LIVING DEATH OF WOMAN Baffles

Wife of Idaho Chief Justice Has Lain Four Months, All Senses Dead.

EFFORTS TO REVIVE FUTILE

At Reception Mrs. George G. Stewart Suddenly Falls in Faint; Taken to Hospital, but Unconscious State Eludes Diagnosis.

BOISE, Idaho, March 18.—(Special).—For four months past Mrs. George G. Stewart, wife of the Chief Justice of the state, has lain on a bed in St.

GOLDEN WEDDING CELEBRATED.

MR. AND MRS. W. N. CROSS, OF VANCOUVER.

VANCOUVER, Wash., March 18.—(Special).—After half a century of married life, Mr. and Mrs. W. N. Cross, residents of Manor, today celebrated their golden wedding. With them were their children, grandchildren and two score neighbors.

A feast cooked by Mrs. Cross herself, was spread. Mr. Cross was born in Illinois January 6, 1840. Miss S. H. Dixon, who later became his wife, was born in the same state March 25, 1846. They were married in Wayne County, Iowa, March 18, 1869.

Remaining there a short time, they started across the plains May 20, in a prairie schooner drawn by an ox team, but did not reach Vancouver until October 15, 1862. The following June they took up a homestead in the wilderness and began the arduous task of clearing it and bringing it under cultivation. That was during the Civil War.

Four children, all of whom were present at the golden anniversary today, live in the Northwest and they are Mrs. W. H. Alexander, school teacher at Yale, Wash.; James H. Cross, of Manor; W. M. Cross, of Seattle, and Mrs. E. A. Stenger, of Manor.

Mr. and Mrs. Cross are both exceptionally strong and healthy and he does his own work on the farm, while she keeps house and does her own cooking and sewing.

James W. Baker, Dundee; Hans C. Peterson, Dayton; Lovell M. Keen, McMinnville.

LUKE'S Hospital in a state of living death. She is believed to be paralyzed completely both as to body and mind. Only her eyes now show any sign of life.

She can take only the lightest nourishment, can hardly utter a sound, and is absolutely helpless. For weeks she has proved baffling to all diagnosticians who have examined her, although medical experts from the East, Portland, Spokane and Salt Lake have come here to pass upon the strange case.

Condition Starts in Swoon. Mrs. Stewart suddenly swooned one day last Fall at a reception in one of Boise's prominent homes. No one knew the cause of her fainting. She was rushed to the hospital, and every means known was employed in the effort to bring her out of her unconscious state, but nothing availed. For weeks she remained in a comatose condition, without showing a sign of life except her faint breathing.

She could not swallow, and liquid food had to be given her through a tube. Electric appliances used in medical treatment were resorted to, and among them osteopathic manipulation and massage. Efforts on the part of her husband and family to arouse her proved futile.

Eyes Open, but Blank. Finally one day she opened her eyes, the first sign of mental effort manifested since she was stricken. The expression was blank, however, and the mind seemed completely gone. She took no cognizance of anything about her. Gradually, however, other signs of mentality appeared. For the past month Mrs. Stewart has been able to make unintelligible sounds and to swallow milk without the aid of the tube. This is all, though, and she shows no signs of returning intellect.

She has wasted away until she is but a shadow of her former self. Some peculiar disease of the brain is the nearest approach to a diagnosis that has been made, but physicians do not attempt to account for the condition of this disease. They vouchsafe the opinion, some of them, that she may live for years in this condition.

THE APPROVAL of the most EMINENT PHYSICIANS and its WORLD-WIDE ACCEPTANCE by the WELL-INFORMED, BECAUSE ITS COMPONENT PARTS ARE KNOWN TO BE MOST WHOLESOME AND TRULY BENEFICIAL IN EFFECT, HAVE GIVEN TO Syrup of Figs and ELIXIR OF SENNA
