RAILWAY'S TYPE OF FENDER BEST

Six Safety Devices Tested. Only One Fails to Mangle Dummy on Tracks.

DUE TUESDAY

Experiment at Twenty-Sixth and Upshur Streets Discard Five Appliances as Useless-Company's Saver Approved.

Out of six fenders tested at Twentysixth and Upshur streets yesterday aftonly one proved efficient in up the dumfnies without "mangling" them. The successful device was invented by the Portland Railway, Light & Power Company, All of the other fenders jammed the makeshift "victims" and tore them to pieces. Mayor Simon, Councilmen Lombard, Rushlight, Ellis, Concannon,

and Menefee and a large crowd of spec-tators witnessed the tests.

So many attended that it became necessary to call upon Captain of Police Baty for a force of policemen to clear the streets that those in charge might proceed at advantage. Many women and children were among the specta-

No fender was decided upon for ap-proval, but next Tuesday afternoon at the same time and place other devices will be tested. Mayor Simon urged im-mediate action, as did Councilman Lombard, chairman of the special committee, and Councilmen Ellis and Rush-light, the other members. It is a ques-tion that has been agitated long, but never solved satisfactorily.

All Types Tested.

Operation of the cars, furnished by the Portland Rallway, Light & Power Company, was under the direction of C. J. Franklin, superintendent of trans-

portation. Every man believing he had a fender worth trying was given a car on which to make the tryout.

Long Dan, a Chinese, was the first inventor to be given attention. His fender projects in front of the car and is very complicated and ponderous. It was a distinct disappointment to those was a distinct disappointment to those who witnessed it, for it jammed the dummy and tore it open in several places, indicating that it would have killed an accident victim. It was tried several times, with the same result.

A test was then given a fender just A test was then given a fender just put together by D. A. Bonner, with about the same results. This device was adjusted under the fore part of the car, and while it was said by the inventor that it would pick up the dummy and keep it from rolling under the network, it falled to do so and tore the dummy considerably.

Jiff. Durham's rotary fender was

J: / E. Durham's rotary fender was next tried. It proved so distinct a failure that it was given but one test. It was attached under the car and swung around as the car went forward. It struck the dummy and threw it off the track pretty well, but had it been a live victim injury would have re-sulted, without doubt.

Kiser's Also Fails.

The Standard, a fender invented by L. M. Kiser, was then tried. It was recently given a test in the Washing-ton Building, on the Lewis and Clark Exposition grounds, on a floor, the device being attached to a wagon. It proved a failure then, as it did yesterday. The dummies were invariably jammed hard and torn, and were also shoved along on the ground. It was tried with a living object, the car being run at three miles an hour. The man knew the car was coming, of course, and when it got to him, he sim-Ply fell into it, partly jumping in. Superintendent Franklin, after try

ing all of the inventions offered by others, put the company's contrivance to a severe test. He ran the cars faster than on any of the others and in each of three trials the automatic trip worked to perfection and dropped in-

worked to perfection and dropped instantly an apron of iron work, which cleanly picked up the dummies and saved them from being torn.

Mayor Simon and Councilman Rushlight discussed this device with Superintendent Franklin. It is admitted by the company that if the car would stalk a standing object damages would strike a standing object damage would result, in all probability, but it is said by company officials that this fender will work to very good advantage even then. It is an impossibility for an ob-ject to get under the trucks with this device on a car. The mayor and Mr. Rushlight said they believed if this could be used with a pliot combined it would prove highly satisfactory. Mr. Franklin said he could not say what protection such a device would pro-

KEEP UP FAIRY STORIES Writer Wouldn't Enlighten Children on Life's Mystery.

PORTLAND, March 15 .- (To the Editor.) -Having read a news report in The Ore-gonian yesterday giving the views of Helen

Having read a news report in The Oregonian yesterday giving the views of Helen La Reine Baker, with regard to the enlightenement of children on the vital subjects of life, I suggest that childish minds can only grasp those fundamental truths in such a was as to convey but little of their real significance.

Children are usually imaginative, and love fairy stories and all the preity fiction that our old nurses and mothers love to begulie us with. Why seek to make childhood presale and practical and burden children with these matters at all? Everyone knows the inquisitiveness of young people, and to tell them these truths would only lead them farther into the realm of questions, which might be difficult to answer in a manner suitable for a child to understand. For my part, I do not see that any great harm is done to tell children that pretty fiction about the "stork" or "Santa Llaus" or any pretty fairy story. As they grow older they come to realize that these are only play stories, and laugh with their elders at their ready belief in the old-fashioned delusions.

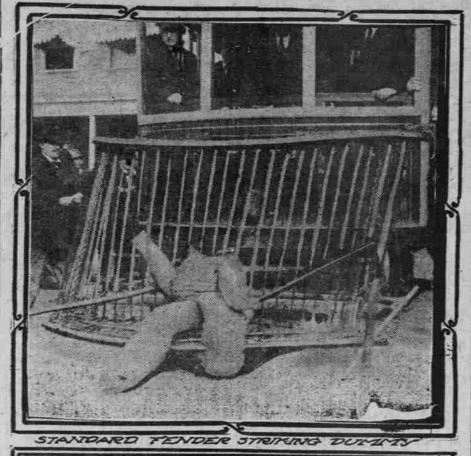

Why should anyone seek to destroy all poetic imaginings, and make this old world a duil, provale place, where there would be no sweet memories of the dear old inglencok by the fireplace where we were all assembled to listen to a fairy story by Grimm or Hans Anderson, of the "Little Match-Girl"? There are many others, not to mention "Alice in Wonderland," a favorite with every child; and be it remembered these stories all point a moral, which should be explained to the children so that they may understand the yenose of the story.

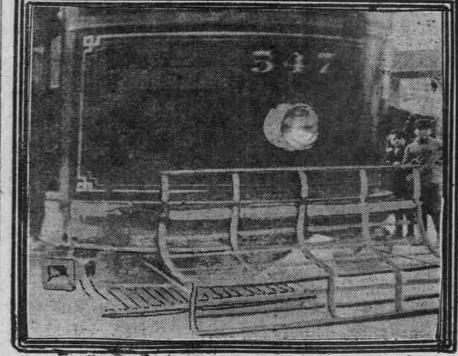

It is time enough to teach young people the mysteries of life when they are able to understand them, and of an age to benefit by the knowledge, but a good indication would be the disposition and tendencies of the child itself, and to act accordingly.

The splendid work of Chamberlain's Stamesh and Liver Tableter is failly

The splendid work of Chamberlain's Stomach and Liver Tablets is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constitution, sick headache, billousness, jaundlee and indigestion. Sold by all dealers.

OF TWO FENDERS TESTED YESTERDAY AFTERNOON, ONLY THE STREETCAR COMPANY'S DEVICE WAS FOUND USEFUL.

Shamrocks May Be Bought at 6 A. M. Tomorrow.

WORKERS EAGER TO BEGIN

Small Army of Women Cautioned al Names Are Listed.

General sale of shamrocks for the enefit of the Catholic orphanage at Oswego will begin promptly at 6 o'clock tomorrow morning. The women in charge of this "tag day" affair have provided themselves with a sufficient supply of tags to meet all demands. In fact, the small army of workers is o enthusiastic in its campaign that it as become necessary for the members of the general committee to caution

the sellers of tags not to become too aggressive in their efforts. The sale will not be confined to Port-

FUNERAL SERVICES OF PIO-NEER WOMAN TO BE HELD TODAY.

Late Mrs. Jeannette Evans. Funeral services over the re-mains of Mrs. Jeannette Evans, a pioneer of 1852, who died at her ome at 1281 East Ninth street, North, March 13, will be held this afternoon from Finley's Chapel, and interment will be Greenwood Cemetery. Mrs. Evans was 66 years old, and came to Oregon with her father, Samuel White, in 1852, settling on the Tualatin Plains. In 1855 the fam-lly moved to Southern Oregon, where they remained at Kerby during the Indian war of that year. Mrs. Evens was married in 1864, and moved to Portland in 1872. later going to California and returning to Portland in 1881. Mrs. Evans is survived by a son, Phillip W. Evans, and two broth-ers and two sisters, as follows: Alexander and James White, of Kerby, Or.; Mrs. Harriett Waldron, San Francisco, Cal., and Mrs. Lavina Gauiard, Sawtelle,

land. In response to requests from several outside cities, tags have been forwarded and will be placed on sale on St. Patrick's day at Eugene, Albany, Oregon City, Rainier and Verboort. Women desirous of assisting in the movement who have not been organized into groups will be assigned to fields of labor if they will communicate by telephone with Main 2451.

The owners of a number of automo-

bile agencies have contributed the use of machines to aid the women in their work.

NEBULA OF ANDROMEDA

This Was Seen Over Silverton, Or Not Halley's Comet.

WINLOCK, Wash., March 14.-(To the

WINLOCK, Wash. March 14—(To the Editor.)—I have been much interested in the discussions in The Oregonian as to Halley's comet. While W. H. Bowers of Silverton was evidently mistaken in what he saw, yet his letter in The Oregonian of last Saturday was peculiarly fortunate, as it awoke a new interest in this heavenly visitor, which otherwise would have passed hence without attracting local notice and remained unmolested until its reappearance late in the Spring.

However, Mr. Bowers did see something in the sky, and his sight is keen to have detected it with unaided vision. It is the Great Nebula of Andromeda, which presents a faint misty patch of light, very comet-like in appearance, and at this time of the year is in the northwest about 30 degrees above the horizon in the early evening. I am mildly surprised that none of the men interviewed on the subject seem to have recognized this. It is not in Perseus, but, as its name implies, in Andromeda.

There is, in Perseus, a beautiful double cluster of stars which also has this

Grows Hair on Bald Heads

A Remedy That Costs Nothing if It Fails to Do as Claimed.

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs which rob the bair of its nutriment, and thus the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs.

opment of new germs.

Pilocarpine is a well-known agent
for restoring the hair to its natural
color, where the loss of color has been
due to disease. Yet it is not a coloring

matter or dye.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair revitalizes the roots, supplies hair nourishment and stimulates a new

growth.

We want you to try a few bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penn if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on baid heads, except of course where baldness has been of such long duration that the roots of the long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexail "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guar-antee. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Portland only at our store, —The Rexall Store. Owl Drug Co., Inc., cor. 7th and Washington Sts.

vague nebulous appearance, but is to near the zenith to cause much confusion. We may expect later on to hear of al-most any object being mistaken for the comet when enthusiasts begin to leave their early couches to get a view, before the gray of dawn. Even Venus may come in for her share of mistaken iden-tification, until the weird strangeness of Halley's namesake renders error impos-Halley's namesake renders error impos-sible. J. D. THOMPSON, M. HEAVY ROCK TO BE BROKEN ON CHEST OF SUBJECT.

Complete Catalepsy Will Be Proved. Pelham Anxious to Convince Skeptics of Ability.

Professor Pelham proposes to take the chance of prosecution for manslaughter or something worse at one of his performances this week.

Breaking a 300-pound rock with blows from a 12-pound hammer when the stone rests on the breast of a cataleptic subject will be the feat with which Professor Pelham will attempt further to convince the Portland public of his ability as a hypnotist. Pelham has sent out several of his troupe to scout for a suitable rock. As soon as it can be procured and delivered at the Grand Theater the act will be

Pelham asserts this feat to be the supreme test of his ability to bring about a complete state of cataleps, hardening the entire body so that it will sustain the great weight of the stone and not

The visit of 14 Portland physicians to the theater to witness Pelham control the flow of blood in the arm of a subject and to restore it through suggestion has in-tensified interest in his hypnotic per-formance. The audience watches the arm whiten as the current of blood is cut off, and redden with its return at the com-mand of Pelham. As they find their way out of the theater many are uncon-vinced, characterizing the performance as a deception of the eye or some trick of legerdemain. Pelham proposes to disa-buse the minds of skeptics by convincing them that he has secured absolute con-trol of the body and its organs.

The great danger of the act serves to excite interest in its exemplification. The subject may not respond to suggestion in such manner as to be able to withstand the weight of the stone on his chest, or as a result of delivering crushing blows the body may sustain injuries.

Medford Honors Miss Maude Powell MEDFORD, Or., March 15.-(Special.)—
A reception was given this evening in honor of Miss Maude Powell, the violinist by the music lovers of Medford.

A Record Sale

of Ladies' Handbags at The Owl Drug Co.

Saturday evening will mark the close of the greatest sale of Ladies' Handbags Portland has ever witnessed. That the people are taking advantage of the remarkable discount - 33 1-3 per cent-is proven by the tremendous number of Handbags we have sold during these first few days of the sale. Even at the former prices you would consider the bags bargains, for they were marked at Owl Cut Rates, but at 33 1-3 per cent discount, we doubt that anywhere in the United States you can duplicate them. The line is still complete and includes bags usually sold at from \$1.00 to \$25.00, and, mind you, every one is offered for sale at the same discount-33 1-3 per cent. Take advantage of it while the lines are still complete.

There are several styles of this bag; some beauties in black leather and moire lined. The regular price is \$1. Sale price 67¢

A ten-inch frame bag, real leather lined, gusset bottom, double strap handles, gilt trimmings and change purse. Former price \$1.25. Now83¢

A 10-inch Seal Goat Bag, leather lined, leather covered frame, protected corners, round bottom; salls for \$2. Now\$1.33

Large Seal Goat Bag, flaring bottom, strap handles, leather lined and has coin purse to match. Former price \$3.25. Sale price\$2.17

A Seal Grain Leather Bag with leathercovered frame, strap handles, in either gilt or gunmetal trimmings-a regular \$4 value, now at\$2.67

Rich Seal Grain Bag full lined with tan leather, gusset bottom, double strap handles and substantial coin purse. Good value at \$5. Sale price..\$3.33

A big assortment at this price; in both walrus and seal grain leather, various shapes, designs and mountings. Rare value at \$6. Now at\$4.00

An assortment at this price that will surprise you in rich seal grain leatherthe newest shapes

and handsome mountings. Cheap at \$7.50. Now.. \$5

Rexall Remedies

We are agents for the celebrated Rexall remedies. One for every allment, and all sold under a broad, liberal guarantee. No line of medicines has a larger following.

You will find here a full line of Lowney's Candies, Chocolates and Bon Bons; also Guth's Chocolates and Bon Bons, Have you ever eaten Fenway's Candy? If not, we advise you to try some next time Watches and Pens

Candy Department

Postcards A visit to our Post Card Department is a treat. We call special attention to the big selection of Easter Cards. No matter what the cost to us we sell them all at 1c each.

Every boy can own a watch, for we will sell him a practical and handsome Rexall Watch, fully guaran-teed, for \$1.00. We have Rexall Fountain Pens, too, Pens that give service and satisfaction—from \$1 up.

All Our Clerks Are Allowed One Day Off Each Week for Rest and Recreation

Read the Opinion of Oregon's Celebrated Scenic Photographer, B. A. Gifford, About

NEAH-KAH-NIE MOUNTAIN

"In all my trips up and down the Pacific Coast, for several years past, I have been taking photographs of the points of exceptional interest. There is scarcely a rock or other natural formation that I have overlooked, from the southern point in Oregon, quite a distance up the Washington coast.

"As a result of these journeys, I now regard Neah-kah-nie Mountain as the finest location on the Pacific Coast, both from the standpoint of scenic beauty and a Summer home resort. It is a wonderfully entrancing property, and I wish you (Signed) BENJ. A. GIFFORD." well in the sale.

March 1, 1910.

So far as scenic effect is concerned, it is probable that there could be no better authority in the state than Gifford.

It is a fact that Neah-kah-nie's natural beauty is unapproached on this Coast. It is phenomenal in one respect: its topography includes every known character of surface, such as mountain and meadow; bare spots and groves; hills and dales; sand beach and rocky coast; precipices and plateaus; thrilling trails and pleasant paths; dashing streams and bubbling springs; deep forest tangles and great open vistas; steep mountain sides and level, expansive plains, more or less gently rolling.

 And, isn't that what the tired man and growing family seeks more than anything else during the Summer-a decided change from anything they have ever experienced.

With all of its superior advantages, with veritable city improvements guaranteed, bungalow locations at Neah-kah-nie are for sale at one-half the prices charged at any other improved beach resort in the state. Ready to build upon.

Call for a copy of the Story of Neah-kah-nie.
