Ing the world. No proparation for the advent of hordes of little children is made; no thought of the future in store for them is exercised until too late. To belleve in marriage and want the ideal home surroundings to come to every man and woman, and the only way to secure it is to theach the children. I am going on doing it at my own expense, whether any other person in the world assists or not. These things can be talked and written about frankly, without danger of encountering the Comstock law. There are now 52.000 members of Eugenic clubs in the United States. My time will be given to the work for the entire year.
