APACHES' CRIMES CAUSE OF ALARM

Paris Seeks Means to Rid Itself of Outlaws Behind Recent Murders.

LASH FAVORED BY MANY

French Army Authorities Aroused Because Home Regiments Contain Such a Large Percentage of Convicted Meri.

PARIS, Feb. 21 - (Special.) - The murder of Policeman Deray and the wound-ing of three of his fellows by a desperate Apache is only one of a series of abominable crimes which has once more revived the headline of "La Serie Rouge" in the Paris press, and public opinion is unanimous in demanding that something definite should be done

to check the increase of crime.
On the one hand the atrocious murder of an old lady in a first-class corridor railway carriage by two soldiers has again drawn attention to the presence of criminals who have served sentences for serious offenses in the ranks of the home army. It is generally agreed that the regulations must be made more stringent, and that con-scripts who have been condemned for serious offenses must be sent with greater regularity, as they were under the old regulations, to join the special battailons known as the Bataillons d'-

Flogging May Be Remedy.

however, from the army, where officers are unanimous in recog nizing the pernicious effects of the in-corporation of bad characters in the home regiments, something, it is home regiments, something, it is urged, must be done to free Paris from the scourge of Apaches. The sugges-tion is continually made that flogging might prove as successful in Paris as it did in London against the "garot-ters" and "hooligans." but humanitarian sentiment interposes. M. Lepine's order reminding the police that they must, if necessary, use their weapons when on the defensive, is univer sally approved, and it is suggested that something should be done to prevent any criminal from purchasing a revolver or other weapon without the slight

est check.
At the funeral of Policeman Deray M. Lepine, in the course of an eloquent address, culogized his men, and de-

Paris is the refuge of too many outlaws, and the laws are too tender in re-gard to them. Yet, gentlemen, we must have patience, and, relying on the enlightenment of public opinion, remain within the limits of our duty."

Many Convicts in Army.

Marcel Hutin, in the Echo de Paris, reports the opinion of several colonels of regiments quartered in the east of France. They regard as urgen the formation of special battalions for offenders against the common law who are at present enlisted in French regiments, and "the majority of whom, far from becoming better soldiers, continue their exploits and sow vice, insubordi nation and terror among our frontier cops." There are at present with the lors more than 11,000 young men who have been condemned by French courts. It is likely that, considering the actual state of public opinion, the French Parliament will deal with this question before the close of the present legisla-

Three young men have been arrested charged with being concerned in the assassination of the Montmartre con-cierge who was found strangled in her apartment a few days ago. The accused, on being interrogated by M. Hamard, chief of the detective service, admitted their guilt. Later a fourth arrest was made, and the police obtained a full story of the crime. A wart on one of the prisoners played an important part in his discovery and arrest. The men were without funds, and killed the old woman to get \$300 read money.

VERMIN CARRIES" TYPHOID Pediculus Blamed for Fever Spread

in Mexico.

WASHINGTON, Feb. 21.-Another serious charge has been made against what has been known in more highly educated society as pediculus vestimenti, but more familiarly called "the body louse." Surgeons John F. Anderson and Joseph Goldberger of the Public Health and Marine Houste. He Health and Marine Hospital Ser-vice are inclined to believe he is largely responsible for the spread of typhus fever in Mexico.

They have been studying this dis-case and have just issued a bulletin on the subject. In the closing paragraph of their report, which has the ring of an indictment, they say:
"We are of the opinion that the evi-

dence against the body louse as trans-mitter of tabardillo (typhus fever) is sufficient to demand that prophylactic directed against measures this disease should take into consideration this insect."

KANSAS SOLON BACKS HEYBURN

Scott, Too, Opposes Sending Army Tents to Confederate Reunion.

WASHINGTON, Feb. 21.-Like Senator Heyburn, Representative Scott, of Kan-sus, objected to the proposition of the Government sending a number of Army

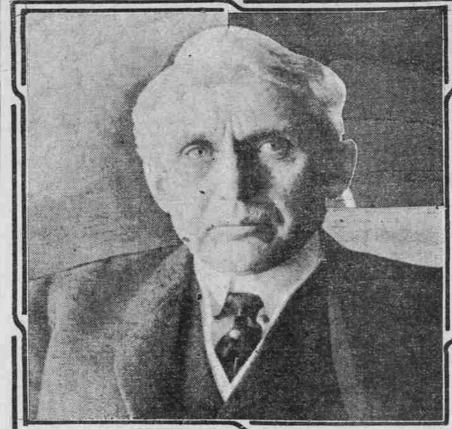

tents for the Confederate Veterans' re-union at Mobile in April. The measure, following favorable action upon it by the House committee on milupon it by the House committee on military affairs, reached the "unanimous consent" calendar and when an effort was made to obtain consideration for it today in the House. Mr. Scott objected and it went over until Wednesday, when it will be brought up in regular order.

Mr. Scott said his objection was due to the attitude of his constituents who were opposed to it. It is known that the G. A. R. is very strong in Mr. Scott's district.

Cruiser Rushes to Steamer's Aid.

HAMPTON, Va., Feb. 21.-The scou cruiser Birmingham steamed out of Hampton Roads this morning under rush orders. It is reported that the steamer Culgon is in distress with sevaral large targets which she is towing to Hampton Roads. It is possible that the Culgoa's predicament gave rise to the report that the Nina was lying on

German Members of Jewish Faith Not to Migrate.

DECLARE FOR FATHERLAND

Equal Footing in State Is All Desired. Declare Writers, and Move to Palestine Is Not Even Considered.

BERIAN, Feb. 13.— (Special.) —The Frankfurter Zeitung gives prominence a number of letters from representative German Jews, in which it is said that the Jews in Germany are decidedly opposed to Zionism. The writer of one of these letters says that the newspaper reports of the proceedings of the recent Zionist Congress in Hamburg give the impression that the movement is supported by German Jews. This, he adds, is not the fact. The majority of Geris not the fact. The majority of Ger-man Jews not only knows nothing about the aims of Zionism, but is not in the alightest degree interested in the matter.

Jews Are Germans First.

The writer of the letters contends that German Jews cannot possibly cherish the hope of forming part of the Jewish nation re-established in Palestine. Were they to do so they would rightly be re-garded now as foreign bodies in the state, which cannot be assimilated by the

organism of the state.
"We German Jews," the letter in question proceeds, "are German and wish to remain such. We are German citizens professing the Jewish faith. aim is absolute equality and assimilation as Jews, without giving up our Judaism. We German Jews want to have nothing to do with a phantom which will estrange us from our Fatherland and is calculated to impede the development which promises to result in our being placed footing of absolute equality with our fel low citizens.

Colony Called Dream.

Another writer asserts that the German Jews have every reason to declare, emphatically, that they do not identify themselves in any possible way with the programme developed at Hamburg. It may be admitted, he adds, that there was justification for the Congress by reason of the need for social measures, but he contends that the efforts of the promo-ters of the Congress should be directed exclusively towards finding a means of relieving their distressed and persecuted co-religionists.

German Jews, he also states, consider and feel that they are Germans, and they do not merit the reproach cast on them by anti-Semites that they are a nation within a nation. The idea of founding a Jewigh national state, he concludes, has always been and is today Utopian, and even the most enthusiastic Zionists cannot point to one influential Jew who has declared himself ready to return to the Promised Land.

SHAM WAR SCARES NATIVES

Mountain Filipinos Afraid of Maneuvers-"Reds" Winning.

MANILA, Feb. 21 .- The Army maneuvers continue with great interest to all except the natives in the mountains, who are frightened. The officers have ont been able to convince them that real war is not being carried on.

The "Red" army of invaders, under General Ramsay D. Potts, appears to have the advantage, having landed at

Subig Bay and occupied the passes through the mountains into Pampaiga province.
The "Blue" army of defense is commanded by General Daniel B. Brush.

FORMER WIFE ENJOINED Present Mrs. Guggenheim Would

Restrain No. 1.

NEW YORK, Feb. 21.-An injunction was granted in the Supreme Court here today restraining Mrs. Grace Herbert Guggenheim Wahl, the divorced wife of A. Guggenheim, from bringing fur ther proceedings in Illinois to contest the validity of her divorce. The injunction was granted on applica-tion of the present Mrs. Guggenheim,

DR. COOK IS COMING HOME?

Explorer Leaves Santiago for Val paraiso-Wife III.

SANTIAGO, Chile, Feb. 21 .- Dr. Frederick A. Cook left today for Valparaiso Dr. Cook said later his wife was til. He expressed regret at leaving Santiago, but had been greatly annoyed by reporters. He added that he probably would return to the United States.

Julius Kruttschnitt.

Special Election at Ashland Proves Failure.

MAYOR SNELL WINS 2 TO 1

Candidate of Recallers Fails to Land Needed Support Despite Energetic Effort to Organize. Improvements Indorsed.

ASHLAND, Or., Feb. 21 -- (Special.)-The special recall election held here today under Oregon's new-fangled constitutional amendment amounted practically to a fiasco, as it has been evident for many days past.

Mayor R. N. Snell defeated the can didate of the recallers despite their

energetic efforts to organize against him, by a 2-to-1 vote. The total vote polled was 550, about two-thirds of a full vote. Snell received a total of 442, while his opponent, W. N. Grubb, received 218 votes.

The vote by wards was: First, Snell 169, Grubb 68; second, Snell 103, Grubb 92; third, Snell 170, Grubb 58. The campaign was anything but a dignified one, and more or less bitter feelings were engendered by it. The result of the election is being celebrated in Ashland tonight with fireworks and bonfires.

Although both candidates for Mayor announced themselves as favorable to a progressive administration of affairs and liberal appropriations for public improvements, the recallers could not get away from the charge of the op-position that they were really against the extension of paving and other pub-

lic improvements.

So the verdict, of the voters can be accepted as an indersement of the policy of the public improvements record of the past year and a continuance of the same for the current one, more than an indorsement of the administration of Mayor Snell himself.

TAFT'S INJUNCTION LAW UP

Senate Committee Approves Presi-

dent's Plan Moon's Bill Covers. WASHINGTON, Feb. 21 .- It was washing for the was practically decided today by the Senate committee on judiciary to permit the House to initiate legislation to carry out President Taft's ideas concerning the regulation of the Issuance of injunctions.

The bill introduced by Representa-

of injunctions.

The bill introduced by Representative Moon, of Philadelphia, is generally regarded as the one which comes nearest to conforming with the President's ideas on the subject.

Salmen, pike and goldfish are supposed ever to sleep.

PINCHOT HAD VANITY

His Press Bureau Cost Over \$82,000 Last Year.

POSTOFFICE HIT HARDEST

Mailing List of Forest Bureau Contains Over 750,000 Names of Periodicals to Which Laudatory Matter Had to Be Sent.

OREGONIAN NEWS BUREAU, Washngton, Jan. 19.—The press bures u of Service, the Instrument through which Gifford Pinchot and his associates reached the public, and by which the work of their bureau was ontinually lauded and advertised, cost the Federal Government last year the neat sum of \$82,790.02.

In other words, Gifford Pinchot spent this amount of the people's money to advertise himself and his office, and to present a partisan statement of their work. The confession is frankly made in Pinchot's last annual report, made public the day of his dismissal.

The press bureau of the Forest Serv The press bureau of the Forest Sal-ice has been built up by degrees until today it contains 750,000 names, almost entirely names of daily, weekly and spasmodic newspapers and magazines. Through this means the Forest Service has been carrying forward its campaign, working up sentiment and strengthening itself before the eyes of the people. The matter disseminated by this press bureau was all approved by Mr. Pinchot or his assistant, Mr. Price, before it was sent out through mails, and therefore nothing but laudatory matter was permitted to go

to the country.

But the Forest Service press bureau really cost the Government more than \$82,790.02 last year, for it was the practice of the press agent to attach to all bulletins a Government frank, with the request that a copy of the paper containing the bulletin be mailed back to the Forest Service. Each of the 750,000 papers on the mailing list received these franks, and a considerable to the country. ceived these franks, and a considerable number of them would use this frank in sending to Mr. Pinchot marked copies containing his own matter. Tons and tons of these papers were thus carried through the mails at the expense of the Government, solely to gratify the vanity of the Forest Service, which kept a record of its own matter in print. The money loss to the postsi branch of the Government on this account probably exceeded the original cost of preparing and mailing the effu-sions of the Forest Service press bu-

Now that Mr. Pinchot has passed out of public life, and new blood is to be infused, this press bureau will unques-tionably be reorganized, and if it is allowed to continue at all, will probably become a comparatively insignificant item on the list of expenses. It was, of all press bureaus in Washington, the most serious offender against the rules of propriety and decency. It was purely a Pinchot instrument.

STUDENTS FAILING OUSTED

O. A. C. Faculty Is Strictly Enforcing New Regulation.

OREGON AGRICULTURAL COL-LEGE, Corvallis, Feb. 21,- (Special.)-A large number of students will be dismissed from the Oregon Agricultural College this week as the result of failure to satisfy the scholastic requirements during the first semester which has just closed. The faculty is strictly enforcing the rule which was recently passed providing for the dismissai of students having two sub-jects below the passing grade. The registration for the second sem-

ester, which is still in progress, has passed the 1600 mark. The exact number reported registered tonight was 1653. This is over a hundred more students than attended the institution last year and is much larger than was expected by the college authorities

was expected by the college authorities this year.

Those in attendance at the Winter short course and at the special exercises of farmers' week are leaving for their homes. All express themselves as greatly pleased with their experience here. As an indication of their appreciation a collection, amounting to about \$160, was made, to be used as a fund for the purchase of books for the library and a set of resolutions adopted. library and a set of resolutions adopted, expressing appreciation and piedging themselves to do all in their power to aid in the future development and prog-ress of the college.

BENSON MADE NO PROMISE

Governor Discusses Appointment of County Judge.

SALEM, Or., Feb. 21.—(Special.)—Dis-cussing the Multnomah County Judgeship matter this afternoon, Governor Benson

"I do not desire to enter into a controversy with any one in regard to the appointment of Judge Webster's successor. However, in fairness to myself I believe I should say that at no time since last May, when Mr. Shillock appiled for the position, up to the time the appointment was made, did I promise the position to Mr. Shillock personally or through any of his friends. I named Mr. Cleeton for the positio nafter I had carefully considered the merits of all the candidates.

"None of the applicants had been promised the place and I feel that there has been a misunderstanding, or that Mr. Shillock has been misquoted. Referring to the first published reports to the effect that I was under obligations to appoint him, Mr. Shillock told me several weeks ago in Portland that he understood, of course, that there was no such obliga-tion or understanding."

TROOPS WAIT FOR CALL

(Continued from Page One.) until Edward Morgan, conductor, had been badly beaten. Although 5000 persons were in the crowd, only about five arrests were made.

Sympathetic Police Shifted. Feeling that the police were too sympa-

thetic with the strikers and sympathizers in their home locations, the director of public safety tonight ordered a general shifting of the force.

A curious incident in the situation developed by the strike, occurred this afternoon when a man charged with robbing a jewelry store, and who was being arrest. ed, was taken from the officer by a mob

attempted to escape, the policer r his revolver and shot him in the leg. drew his revolver and shot him in the les.

While the damage done to the property of the Rapid Transit Company today was not as great as yesterday, the temper of the rioters was no less bitter. The entire force of police seemed to have a deterring effect on the strike sympathizers in many sections of the city.

Public Promised Safety.

In a statement issued tonight Mayor Reyburn said the public would be pro-tected even if the whole police power of the city and the state had to be

called on.

The first shot at a striker was fired late this afternoon in the excitement incident to a great mass meeting be-ing held by the union men. A police-man attempted to force the crowd back when a motorman interfered. The of-ficer drew his revolver and fired at the man, but the bullet went wide and no one was injured.

While this meeting was in progress iron gratings used to cover sewer out-

lets were torn up and placed on the tracks. Soon there was a blockade of cars and the crowd amused itself with breaking all the windows.

The cars were filled with passengers, several of whom were cut by flying Occurrences of this character were reported in nearly every section of the city, but only in one instance was there an attempt made to burn the

DEATH BLANE UNPLACED

CAIRO MAN KILLED IN MOB. SHOT BY DEPUTY.

No Individual, However, Mentioned by Coroner's Jury-Militiamen Hold Rioters in Check.

CAIRO, Ill., Feb. 21 .- No individual Deputy Sheriff was named in the ver-dict of the Coroner's jury that investi-gated the death of Alexander Halliday, who was killed in the mob Thurs-day night that was seeking the life of John Pratt, the negro purse-snatcher.

The verdict was returned tonight. It found that Halliday came to h death by a gunshot wound caused by a weapon in the hands of one of Sheriff Neill's deputies, fired from a north window in the courthouse. The happenings of the day did not tend to allay excitement of the citizens of Cairo. The arrival of Company H. of Shelby. Ill., made the number of militamen on duty here about 350.

Because of the great excitement prevailing here, and to lessen the danger of further mob violence, Circuit Judge Butler today adjourned court for two weeks.

The grand jury probably will be dis-solved. J. W. Wenger, the foreman, will ask to be discharged because his wife is a cousin of Alexander Halli-day, killed in the attack on the jail. Sheriff Nellis also asks that the jury discharged on the allegation that at least one member was present in the crowd during the attack
