INDIANS COUNTED, TOO

UNCLE SAM MAY RECORD FOR LAST TIME REDS BY TRIBE.

Questions to White and Red Alike Are Made Public to as to Aid Enumerators in Work.

Believing that the United States Government will never again enumerate the American Indians by tribes, Washington officials yesterday notified Supervisor Seneca C. Beach of the Second Congressional District, that the department would send special agents from the count.

In the acceptance of allotments in severalty the Indian is no longer counted as a member of a tribe, and it is believed that before the following 10 years shall pass all members of the various tribes will have become segregated through this operation.

Under these conditions the Government has announced a plan of enumerating the red men which will preclude the possibility of any being omitted from the count. While Supervisor Beach would have been compelled to handle the members of the Warm Springs and Umatilla tribes within the 30 days fixed for completion of the work in his district, the special agents will be allowed all of the time that may be required. The work will be assisted by the agents in charge of the various reservations and use will be made of official interpreters and Indian police.

It became known yesterday that the enumerators, who are sent into the field for the canvass of Oregon, beginning April 15, are to receive much larger salaries than is being paid by the Government for similar work in Eastern states. Oregon appointees outside of the cities will be paid \$6 per day, as against \$4 and \$5 in the East.

In the cities the canvassers will receive from 2 to 2 1/2 cents per name as against 2 and 2 1/2 cents in the Eastern states. The concession in wages was secured for Oregon because of the great demand on this Coast for competent men in all lines of business, the local supervisor being unable to secure satisfactory enumerators for a short period without offering extra inducements.

The following list of questions are official and will be propounded to every inhabitant of the state. It is being sent out by the Portland supervisor to keepers of lodging and rooming houses who have become patriotically interested in securing a correct count of the city, and who have filed requests. If the information is correctly and fully gathered it will be accepted on behalf of the lodgers and roomers who may not otherwise be counted. Every question must be asked and the answer recorded.

The information required is as follows: Location—Street, avenue, road, etc., house number (in cities and towns), number of dwelling house in order of visitation, number of names on order of visitation.

Name of each person whose place of abode on April 15, 1910, was in this family.

Relationship—Relationship of this person to the head of the family.

Personal description—Sex, color or race, age at last birthday, whether single, married, widowed or divorced, number of years of present marriage, mother of how many children, number born, number now living.

Nativity—Place of birth of this person, place of birth of father of this person, place of birth of mother of this person.

CALIFORNIA LURES YOUTH

Elmer Seymour Runs Away From Home in Seattle.

Thought to be on his way to California, Elmer Seymour, 16-year-old, son of E. S. Seymour, of Seattle, ran away from his home last Sunday afternoon and nothing has been heard of him since. Authorities in towns along the route supposed to have been taken by the lad have been notified and every effort is being made

to cause his return home. The elder Seymour is prostrated with grief over his son's action.

Young Seymour is about five feet, five inches tall; weighs about 125 pounds, has dark brown hair, dark eyes, rather large head; has scar on upper left cheek and scar back of the left ear. When he left home he wore dark slate-colored clothes, with a red knit vest, trimmed in black, a soft black hat and negligee shirt.

Persons having seen the boy will greatly oblige his father by writing him a postal, giving the time and place when seen and direction he went. If seen after this publication, either telephone or telegraph his father at East 462, Seattle, Wash. Write in care of J. W. Wheeler, 3022 Lane street, Seattle, Wash. All expenses will be paid by Mr. Seymour.

Bald Heads Not Wanted

Baldness Is Too Generally Considered a Sign of Advanced Age.

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit and refuse to take men over thirty-five years of age as new employes.

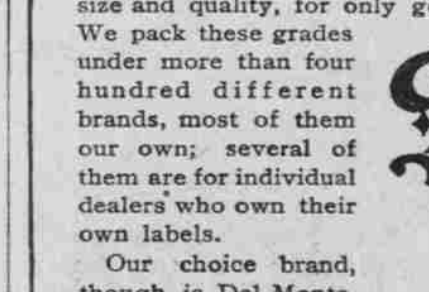

Almost 65 per cent of bald-headed people may retain a good head of hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word or hesitate to put our remedy to an actual test.

We want every one suffering from any scalp or hair trouble, dandruff, falling hair or baldness, to try our Rexall "99" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, lighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected and we exact no obligation from the user whatever.

We are established right here where you live, and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer except that we are certain that we can substantiate it in every particular. Rexall "99" Hair Tonic comes in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Portland only at our store.—The Retail Store, The Owl Drug Co., Inc., cor. 7th and Washington Sts.

The Choice Fruit from a Million Peach Trees is Offered You

Six of every ten cans of Peaches on the market are put up by us. More than a million trees are required to supply this enormous quantity.

From this great quantity we obtain and pack all grades, the grades being determined by the size and quality, for only good fruit is used.

We pack these grades under more than four hundred different brands, most of them our own; several of them are for individual dealers who own their own labels.

Our choice brand, though, is Del Monte. Under that label we take the pick. Only tree-ripened, hand-picked, perfect fruit is put into Del Monte cans. All Del Monte

Del Monte Products Are the Choice from the Largest Gardens and Orchards

Del Monte is the brand under which we pack our choice qualities of canned and dried fruits, vegetables, jams, preserves, catsup and condiments. We are the world's largest canners, and put up more than 400 brands. Del Monte is our favorite. Under that label we put up only those

qualities that pass the most critical inspection as to quality, freshness and flavor. It is always safe to insist upon Del Monte. Some other of our brands may be offered to you, but Del Monte is our quality brand—our choice. Be sure you get Del Monte.

CALIFORNIA FRUIT CANNERS ASSOCIATION SAN FRANCISCO, CAL.

The Largest Canners of Fruits and Vegetables in the World

Peaches are ripe, full-flavored. They are handled with the best care we know how to give them, and are packed in heavy, clear syrup, made from pure granulated sugar.

Some few dealers have us pack for them, under their own labels, this famous Del Monte quality. It would make no difference if you knew under what other brands the Del Monte quality is packed. But since there is no way of knowing what are safe brands, the best way is to get Del Monte.

Most dealers can supply you. Insist upon Del Monte, and thus be sure that you get the pick from more than one million trees.
