REAL ESTATE. Acreuge.

CLOSE-IN ACRES.

Why buy high-priced lots for an investment from high-priced promoters, when you can buy an acre for the same price and just as accessible; two years ago you could have bought acres in Alameda Park and vicinity from \$200 to \$500 per acre; today these same acres are selling in lots on a basis of \$4060 to \$500 per acre; the same is true of Rose City Park, Elmburst, St. Johns and the Peninsula; these tracts are practically all sold out and the city is growing very fast and must aventually extend east; I have some acre tracts, I'm miles east of Rose City Park, on the O. R. & N. track, that will soon run a suburban motor service and only 18 minutes out. This is deep, rich, mellow soll and no gravel; fine view of the mountains and Columbia River; you can raise all your own fruit and vegetables, have your chickens and cow and be independent of high prices; if you wish one or more of these acres on easy payments, call at my office from 10 A. M. to 2 P. M.; will take you out in my auto. Rooms 23-25 Hamilton bidg., 131 Third st.
