HEN CELEBRATES EASTER

Egg Nine Inches in Circumference
Result of Seasonable Effort.

J. C. Abbey, a farmer living on the Slough Road, three miles east of Woodlawn, yesterday found a double-yoked egg laid by one of the hens on his place, which as far as is known, is the largest ever laid by a hen in Oregon. The chicken guilty of the monstrous deed is a cross between a white wyandotte and a brown leghorn, but has never been known to lay anything larger than the average-sized egg before. The egg measured nine inches in circumference.

conference one way and seven inches the other, and was three and a half inches long.

The Title of "Reverend."
LAUREL, Or., March 25.—(To the Editor.)—I saw in The Oregonian a short time ago a news item about clerical persons in Olin who refused to have the appellation of "Reverend" prefixed to their names, giving the reason that it is not a Bible term and does no good. But it is a Bible term; it is found but once in the Bible and reads like this: "He sent redemption unto his people; he hath commanded his covenant forever; holy and reverend is his name." See Psalms III-ix. So we see the term used once in the Bible and then it is applied

to God. I do not think any person has a right to the name except he be a clergyman.
