# RAIL SURVEY HITS RIVER ABOVE KELSO

South Extensions of Tacoma & Eastern Indicated by Upper Cowlitz Transits.

#### WORKMEN SCAN MAYFIELD

Milwaukee Employes 45 Miles Down River-Branch to Touch Rich Timber Section-Surveyors Also in Cowlitz Pass.

KELSO, Feb. 22.—(Special.)—Further extensions southward of the Tacoma & Eastern, now controlled by the Chicago. Milwaukee & Puget Sound Railway, are indicated by engineering activities on the upper Cowlitz.

Men engaged in lumbering on the Cow-litz bring reports to this point of the presence of surveyors for the Milwaukee as far down the river as Mayfield, 45 miles above Kelso.

It was announced recently that the

Tacoma & Eastern would be extended 20 miles from Glenavon to one of the tributaries of the Cowlitz. Work is now in progress on the grade between Glenavon and Morton, six miles, and right of way has been purchased to Verndale, 14 miles

#### Road to Touch Verndale.

Morton is almost directly south from Glenavon and is on Tilton Creek, a tribu-tary of the Cowlitz, but instead of turn-ing southwesterly down the Tilton the road turns southeasterly through a gap to Verndale. Verndale is on Rainy Creek, another tributary of the Cowlitz, and from there the survey follows Rainy Creek to the Cowlitz and then down the river to Mayfield. The latter point is about 30 miles from Portland, and about 35 miles from Verndule. The proposed extension of the road

The proposed extension of the road passes through a richly-timbered section and a prosperous farming community. It is a virtue of the Cowlitz Valley lands that no matter whether bottom lands or hill lands, when the timber is removed the soil is unusually fertile and produces large crops. The district, with transportation, will develop into an important dalrying community. portant dairying community.

#### Milwaukee Surveyor, Maybe.

Surveying parties have also been at work in the Cowlitz Pass and on this side recently, according to river men. The North Coast Railroad has been projected through the Cascade Mountains. the proposed route occupying a pass a few miles south of Cowlitz Pass. The North Coast route follows the Cowlitz to its junction with the Columbia and is projected on to Portland. The route parallels the Northern Pacific from a point opposite Olequa.

The surveyors more recently at work in the Cowlitz Pass country are supposed by residents of that district to be

posed by residents of that district to be working for the Milwaukee, but although they have worked down to within 25 miles or so of Verndale, there apparently has been no attempt made to connect yet with the Tacoma & Eastern survey.

There is some speculation as to what the Milwaukee would want with another route through the mountains unless it should be the plan to branch off from the main line and reach Portland by that route, for through business and the Tacoma & Eastern connection for traffic coma & Eastern connection for traffic between Portland and Puget Sound. There is likelihood, however, that the surveyors are really working for the North Coast. The Strahorn interests are preparing to develop water power from Packwood Lake, which is on the coast The power that will be developed, it is estimated, will exceed the combined power of the Electron and Snoqualinte

Once through the mountains, an excellent water grade to Portland is found down the Cowlitz River. The river is a stream of considerable volume and for stream of considerable volume and for the most part flows through a valley of sufficient width that construction work will not be exceedingly costly. The river is one of the few streams in Washingsone of the few streams in Washingsone over the burning sands.

Whatever trials the novices may have now driven down the river for 140 miles to Kelso and the camps are pressing on farther up the stream.

#### RECALL IS CALLED JOKE

Mayor Not Worried Over Intimations of H. D. Wagnon, Jr.

"I guess it must be a joke," said Mayor Simon yesterday afternoon, when asked about the action of the Alberta Improvement Association, favoring his recall from office. "I have never heard any compiaint from Alberta or Vernon, and do not know what, if any complaint, the people there may have. They have never compiained to me. I don't hitend to lose any sleep to me. I don't intend to lose any sleep

The association wants Mayor Simon recalled, and although it will not start the movement, it declares that it stands the movement, it declares that it stands ready to back up anybody or organization that will do so. For the past two meetings the club has had the subject under consideration and has adopted resolutions in which it is declared that the Mayor is more interested in his friends than in the public. The statement declares that the club will cooperate with a movement to have Mayor Simon put out of office. Secretary H. D. Wagnon, Jr., said yesterday: H. D. Wagnon, Jr., said yesterday:

"We will not start a movement to recall the Mayor, but will help any organization that will start the ball roiling. The way the Mayor has handed it out to the people of this district has exasperated the people, and they are ready to assist in recall."

Mr. Wagnon did not say in what way the Mayor had "handed it out" to the people of the Vernon district, and his charges were of a general nature. He thinks that the Portland Municipal Association will start the recall, and that the Alberta club will fall in

People in all positions of life, young and old, have asked me about this country, and I have told them just the plain truth. Even that astonishes them, but they are satisfied that it is wonderful, and many are turning this way. I look for the greatest influx into Oregon that has ever occurred.

for the greatest influx into Oregon that has ever occurred.

"The fruit industry is attracting wide attention," continued Mr. Hemphill. "There is great interest in the proposition of securing small tracts for fruitralsing purposes, and many young men of my acquaintance are thinking of investing in this kind of property.' I also know of many who contemplate coming here to enter busiproperty. I also know of many who contemplate coming here to enter business of various kinds, as they have some capital and desire to come to Portland or other Oregon places for investment, feeling that the climatic conditions are so far superior to those of the East that life will be much more pleasant.

"I have been absent but two years, but am astonished at the rapid growth of Portland, especially as to the many skyscrapers that have been constructed and that are either under way or are contemplated. I kept in touch with Portland and are contemplated. I kept in touch with Portland and Oregon while away by means of The Weekly Oregonian.

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pink-ham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial."—Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pink-ham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others."—Mrs. J. H. Breyere, St. Regis Falls, N. Y. There is absolutely no doubt about the

ability of this grand old remedy, made from Ithe roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. dick, Watson and Severance.
"I am greatly pleased at the work of my men, especially the freshmen, McClure, Henry and McGuire," said Hayward after the race.
"The race was hardly a criterion of what they can do in a regular distance race, however. Oregon's track prospects are still too unsettled to suit me."

Professor Herdman, lecturing at the Brit-sh Royal Institution, and describing how to tell the age of a fish, said the lines on the scales of the berring are lines of an-oual growth. The number of lines on the somes are another indication.

#### LEFT ON HER DOORSTEP FOR THIS MOTHER

Mrs. A. G. Tuson, of Livermore, Cal., writes: "I picked up from my doorstep one day a little book in which I soon became very much interested. My little girl of five years of age had been troubled for a long time with loss of appetite, extreme nervousness and undue fatigue. She was all run-

down and in a very delicate condition. "This little book was very comprehensively written, and told of the new method of extracting the medicinal elements of the cod's liver from the oil, eliminating the obnoxious oil which is so hard for children to take.

"'Just the thing,' said I, 'for my little daughter,' and I immediately went for a bottle of Vinol. It helped her wonderfully. She has gained rapidly in flesh and strength, and she does not take cold half so easily.

"I am extremely grateful for the good it has done her, and I hope other mothers who have weak, delicate or ailing children will be benefited by my experience and just give Vinol a trial." WOODARD CLARKE & CO.,

#### My Special Treatment

The methods I devised over twenty-five years ago for treating men proved a radical step in medical science. Those methods have enabled me to cure aliments that were formerly regarded as incurable. In working out my methods I held the theory that impaired vitality, for instance, was not a constitutional aliment, but a secondary affection, and, therefore, merely local. I reasoned that its constitutional effects were simply the results of tremendous waste of energy due to inflammation of a nerve center; that, this being true, a local treatment alone could effect a cure. Thereupon I devised the treatment I employ today with such marked success. Indeed, I have never known this treatment to fall to effect a complete and permanent cure in a comparatively short time.
