OPPOSITIONS LAFEAN BILL ARE PLEASED

Oregon Apples Are Used to Demonstrate Harmful Features of Proposed Law.

EASTERN BUYERS ACTIVE

Representative Hawley is Well Satisfied With Showing Made Before Committee and Believes Bill Will Be Remodeled.

OREGONIAN NEWS BUREAU, Washington, March 11.—Representatives of Oregon and Washington apple-growers who have been before the committee on agriculture for the past three days in opposition to the Lafean apple-box bill express entire satisfaction with the facts developed at the hearing which closed today, and feel confident the bill cannot pass in its present obnoxious form.

They believe no good and sufficient reasons were advanced for making a change in the size of the box, particularly after the demonstration made with Rogue River and Hood River apples today. Moreover, they made such strong objection to the standard grades proposed to be established by the Lafean bill as to make it certain that provision cannot be retained without amendment.

The standardization clause provides for three grades of apples, A, B and C. Grade A apples, it is proposed, shall be two and one-half inches in diameter or over; B, two and one-quarter inches, and C, two inches. Much of the Oregon and Washington fruit shown today measured three and one-half inches or more, and it was maintained that the fine specimens could not properly be graded with inferior fruit.

SPOILS SYSTEM BLOCKED
Disrupted Bay City Firemen Get Injunction Against Reduction.

SAN FRANCISCO, March 11.—Eight battalion chiefs of the local fire department, who were disgraced yesterday by the fire commission, were granted a writ of injunction this afternoon by Judge Murasky, restraining the commission from seating their successors.

The eight officers will rank next in executive authority to the chief engineer, had won their positions as a result of a Civil Service examination during the administration of Mayor Taylor. P. H. McCarthy's predecessor, they have been earning \$225 a month, but the subordinate positions to which they have been reduced will pay them only \$165. They declare their intention of carrying their case to the highest court if necessary. Eight captains have been appointed to succeed them.

The action of the board has caused much apprehension in the department, as it is supposed to forecast a complete upheaval and reorganization. Fire Marshal Charles Towe said:

"This signals the undermining of the efficiency of the fire department of San Francisco. I most fervently regret seeing politics brought into control of the department, which always has been considered sacredly immune from political domination."

The board justifies its removal of the battalions on the allegation that they held their positions illegally, maintaining that the Civil Service examination of the Taylor regime was fraudulent.

The examination referred to is the subject of a suit now pending in the Appellate Court.

PATTEN IS JOSTLED

Wheat Operator Driven From Manchester Exchange.

COTTON BROKERS WROTH

Police Rescue American From Crowd and Place Him in Cab. Liverpool Corn Exchange in More Friendly Mood.

LONDON, March 11.—A hostile demonstration on the floor of the Cotton Exchange at Manchester, and one directly in contrast with the one on the Corn Exchange at Liverpool, was met today by James A. Patten, the Chicago wheat and cotton operator.

At Manchester Mr. Patten was mobbed and probably escaped injury only by the aid of the police. At Liverpool he was greeted by cheers and other manifestations of friendliness. Mr. Patten will sail on the Mauretania tomorrow for New York.

Threats Made in Advance.
The brief vacation of the Chicago operator in England has been spent mostly at the Liverpool markets, but today he ran over to Manchester to visit the Cotton Exchange. It was known to Mr. Patten that there had been threats of an unpleasant reception should he visit "Cottonopolis," but he refused to take them seriously.

These threats, it is said, emanated from persons on the exchange who had lost large sums as a result of Mr. Patten's operations in Chicago and from others who held him responsible for yesterday's rise in the price of cotton, and who believed that his visit to England had for its purpose the manipulation of the market.

Police Effect Rescue.
Hardly had Mr. Patten touched the floor of the Manchester exchange before the outburst came. He was surrounded and hustled to the street. The crowd followed him and did not desist in its manifestations of dislike until the American had been placed in a cab by the police and started for the railway station, where he took the first train back to Liverpool.

Although unhurt, Patten was greatly surprised and irritated at the dislike shown by the people of Manchester. Arriving in Liverpool Patten just had time to visit the Corn Exchange before it closed for the day. The floor was crowded with members, who evinced their sympathy with him for the treatment shown in Manchester by taking off their hats and cheering him when he referred to the incident.
