ROME, April 4 .- (Special.)-Not only is all Italy wrought up over the failure of the Pope to recive Colonel Roosevelt in audience, but the matter threatens to me world-wide in its importance. It is learned here today that Emper refuse to receive Mr. Roosevelt because of the latter's refusal to meet the conditions imposed by the Pope and the con sequent cancellation of the intended visit to the Vatican. RAPID PROGRESS IS MA MOUNT M'KINLEY.

Gap Is Found Which It Is Believ. Will Permit Trip to Summit Without Difficulty.

SEATTLE, April 4 .- The steamer Vorthwestern, from Valdez, Alaska, brings news that the Mount McKinley expedition, which left Fairbanks it January and which is composed of Thomas Lloyd, Robert Horn, Harry Karsten and Charles McGonigle, all experienced mountaineers, made more rapid progress than had been expected, and attained 12,000 feet without special difficulty.

From the 12,000-foot altitude to that of 16,000 feet an almost perpendicular wall of ice arose that at first seemed to forbid further ascent. Undaunted, the climbers began to explore the ice wall and succeeded in finding a gap. In a letter sent to Fairbanks by a hunter, Lloyd said:

"From the surveys we have just com pleted we believe we have found a route by which we can make the summit without having to overcome any very serious difficulties. It will be steep climbing over one stretch, but that is the only prospective delay on

which he will have to figure." When the party set out they did not expect to make the dash for the sum mit until Summer, but Lloyd's letter indicates that the men intend to lose no time.

Early in the campaign it was thought it would be impossible to defeat V. Schoenecker, now city treasurer, the Democratic nominee, for Schoenecker had the entire city hall administration at his back.

Then Seidel came to the front, the Republicans, who had failed to make a strong showing for six campaigns, except in the run of Sherman Becker "the boy mayor," having little hope of naming a winning candidate.

Sunday night, Oregon's Grand Old Man had retired at the usual hour after a quiet day spent in good health and spirits. At the rising hour the empty tenement of clay was found reclining as he had gone to sleep, the face as placid as that of a slumbering child. There was no evidence of a struggle as the spirit left the body, no indication that there had been the slightest degree of suffering. Judge Williams had died in the manner he had often wished -by "simply slipping away."

Days Grow Brighter Before End. For a week Judge Williams had been unusually cheery, and for five months he had been freer from physical suffering than for several years. For a long time prior to last Fall he had been nconvenienced by an internal disable-ment more or less chronic, yet it was of such a nature that his active in terest and participation in business affairs was not impaired and not even his most intimate friends realized the pain he suffered.

About seven months ago, during a evere attack of this ailment, his physicians decided upon drastic meas ares in spite of Judge Williams' advanced age. A dangerous operation was performed, but a wonderful vitality for a man of \$6 years pulled him through.

In two months he was again at his lesk and seemed to gain strength day by day. The suffering, too, was over and a deserved peace and tranquillity settled on his declining years. Up to ast Saturday Judge Williams had not been visited professionally by a physi-(Concluded on Page 12.)

Counties continuing fights, 70. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* CHICAGO, April 4 .- (Special.) -- At the polls will be settled tomorrow one of the holtest fights between the "wets" years ago. Whether they will remain without saloons or will vote "wet," is the question that is interesting the

state outside the metropolis. All the big cities of the state, with the exception of Chicago, will thresh out the question at the polls. Springfield, the state capital, Rockford, Rock Island and Pontiac are the four storm centers of the state.

Campaign Hottest at Springfield. The hottest campaign probably was waged at Springfield. Two years ago, when the question of local option was put before the voters, it was voted down by a majority of 1600. The drys now claim they will carry the city tomorrow by a good margin.

The Anti-Saloon League in that city for the last week or ten days has been advertising widely and on Sunday prepared nearly three pages of ads to be run in the local papers, showing what liquor has done to the city and citing murders, suicides and accidents, which they assert were caused by saloons

Bitter fights were also waged in Bloomngton and Pontlac, and tonight both ides are claiming victories. Two years ago the "drys" swept McLean County lean and Bloomington was almost converted into anti-saloon territory.

# Cannon's Town Involved.

During the campaign Billy Sunday, the evangelist, and Clarence Darrow, the ng speakers and the campaign narked by great activity in other ways. At Danville, the home of Joseph G. Cannon, Speaker of the House, Billy

Sunday's meetings created a furore, and

the "drys" are confident of winning a

one-sided victory. If Danville goes 'dry," it means that saloons will be voted out of the entire county. Winnebago County, of which Rockford is the county seat and largest city, voted "dry" two years ago. The fight there also was bitter. A majority of 200 out of an estimated vote of 10,000 is as far as the best guessers will pre-
