ELECTRIC HOME TO GO UP HIGHER

Official of P. R., L. & P. Co. Says More Stories Will Be Added in Year.

BUSINESS CAUSES MOVE

Chairman of Board of Directors, C. M. Clark, of Philadelphia, Looks Over New Nine-Story Structure - Talks of Plans.

C. M. Ciark, of Philadelphia, chairman of the board of directors of the Portland Railway, Light & Power Company, said yesterday that in all probability the directors of the company next year will proceed with the construction of

will proceed with the construction of three or five additional stories to the new nine-story electrical building, which was only recently completed at Seventh and Alder streets.

Mr. Clark frankly admitted that the officers of this corporation, in their efforts to provide a building which would meet the requirements of Portland's growth, had fallen short of the mark, making it necessary that other stories be added to their modern office building if other prospective tenants are to be given care.

are to be given care.
"When we decided on a nine-story building," said Mr. Clark yesterday, "we believed that we were providing a building of adequate dimensions to meet all requirements at this time. There are now only two or three inside rooms in the building which are not occupied, the other reservations having been made long before the building was

been made long before the building was setually completed.

"It is possible that we may decide next year to increase it to a 15-story structure, but it is a reasonable certainty that the company will decide to add at least three stories during the rear 1911."

When the new home of the electric when the new home of the electric rompany was originally planned two years ago, a five-story structure was proposed. It soon became apparent that a building of seven stories would be necessary and, still later, during a visit to Portland of Mr. Clark last Summer, plans were finally adopted for the present nine-story office structure.

T. M. C. A. PLANS NEW BRANCH

Members of Brotherhod of Electrical Employes Behind Move.

Members of the Brotherhood of Electrical Employes, an organization consisting of the employes of the Portland Railway t o'clock tought. Following the election of officers there will be discussed the advisability of establishing a railroad branch at the Y. M. C. A. for seach of the four clubhouses which have been provided by the railway company for the joinfort and convenience of its employes. It is the plan by establishing a rallroad flepartment at the local Christian Association to provide a central agency through which the management of these lublicuses may be directed in the best neerest of those for whom they have been harmlabed.

This plan has been discussed informally among the members but official action on the part of the association has been leferred until tonight's meeting, H. W. Bone, secretary of the Y. M. C. A., will iddress the men and explain the details

Pres. Josselyn on Inspection Tour.

B. S. Josselyn, president of the Portland Rallway, Light & Power Co., accompanied by other officers of the company, resterday visited Vancouver, Wash., and inspected the company's property at that point. Mr. Josselyn, on this inspection trip, was accompanied by C. M. Clark, of Philadelphia, chairman of the board of directors; F. I. Fuller, vice-president, and O. B. Coldwell, general superintendent of the light and power department. Mr. Josselyn and the same associate officers will today inspect the company's proper-fes at Oregon City.

General Electric Men Dine.

J. A. Cranston, sales manager for the eral Electric Company in Oregon and Washington, yesterday entertained at luncheon at the Arlington Club a number of the out-of-town sales representatives of the same company. The luncheon was given in honor of J. L. Addlson, of San Francisco, Pacific Coast representative of the company, and was incidental to the annual gathering in this city of those year for the purpose of a general discussion of trade conditions.

Latz.

RACE FOR OIL.

The race between Eastern and Western Oregon, as to which shall be the first to report the finding of a commercial flow of oil, is taking on a furious pace. Yesterday an unconfirmed report came from the Eastern Oregon field that a flow of 150 barrels per day had been struck. Today the report comes from the well that is being bored at Nehalem Bay, in Western Oregon, that the conditions are such that a gusher may be expected almost any moment. Let the good work go on until each field is covered with flowing oil wells. The demands for oil, caused by the new uses to which it is being put, is making the oil industry the most extensive and the most The race between Eastern and Westdustry the most extensive and the most profitable in the world.

Portland Steamer Badly Damaged at San Pedro.

HOMER RUNS INTO ELDER

Misunderstanding of Signals Cause of Collision at Wharf--Ribs May Be Broken and Plates Sprung. She Will Sail Today.

LOS ANGELES, Cal., Feb. 21.-(Spe cial.)—The steamer Geo. W. Elder was rammed by the steamer Homer at the harbor this afternoon. The Homer was being brought up to the bank to discharge cargo of oananas and struck the Elde nidship as she was lying alongside the barf. Misunderstanding the signals

caused the accident.

Besides a broken stem the Homer, which is a wooden steamer, was but slightly damaged. The damage on the Elder was more serious. A number of ribs may have been broken and several

iron plates sprung.
It is probable that the Elder will sail on schedule time tomorrow night for Portland, or at least as far as San Fran-cisco, under her own steam. To deter-mine this, however, a surveyor for the marine underwriters is expected here to-morrow morning from San Francisco.

PORTLAND SECOND IN RANK

New York Alone Surpasses This Port in Wheat Shipment.

Government statistics on grain exports for the month of January place Portland in second place. The regular monthly bulletin of the department was received yesterday by Collector of Customs Malcolm and showed conclusively that Portland had maintained her position as a cenier of the exporting trade foodstuffs. New York led Portland by only a few works. only a few bushels. During January Portland cleared 249,016 bushels of wheat for foreign ports, while New York showed only 486,224 bushels. Puget Sound shipments for the month

were short of a carge, the total given in the Government bulletin being 22,006 bushels. Philadelphia, New Orleans and Galveston beat the Sound ports by a good margin. Portland has main-tained second place as a wheat ship-ping port for three consecutive months. With the first 21 days of February gone and no wheat shipments on rec-ord, the month bids fair to be a blank ord, the month blds fair to be a blank in the wheat exporting business. Grain shipments, foreign, will be confined to flour for the Orient. The steamship Henrik Ibsen, of the Portland-Asiatic Steamship Line, will get away before March I, and will carry 16,000 barrels of flour. The Hercules will finish about that time and will also carry a shipment of flour.

In addition to the flour shipment.

In addition to the flour shipment In addition to the flour shipment, the Henrik Ibsen will take 2,500,000 feet of lumber, the larger portion being for Manila. With the clearance of the Ibsen the lumber shipments for February will run well in excess of 16,500,000 feet. The British bark Kilburn will clear Saturday and the month will round out with a recordbreaking figure in the lumber trade.

MANZANITA ORDERED SOUTH

Lighthouse Tender Goes to San

Francisco District.

Commander J. M. Ellicott, inspector of the Thirteenth Lighthouse District, has ordered the tender Manzanita, Captain Byrne, to proceed to San Francisco, Captain Byrne will report for duty to Commander Miller, of the Twelfth District, and remain there untain Byrne, to proceed to San Franduty to Commander Miller, of the Twelfth District, and remain there until further orders. The Manzanita will to load lumber for a return. at San Francisco while the latter craft

is undergoing repairs.

Telegraphic instructions to Commander Ellicott from the Lighthouse Board directed the local inspector to lend the Manzanita to the California district. The Manzanita and Sequola are sister ships and came around the Horn from Newport News late in 1908 for service on this coast. The Man-zanita is now at Portland undergoing a general overhauling. It was the in-tention to place her on drydock, but press of time may cause Commander Ellicott to dispatch the craft immedi-

Information was received at the office of the local inspector yesterday to the effect that light vessel No. 83, Blunts meef, off Cape Mendocino, would roceed to San Francisco for repairs on March 10 and that her place would be taken by relief vessel No. 76. The latter craft is now stationed on Umatilla

MEN'S AILMENTS

Thoroughly Cured

Consult Me First

Even though your case may be one that some other doctor is able to cure and though his cure be absolutely thorough and permanent, there is yet good cause for your coming to me for treatment. The service I render is entirely unlike and better than the ordinary. I have devised new and scientific methods of treating men's aliments in all their phases. I cure cases that others cannot cure, and cases that other can cure I cure in less time and without pain or possibility of injury. All my forms of treatment have been perfected along the lines of nature's requirements and are in exact harmony with the natural recuperative forces. Therefore, my cures are painless, prompt and thorough.

Contracted Ailments

The serious results that may follow neglect of contracted aliments could scarcely be exaggerated. Safety demands an absolutely thorough cure in the least possible time. I have treated more cases of these disorders than any other physician upon the Pacific Coast. My cures are thorough and are accomplished in less time than other forms of treatment require in producing even doubtful results. I employ remedies of my own devising, and my treatment is equally effective in both recent and chronic cases.

I Treat Men Only

The vast multitude of men who have taken my treatment have not been disappointed. They know that I do not promise more than I perform. To them I have actually illustrated in the cure of their own cases the truth of what I claim, namely, that my treatment is as certain to cure as it is that my patient engages my services and follows my directions. My success is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to aliments of men. To male maladies slone I have earnestly and exclusively devoted 25 years of my life, and on them all my faculties are concentrated.

WATCH THE COMPLEXION

Entirely Cleared After a Few Applications of Poslam. Where it goes is evidently not a very

erious matter as long as the little red spot, blemish or other skin disfigure-ment disappears as quickly as it does after a few applications of poslam, the new skin remedy. A peculiar feature of poslam is that it is naturally flesh-colored and contains no grease, so that when used on the face for the com-plexion, or for pimples, red noses, or any other inflammations, blemishes or discolorations, its presence cannot be detected. It can thus be applied in the daytime, the natural color of the skin being immediately restored and the actual healing and curing process accomplished in a few days. Poslam can be had of any pharmacist who sells pure drugs. The Skidmore Drug Co. and the Woodard-Clarke Co. make a specialty of it. Fifty cents' worth will answer either for the troubles men-tioned or in curing ordinary. tioned or in curing ordinary cases of eczema. Itching stops at once. Any one who will write to the Emer-

gency Laboratories, No. 32 West Twenty-fifth street, New York, can secure by mail, free of charge, a supply sufficient to cure a small eczema surface or clear a complexion over night and renove pimples in twenty-four hours.
