# 14 STUDENTS OF U. A. C. ARRESTED

Police Chief Corrals Collegians Alleging Violation of "Move-On" Law.

NIGHT

Representative, Rally Around Fresh-Annual Party-\$10 Bail Lacking--Trial Today

OREGON AGRICULTURAL COL-LEGE, Corvallis, Or., March 15.—(Special.)—Fourteen college students, some of them seniors and in high standing in the institution, narrowity escaped passing the night in Jall because they picaded not guilty of violating a city ordinance and falled to furnish ball. The collegians were arrested last Friday night by Chief of Police Wells because, when ordered to disperse, they

did not conduct themselves to the satisfaction of the official.

A crowd had collected around the college gymnasium, where the annual freshman party was in progress. They were attracted there by the expectation of witnessing fun in the way of sophomore interference with the freshman affair. Chief Wells was also there, de-termined to prevent any disturbance.

termined to prevent any disturbance. To preserve order the Chief ordered the students to disband. They failed to disperse to his satisfaction and the arrests followed. The offenders were arraigned before Judge beaman this afternoon and pleaded not guilty to a charge of violating the "move-on" ordinance. The judge set the ball at \$10 each, which the students failed to furnish. The support the judge ordered each, which the students latted to lurnish. Thereupon the judge ordered
them locked up, and seven men were
sent to the County Jali and as many to
the city bastile. They were finally released upon their promises to appear
for trial tomorrow.

The students insist that they are not

guilty of any misconduct and are un-willing to pay the fine. City authori-ties, on the other hand, insist that the students are gullty and that they are determined to teach them that students are not exempt from punishment. The arrests and threats of imprison-

ment of the representative students have caused great excitement in the student body, and the trials, scheduled to commence tomorrow morning, prom-ise to be well attended. The students are seriously considering hiring a lawver and fighting the case. The city of ficials are as fully determined to carry through their programme.

The college authorities have refused to interfere, on the ground that it is not a case coming within their juris-diction.

## OIL FOUND: FIRM FORMED

With \$25,000, Oregon City Capitalists Will Exploit Strike.

OREGON CITY, Or., March 15 .-(Special.)—With a capital stock of \$25,000 and the firm belief that they have struck oil on the Mumpower place at Stone, six miles from this city, six men today subscribed to articles of in-corporation of the Home Oil & Gas Company. Louis Vierhus, Joseph Grant Mumpower, Lorenzo Dow Mum-power, D. N. Byerlee, Harvey E. Cross and John William Watts are the in-

The company has leased properties in the vicinity of Stone and D. M. Watson, which indicate a plentiful flow of oil 1500 feet below the surface.

# RAILS LEAD TO PARKDALE

Mt. Hood Railroad to Give Improved Service to New Town.

HOOD RIVER, Or., March 15.—(Special.)—Work on ballasting the track on the six-mile extension of the Mount Hood Railroad is progressing and a train sched-ule over the entire length of the road will soon be put into effect between Hood River and Parkdale, the new town at its terminus in the upper valley. Parkdale is expected to become the

center of business activity in the upper valley. A large building containing a store and public hall is being erected there, and other buildings are contem-plated. It will have 15,000 acres of fruit land and timber territory tributary to it. provide an improved train service as soon as the road is opened to the new town.

### COURT PLAN BARS DELAY

Judge Calkins at Grants Pass Demands Prompt Preparation Pleas.

GRANTS PASS, Or., March 15.—(Special.)—The Circuit Court convened here today, Judge Calkins presiding. Only equitable cases will be heard. Judge equitable cases will be heard. Judge Calkins has made a ruling that all pleas, either in law or equity, must be made up without delay, and to that end he visits this jurisdiction once a month to catch dilatory pleaders.

Under the old system decorrange and Under the old system demurrers and pleas usually walted until the regular term and issues were subject to an-other three months' delay before coming to trial. Under the present plan the equity docker is kept clear.

## FARM GONE, FRAUD CITED

Dayton Widow Alleges Her. \$6000 Ranch Was Obtained Illegally.

DAYTON, Wash., March 15,—(Special.)

Mrs. Rebecca Watson, an elderly widow, alleges that she lost her farm, valued at 2500, to J. M. Coe, through a fraudulent scheme. She filed a complaint in the Superior Court today.

Coe, asserts Mrs. Watson, is living on

the farm and refused to give up the deed. She says she was told by Coe that her relatives were seeking possession of the property by having a guardian appointed over her and that if she deeded the land to him she would escape that ordeal. Be-lieving Coe to be honest, she says, she

### COLLEGE MORALITY HURT

President Crooks, of Albany, Talks

met yet to consider a protest on the oratorical contest at Salem, but that personally he regretted the action of

"Altogether the matter is the saddes nmentary on collegiate morality that as come to my notice in five years n Oregon," he said. "The only argu-nent in favor of admitting the orators without penalty seems to have been that a majority violated the rdie. The same argument among men might be used to justify dishonesty, profanity or kindred evils. The offenders against the long-standing constitutional rule had no votes; they acted for themselves without regard to the honorable rules of the contest.

"In no athletic event, track, baseball or football.

"In no athletic event, track, baseball or football; or in no intercollegiate oratorical contest; in no high school affair of any kind have & known rules and constitutional provisions to be changed in favor of offenders.

"Surely we have a right to hold coaches and faculties of the offending institutions responsible for their representatives violation of the rules. It would have been far more sportsman-

would have been far more sportsman-like for them all to have suffered the penalty. These things I can say because Albany was fairly beaten by one whose cration was in strict compli-ance with the rules."

### PRISONER'S CASE PUZZLES Man Recovers From Stupor, Eats

Double Meal, Relapses.

VANCOUVER, Wash., March 15. Special.)-An unknown man who had een held in the city jail because he apparently had lost all of his senses regained his voice today and said his name is Thomas Gustavson. He does not know where he was or how he came to be here, and does not recall anything that has transpired for weeks. He had not eaten for days, apparently, so when he had completed one meal at the restaurant, he ordered another meal and ate that ravenously.

and ate that ravenously.

Gustavson whispered that he had been a sailor, but the last time he remembers working was in railroad camps. He had been in Seattle, but does not recall being in Portland, though he had been.

Later this afternoon he fell into an Later this afternoon he fell into he

other stupor and was not able to be wakened. The case is puzzling local

### WEYERHAEUSERS TO BUILD

Large Purchases at South Bend Presages New Sawmill.

SOUTH BEND, Wash., March 15.— (Special.)—Charles E. Foster, formerly of this city but now of Tacoma, has sold to the Weyerhaeuser Timber Comoany five acres of unimproved land on he tideland island opposite this city for \$3000. Three years ago the Weyer-haeusers bought 90 acres on the island avowedly for a mill site and recently they have been picking up considerable quantities of adjoining and nearby land, including several blocks of unim-proved town lots in this city.

proved town lots in this city. It is thought by many that this sud-den activity presages the building of a mill during the coming season The Weyerhaeuser Company owns nearly one-half of the standing timber in this

### Chehalis Investigates Paving.

CHEHALIS, Wash., March 15.—(Special.)—The Chehalis City Council last hight voted to look over the paving situation in Portland and Vancouver, Wash. The trip will be made with a view of determining in the minds of view of determining in the minds of the members the relative merits of various kinds of street construction.

PHOTOS' BY TOLIMAN,

NIVERSITY OF OREGON, Eugene,

March 15 .- (Special.)-For the first

time in its history, the University of

Oregon has a co-ed intercollegiate de-

bating team this year. Time was when it was considered—well, just a bit de trop for a college girl to aspire to the forensic platform, just as it used to be thought improper for her to play any game more strenuous than tag, but nowadays, when women are making their way in all walks of life in competition with men, public speaking included, why should the co-ed be barred? This was the question the varsity girls.

This was the question the varsity girls, through their local literary society, the Eutaxian Club, put to the faculty this

year, and they argued their point so well there wasn't a dissenting voice when it came to a voto.

Miss Birdie Wise, '12, of Astoria; Miss Pay Clarke, '12, of McMinnville, and Miss Corin Degermark, '13, of Portland, are the pirts who have won their

and Miss Corin Degermark, 13, of Portland, are the girls who have won their colors as the first feminine representatives of the university in debate. All are vivacious, pretty and very much in earnest young women, active in student body affairs and intensely confident of their ability to win debating honors for their college. They made their places in two prelified.

their places in two spirited tryouts against six other co-eds. Some of the men debaters who went to the contests

expecting to sit back and look on in a blase and superior manner, came away much wiser and better equipped with points on the question at debate than when they entered

points on the question at debate than when they entered.
"Resolved, That the United States should establish a system of Postal savings banks" is the question which the young women will argue with the coeds of the University of Washington in their first intercollegiate debate.

CO-ED DEBATING TEAM

Intercollegiate Contests Will Be Enlivened by Advent of Trio of Young

Women Out for Forensic Honors.

Hill Engineers Work on Line From Hammond.

Extra Fast Train From Portland to Seaside Said to Be in Prospect for Summer-Electric Road to Push on, Is Report.

SEASIDE, Or., March 15.—(Special.)

—A force of Hill engineers and surveyors is engaged running a survey from Hammond, eight miles from astoria on the Astoria & Columbia River Railway to Seaside and then on up the Necanicum River. Within the past week the lines have been run to Seaside and the control of week the lines have been run to Seaside and today the engineers are working about two miles above Seaside. Despite the emphatic denials of members of the crew that they are connected with any railroad and the most emphatic denial that they are in any way connected with the Hill system, the engineer in charge of the work is a prominent Spokane, Portland & Seattle Railway engineer.

The survey skirts the beach from

the Railway engineer.

The survey skirts the beach from Hammond to Gearhart, from which point it follows the county road to Seaside, continuing to the bank of the Necanicum. This survey evidently is being made with the idea of heading off the Astoria, Seattle & Tillamook railway, on which it has been announced \$50,000 will be spent in the next three months.

Beach Line Probable. That in the event of the electric road being pushed to a conclusion, as has been promised, the Astoria & Columbia River Railroad scenic line seems probable, for whereas at present the road runs from one to two miles from the beach, the route of the electric line runs less than half a mile from the shore. The Hill survey is between this route and the ocean. In Seaside three months ago C. M. Fowier, travel-

ing freight and passenger agent, said that the road would shortly be moved to the beach. Further proof of the anxiety experi-enced by the Hill officials was evidenced by the receipt yesterday of information from prominent Portland officials that within prominent Portland officials that within a few weeks an extra fast Portland to Seaside train would be put in operation. It is believed that the arrival from Philadelphia Sunday of Attorney W. L. Crisman and F. L. Smart, vice-president of the National Utilities Company, owners of the electric road's rights-ofway and surveys, is an indication the road is ready for actual construction work.

It is generally believed that it is the intention of the electric road to push on up the Necanicum to tap the A. B. Hammond timber belt and it is thought the this explains the activity of the Hill men in running their lines to meet the prospective competition.

Option Points to Early Work.

Further indications that it is the intention of the electric road to rush work before Summer is found in the fact that what is believed to be a subsidiary company holds a 60-day op-tion on the Kruse-Gearhart property. This option was obtained through a Senside agent.
Interest was added to the situation

rallroad contracting firm of McCabe brothers. McCabe left Seaside at day-break yesterday, saying that he was going to Nehalem on business.

Further, a prominent contractor, at present in Seaside, was asked last week to bid on 20 miles of road, the work to be started in 20 days. As the sub-ject was declared to be confidential no further particulars could be obtained. further particulars could be obtained.

William ("Dundee") Reid, original builder of the Seaside Railroad and promoter of the scheme to build a road from Astoria to Portland, by way of the Lewis and Clark River route, has several engineers in the field. He says that his funds have been supplied regularly from New York and that within 40 days active construction work will be started. Mr. Reid has been living in Seaside several months keeping an eye on his engineers but announces his intention to return to Portland next month. to return to Portland next month.

WASHINGTON WATER POWER MUST ANSWER TO IDAHO.

Governor Brady Opens War After Receipt of Petitions From Property Owners of Panhandle.

BOISE, Idaho, March 15.—(Special.)— The executive and judicial machinery of the State of Idaho has been started by Governor James H. Brady and Attorney-General D. C. McDougall against the Washington Power Company and its big

ear-trap dam.
It is alleged by the panhandle settlers of the Gem State that this dam is the cause of the flooding of vast and valuable tracts of land in the vicinity of Post Fall, Harrison and other northern cities and towns, for upon receipt of the big me-morial petition signed by over 300 land owners, Governor Brady instructed the attorney-General to advise him at once as to what legal steps the state could take to bring relief to the settlers and prevent the company from overflowing and submerging the lands located in that

When seen today, Governor Brady de when seen today, Governor Brady de-clared that the Washington Water Power Company could not tread upon the toes of the state without interference and not only will he see to it that Heyburn Park on Lake Coeur d'Alene is not submerged, but he will look into the lease which was given by the State Land Board dur ing the administration of Governor Frank R. Gooding to the Washington Power Company to determine whether or not it

ompany to determine whether or not is valid and can be revoked. He wishes to be fair to both the comoany and the settlers, realizing that both

live their rights.

It is alleged that the company has done thousands of dollars' worth of dam-age to rich lands along the Spokane River, shores of Lake Coeur d'Alene and other streams in Kootenai County by erecting this mammoth dam to generate electric and water power which it transmits to surrounding cities and the mines. Spokane is the principal feeder, while the big mines in the Coeur d'Alene mining district are practically operated through the power furnished by the company. While the dam erected is a gigantic power service it has raised the water in the lake and the rivers, with the result that the bottom lands have been flooded to the loss of the settlers, who ever that o the loss of the settlers, who aver that their farms have been ruined. Complaint is also made that the domestic water the cities has been polluted through the submerging process. To re-move the dam meant ruln to the Water Power Company and a great loss to the towns and cities and mining districts depending upon it for their power. To allow it to remain will also bring great loss to the settlers and danger from a sanitary standpoint to the nearby towns. Intermingled with these issues is the intermingled with these issues is the added entanglement due to the fact that the Washington Water Power Company has title to part of the lands, having purchased them from the settlers while they have permanent leases on others. The issue at stake may yet have to be settled by Idaho's chief executive and individual department.

judicial department.

That the situation has become critical and the settlers are being rendered desperate by the attitude of the water company in completely ignoring their rights or passession to the land in the vicinity of the reservoir and hordering or the the reservoir and bordering on the lake and rivers whose shores are con-tinually flooded, is disclosed in the nu-merous petitions and letters which are oming into the Attorney-General's of-

"WETS" WIN AT ELGIN 'Drys" Elect Mayor but Council Is

Anti-Prohibition.

ELGIN, Or., March 15 .- (Special.) -- In the election here yesterday the "wets" won a decisive victory by electing two Councilmen, the City Marshal, Recorder and Treasurer. The "drys" elected their candidate for Mayor and one Councilman. The new Council is four to one against prohibition. against prohibition.

The newly-elected officers are: H. H. Weatherspoon, Mayor; R. Blumenstein, H. H. Hug and William Morelock, Coun-L. Denham, Recorder; J. B. Treasurer; William St. Peters,

WE DO PICTURE FRAMING

Scorn of University Faculty

PRESIDENT IS ACCUSED

Farmers Declare President MacLean Treated Agricultural Professor Unfairly-Segregation Is Likely to Be Demanded.

BOISE, Idaho, March 15.—(Special.)— Bitter is the feeling among the majority of the rural residents of this state against James A. MacLean, president of the Uni-versity of Idaho, and other members of the faculty over the removal of Professo French as the head of the agricultural de-French as the head of the agricultural department. It is said that Mr. French ignored the special committee sent by the State Grange to Moscow to investigate the cause of the removal of French and which subsequently reported that conditions at the educational institution were not the best for its advancement and declaring that the removal of President Mastean might relieve the situation. MacLean might relieve the situation. There is a clamor in Grange circles for the segregation of the agricultural department from the university and its re-moval to the southern part of the state. At the last session of the Legislature last Winter a strong attempt was made to effect this segregation, but through the

### THE SLEEPING SICKNESS

WHICH MEANS DEATH How many readers have heard of this terrible disease? It prevails in that far-away country-Africa-especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and mercy knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep. WOODARD CLARKE & CO., DRUGGISTS, PORTLAND.

# combined efforts of the northern Senators and Representatives it was blocked. The next session will witness a renewal of the fight for the segregation and prominent that the university would be better off

Precipitates Fight.

men declare that this will be accomplished. If President MacLean would retire.

But with the entrance of the State.

Grange, composed of some of the most prominent men of the state — farmers after the report of the State Grange comstock raisers, sheep and cattle men and others—into the controversy, the situation structors but members of the student body prominent men of the state — farmers stock raisers, sheep and cattle men and others—into the controversy, the situation has so developed as to indicate that either the president of the University of Idaho must go or institution must part with its agricultural department. The trouble at the university started when Professor French, recognized as one of the expert dairymen of the West, and

who was at the head of the agricultural department, was asked to resign. The charge against French was that he was not working in harmony with the faculty and as head of his department was not giving satisfaction. Mr. French in due time presented his resignation and left. He had hardly done so before the charge was openely made that President Macwas openely made that President Mac-Lean had represented to Professor French that the board of control had demanded his resignation, when the board knew nothing of the action of the president and had not authorized him to make rep-resentations to Mr. French. The charge was also made that in presenting the resignation of Professor French, Professor MacLean had represented that Mr. French had voluntarily resigned. The not be smothered by too great learning."

branded the State Grange as an osso clation composed of men not fitted to pass judgment on either President MacLean

or the agricultural department.

In commenting on the actions of the faculty and the students, A. E. Kimball, one of the prominent members of the Grange, in an address before the association at New Plymouth said:

"They refer to the modest and generous spront of our committee."

report of our committee from the State Grange as petty, mean and biased and without even taking the trouble to read that report assert that the committee at-tacked the university on the grounds of immerality. Could there be anything more petty than this appeal to the passions of a people who would be righteously in-dignant towards any who cast unfounded aspersions at their innocent sons and daughters. If a university training in-volves a college spirit as narrow and bigoted as this, let us hope that the agricultural department will be moved

# Women Suffer Agonies From Diseased Kidneys

And Most Women Do This, Not Knowing The Real Cause Of Their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex". Usually the kidneys and bladder are responsible — or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention—if there is to be a cure. You cannot cure one organ or part of the human body by "doctoring" another part which has little or nothing to do with the part that is diseased.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremeties, extreme nervous-ness or hysteria, listlessness and constant tired, worn-out feeling — are almost certain symptoms of disordered and diseased kidneys, bladder and liver. And when these conditions exist, there must, of necessity, be taken a genuinely good medicine which is intended for and will cure these diseases. Other-

wise, a cure cannot be expected.

De Witt's Kidney and Bladder Pills
have, in thousands of cases, been demonstrated as remarkably beneficial in all son — as well as of all other affete and such conditions of female organism — poisonous elements that may exist in affording the most prompt relief and permanent benefit. They have never failed, in any single instance, to accomplish these results, when given a faithful and honest trial.
