Contest—Airship Models—Boys, Give Attention

There is now in progress at the great Meier & Frank Store one of the most interesting contests ever planned. Especially is this so on account of the trend of thought in this age of Aerial Navigation being foremost in the mind of man, woman and child, and again it has been made interesting in the fact that we have with us Mr. L. E. Dare, one of the founders of the Aerial Club of New York City, who has known and constructed airships from their infancy. Besides the great display of airships now to be seen on the Fourth Floor of our Main Building, which display will continue the remaining days in this month, we have planned a contest that will interest all boys under the age of 18 years, which time a committee of newspaper men, presided over by Mr. Dare, will judge the winners. The aeroplane models are not to be over five feet in size or under two and a half feet.

Prizes Are as Follows

- 1st Prize—Suit of Clothes, Value of \$15.00
- 2nd Prize—Suit of Clothes, Value of \$12.00
- 3rd Prize—Suit of Clothes, Value of \$10.00

Contest Opens Today, Closes Noon February 24th

The following are the conditions under which any boy under the age of 18 may enter the contest: An airship model must be constructed by the boy entering the contest by his own hands and not with the assistance of any one else. And then displayed for a period of three days, ending Saturday, February 26th, at 9:30 P. M., at Originality of design and method of power and neatness of workmanship to be the main points in determining the winners of the contest. All boys are invited to enter. Any boy in the state of Oregon may prepare the model and send it to see for exhibition or bring it themselves. Mr. L. E. Dare will continue to lecture on the airship display now installed on the Fourth Floor, and will be glad to answer any questions asked him concerning aerial navigation.
