of the forestry" were read by Mr. Vertrees. Copies of these were received from the "forestry" today.

In a letter dated July 15, 1908, and addressed by Glavis to A. A. Shaw, executive law officer of the forestry service, Glavis said that the land office, "for obvious reasons," probably would turn over the papers to "the forestry."

"But I have copies of them," he continued, "and they will make mighty interesting reading to you. The reasons for my request for a delay will be apparent from my reports."

In a telegram, which Shaw sent to the district forester at Portland, that official was instructed to assist Glavis and make his telegraphic report "full and strong."

Own Report Caused Transfer.

Mr. Vertrees next turned to the charge that Glavis had made that he was called off the Alaska work in May, 1908, and got no orders to resume until October that year.

Three days before he was called off the Alaska work he had telegraphed the department that the United States Attorney was requesting immediate action on the case in Oregon, which patents would have to be attacked in the near future, and that the entire force would be required on this work until July.

Mr. Vertrees quoted a telegram from Commissioner Bennett on May 28, 1908, which told of an additional appropriation for field work, and instructed Glavis to "Push work."

Schwartz Advised Revocation.

Mr. Glavis said that he did not regard this as referring to the Alaska cases, and that H. H. Schwartz, chief of the field service, did not so regard it, for on September 23, 1908, Schwartz recommended to Bennett that the order taking Glavis off the Alaska work be revoked.

Nearly an hour of the session was spent in a comparison of a set of coal land rules compiled prior to Mr. Ballinger's service as Commissioner of the Land Office and of a set compiled by Mr. Ballinger. It was found that the rules referred entirely to lands in the United States proper, and had no application in Alaska.

Henry M. Hoyt, Attorney-General for Porto Rico, who was consulted frequently by Mr. Glavis when he was United States District Attorney at Seattle, probably will be the next witness.

GIRL TRIES TO DIE

Niece of Senator Elkins Inflicts Gun Wound.

WANTED TO GO ON STAGE

Relatives Forbade Her Choosing Theatrical Career, and She Sends Newspapers Note She Is Tired of Life—Will Recover.

KANSAS CITY, Mo., Feb. 16.—A few hours after giving what she believed to be a farewell party to a score of friends, Miss Agnes Leslie Elkins, 25 years old, a niece of Senator Stephen B. Elkins, of West Virginia, attempted suicide by shooting in her apartments in a hotel here today. The wound will not prove fatal.

In a letter addressed to the newspapers, which Miss Elkins wrote after dismissing her guests, she said: "I simply was tired of life, and the

struggle for existence was more than I could meet." But friends of the young woman say disappointment because her relatives objected to her choosing a theatrical career was the true cause.

Miss Elkins had studied music for several years. She was an accomplished singer. Recently she obtained a minor part with a theatrical company in New York, intending to adopt a stage career. Her relatives protested. She gave up the engagement.

Senator Elkins is executor for Miss Elkins' father's estate, and it is said he used his influence to prevent her from becoming an actress. Her father, who died several years ago, the family came to Kansas City several years ago.

ENGINEERS LEAVE MINES

Shutdown in Butte Follows Jurisdictional Union Dispute.

BUTTE, Mont., Feb. 16.—A shutdown of all mining operations in the Butte district is threatened by reason of the action of a majority of the hoisting engineers in leaving their posts this morning when concessions from the mineowners in the matter of jurisdictional disputes were not forthcoming. The men involved are members of International Engineers' Union, No. 138.

Operations were continued today in but four of the Amalgamated Companies' properties, the Silver Bow, the Berkeley, the Mountain Con and the Buffalo. Six hundred miners were lowered in these mines this morning, but it is expected at the next shift will

be composed of fewer men, as some of the night engineers will not report for duty this afternoon. One man is working at the Never Sweat. All the other mines of the district are tied up.

The walkout was effected without the least disturbance. At the end of the night shift the engineers merely gathered up their belongings and left. In most instances the engineers who usually followed on the day shift did not report, and the miners who gathered at the shafts were turned off for the day.
