Oldfield again launched his great car from a standing start for a mile against time and crossed the finish line with another record. His time was 40.53 seconds, against 41.23 seconds, made with the same car by Hemery in England.

The timing for both races was done by C. H. Warner, official timer for the American Automobile Association, with the same mechanical device used at the Atlanta and Indianapolis speedways which has been officially adopted by the

Joe McDonald, Charley Barnhart, Billy Miles and Fred Lewis, of Santa Maria, made a pool of \$1000 which they bet at even money with a San Francisco oll baron that Portland would finish second or better in the Pacific Coast League this season. this season.

The Portland players would like to make some bets like that themselves, and would do so if it were not against the rules of the league for players to make wagers on the results of the games. All of the players are confident that they are with a winning club, and confide is half the battle.

After the games with the White Sox, Lee Tannehill congratulated McCredie on the strength of his club, and wished Mac all kinds of luck. The two are old pals, having played together over 10 years ago, and Tannehill thinks the Portland team has a fine chance to win out this year.

Sutton apparently lost his stroke and judgment of distance, missing several easy draw shots and one-cushion caroms. Hoppe's game, on the other hand, im-proved as the game went on.

After the 12th inning the game was a ne-sided contest, Sutton being unable to core in double figures with the exception of his 19th, 20th and 23d innings.

When Hoppe came up for his 27th inning he needed 66 to go out. He made 44 and left all three balls lined up against the end rail, apparently an impossible shot. IAM RILEY O'BRIEN

And, as I told vou vesterday, I am an expert tailor from Dublin. I want to say right now that I won't take my hat off to anyone when it comes to the know how of the tailoring business. I claim to be a Pastmaster in my line and I do not acknowledge an equal in this whole world. Some people say I am egotistical, but, then, I have been requested to cut, measure and build suits for the nobility, the Baronial Halls of the Fatherland welcome me during my every visit there, kings beseech me to take their measure, while Dukes and Earls pay me well for my advice in matters pertaining to their state dresses of regal splendor. Haven't I reason to be proud of my achievements? Is it any wonder that I have imitators? Three weeks ago I was in Los Angeles and I had imitators there; two weeks ago I was in San Francisco and there I was imitated; last week in Seattle the same thing happened and now, right here in Portland, near likenesses of me are being printed in all the papers. My name is being bandied about by all kinds of people. Why, only today I was stopped on the street by three men and they asked me to buy them a ticket around the world, and do you know what I told them? I said, "Gentlemen, the Ould Sod never turned out any foolish children, and the real Riley O'Brien has too much sense to make any such rash statements." As a compromise, I pinned a shamrock on the lapels of their coats and we parted the best of friends. But to get back to myself again, I realize some people may not take me seriously and even the American Gentlemen Tailors themselves sometimes make light of my statements, but they pay me well for my stay here, and I am content. I am going to give away
