

INDIVIDUALS GAIN RIGHTS TO WATER

Bill Providing for Sale of Irrigation Surplus Amended in Senate.

HEYBURN MAKES ATTACK

Measure Declared to Have Been Drawn in Interests of Corporations--Warren Says Government Official Aided.

WASHINGTON, April 6.—Senator Warren's bill authorizing the disposal of the surplus waters of the Government irrigation projects to private corporations was the subject of prolonged debate in the Senate today.

When Warren moved to take up the bill, no vote was cast in the negative, and it was believed that a compromise had been reached that would insure early action. Such did not prove to be the case.

Heyburn took the position the states rights amendment would be of no service and denounced them as subterfuges and deceptions.

Heyburn Sees Plot.

Later in the discussion, Heyburn said that the bill had been dictated by the corporations. Warren denied that such was the case, saying:

"I deny that imputation. I drew the bill as the result of a suggestion from a Government official and not in the interest of any corporation."

Much of the day's criticism of the bill by Heyburn was directed to the omission of individuals from the list of those to whom the Government may deliver water as provided by the bill. He contended that the effect would be to prevent the use of water for domestic purposes. Denouncing the bill as a "crime," he asserted that he could explain the apparent willingness of Senators to permit the measure to pass only on the ground that they failed either to comprehend the terms of the bill or to appreciate their duty.

Individuals Are Included.

Senator Carter proposed an amendment including individual consumers, but while the amendment was accepted by all, this action did not put a stop to the discussion.

Heyburn was again sharply antagonized by his colleague, Borah, who, in emphatic terms, declared the bill to be in the interest of the people of Idaho and acceptable to them. Pointing out that the bill provided only for payment for the delivery of water by the Government, he contended that it did not authorize the sale of water, as had been asserted.

"Then, how can the Government sell?" inquired the senior Senator from Idaho.

Borah Takes Issue.

"The Government does not sell it," replied the junior Senator from Idaho. "The bill so provides," positively asserted Heyburn.

"It does not do anything of the kind," even more emphatically replied Borah. Both Senators evidently were settled over the situation. Later Heyburn expressed regret at the conflict with his colleague. Borah did not appear to be at all placated by the mild manner of his associate.

"He differs not only from me, but from the state land board and all others who have the matter in charge," he said. With this exchange of amenities, the bill was laid aside for the day.

Railroad Bill Vote Asked.

WASHINGTON, April 6.—The Senate will take up the bill authorizing the next Monday. Senator Elkins, who is in charge of the bill, gave notice today that after the conclusion of routine business on Monday, he would ask to have it voted on, "if no one is ready to make a speech." The notice was favorably accepted generally.

Anti-Option Bill Favored.

WASHINGTON, April 6.—The anti-option bill prohibiting dealing in cotton futures, which was introduced by Chairman Scott yesterday, was ordered favorably reported by the House committee on agriculture today.

NEWPORT SEEKS REDRESS

Town Wants Damages From Man Who Bungled Tax Levy.

NEWPORT, Or., April 6.—(Special.)—Newport's City Council will ascertain if it is possible to recover damages from County Clerk Wade, through whose error the Town of Newport lost an opportunity to collect \$1000 in taxes. The city is handicapped now for lack of funds and much-needed road improvements are delayed.

Whether cows shall run at large within the corporate limits of Newport is still a mooted question. The Mayor does not believe the charter amendment recently adopted provides for redress from owners of cows which are running at large in the city. Because this city is without a lawyer, the Council has let the legal issue drag along, and an early decision is not expected.

ABERDEEN SEEKS ROAD MAY 1

Grays Harbor Branch Line to Be Completed Soon.

ABERDEEN, Wash., April 6.—(Special.)—Construction work on the Grays Harbor branch of the Grays Harbor & Puget Sound (Union Pacific) railway have again been resumed and with permanent work being rushed on the Rochester bridge, the structure there swept away by floods, it is now believed that the new road may reach Aberdeen by May 1.

Contract for the depot at Cosmopolis has been let to McLean & Company, of Seattle, builders of the new Aberdeen high school building. The structure will be a combination passenger and freight affair and will cost \$5000. Material for the big steel bridge across the Chehalis River at this city is now being assembled, pile-drivers having already reached here.

COMA LASTS THREE WEEKS

Man at Vancouver, Mum, Awakens Only at Meal-Time.

VANCOUVER, Wash., April 6.—(Special.)—Rousing from his stupor just long enough to eat three hearty meals a day and spending the remainder of

"WHY BE SO THIN?"

Thinness is Embarrassing, Unhealthy and Not Natural—Formula Now Used Which Adds From One to Three Pounds a Week.

Every one ought to have some extra flesh on the bony structure of his body, both for the sake of health and self-esteem.

Most thin people are sensitive to the harsh, unfeeling criticisms which are constantly being hurled at them by the more fortunate well-fleshed persons.

Every one pities a thin, bony horse, but horses don't know it—neither do thin people are both pitied and ridiculed. It ought not to be so, but it is.

A well-rounded figure, be it man or woman, excites admiration; not only for the figure but for the bright eyes, pink cheeks, red lips, and vigorous carriage which accompany a well-nourished body.

Strength, health, beauty and sound flesh abound, if the blood and nerves get enough nourishment out of the food eaten.

This prescription aids nature: helps absorption, digestion and assimilation; helps distribute the blood and nerve elements which make flesh. Get the ingredients and make it at home, and see how very fast you gain in weight.

In a half pint bottle, obtain three ounces of essence of papain, three ounces ayurp of rhubarb. Then add one ounce compound essence cardiol, shake and let stand two hours; then add one ounce tincture cadomene compound, (not cardamom). Shake well and take teaspoonful before meals and one after meals. Also drink plenty of water between meals and when retiring. Weigh yourself before beginning.

his time in sleep. Thomas Gustavus, who was found on the big steel draw-bridge, his mind a blank, three weeks ago, is still a puzzle to doctors.

Gustavus could not walk, speak or write when found on the bridge, but since then he has regained his power to write. Yesterday he wrote that he could not talk, though he tried to.

Gustavus is cared for by fellow-prisoners in the County Jail.

A few days ago Gustavus could not get up to eat, and all efforts to awaken him were futile. He was breathing hard and Deputy Sheriff George Johnson was called. He attempted to awaken Gustavus by dripping water on his eyes, but even this had no effect. The next day the patient got up long enough to eat and relapsed into a stupor.

It is likely that he will be sent to the state hospital for the insane at Seaside in a few days, if he does not recover his senses.

FRANCHISE ONLY DELAYS

IF SPRINGFIELD GRANTS RIGHT, ROAD WILL ENTER CITY.

Pacific, Eugene & Eastern Plans Bridge Over Willamette When Word Is Given by People.

ENGLENE, Or., April 6.—(Special.)—President J. O. Storey and General Manager A. Welch, of the Pacific, Eugene & Eastern, who came up from Portland last night, have been looking over the interests of the company here today and at Springfield, with a view to contemplating improvements, including construction of a bridge across the Willamette River into Springfield.

The contract for this bridge was let some months ago and Manager Welch said today it would be built as soon as the matter of a street franchise in Springfield was adjusted, which will probably be done in a day or two. Mr. Welch returned to Portland on the noon train, while President Storey is still in the city and is conferring with the local manager, J. L. Lamberton, relative to the extension of the company's line to Junction.

At the conference in Springfield between the road officials and officials of the city it was agreed that the P. E. & E. submit a franchise for the consideration of the Council and if satisfactory it will be granted.

The proposed College Hill loop extension, so the officials say, will probably not be built till next year, if at all. The committee of Eugene citizens which raised \$33,000 of the \$40,000 asked by the company to build this latter extension, still has hope that some satisfactory arrangements may be made where the College Hill line may be built this summer, and will take the matter up further with President Storey before he leaves.

ACTIVITY THOUGHT HILL'S

Harney County Sees Signs of Bolse & Coos Bay Road Building.

BURNS, Or., April 6.—(Special.)—The presence here this week of John E. Burchard and W. P. Davidson, of St. Paul, making an examination of the Willamette Valley & Cascade Mountain Wagon Road Company lands, is taken as the best assurance yet given of the early construction of the Bolse & Coos Bay Railroad by the Hill interests, with whom the capitalists represented by the St. Paul men are known to be intimately associated.

They came here from Vale in automobiles and William Hanley accompanied them over a portion of the road lands in this county, with which they were well pleased. From here they went westward along the company's grant through Crook County.

It is known that the Minneapolis & St. Paul men who are negotiating for the road lands have been the immediate fore-runners of Hill construction work, buying and developing desirable properties known to be tributary to the contemplated railroad. Their purchase of the Wagon Road Company lands, therefore, has a deep meaning for this part of Oregon.

Immediate activity by the Hill people is thought further assured by the fact that a large party of engineers under the direction of Stevens & Budd, of the Oregon Trunk, is now working eastward from Crook County, having reached the west line of Harney County, near Wagon-trunk Mountain.

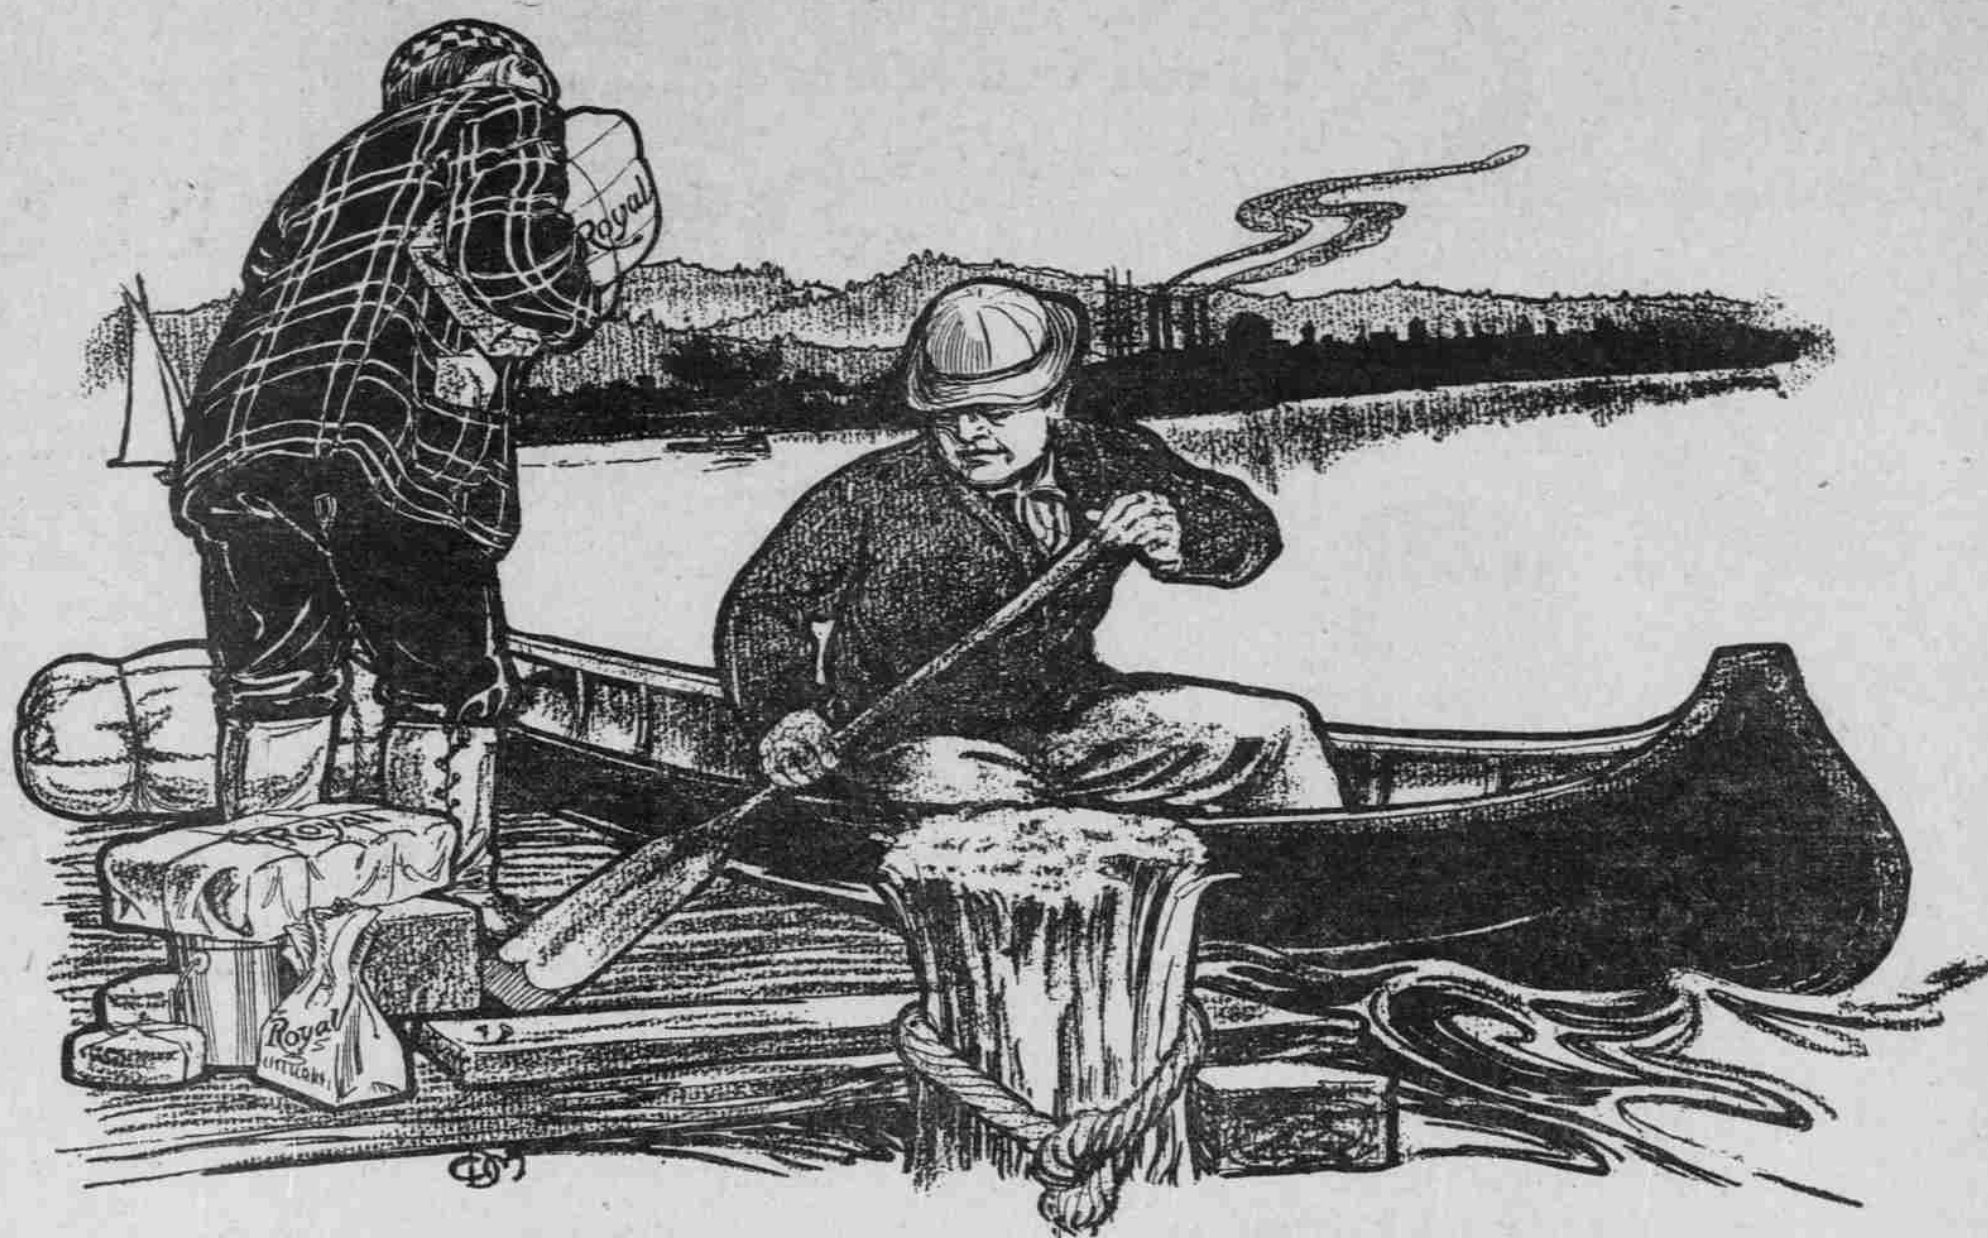

Check Forged, Two Arrested.

VANCOUVER, Wash., April 6.—(Special.)—Norman Bradley, alias R. S. Richfield, and Harry G. Hill were arrested last evening when attempting to pass a check, which later proved to be a forgery on Till & Gibbs, of Portland. It is alleged that at least four similar checks for amounts varying from \$5 to \$20 have been cashed by the same men in Portland. They were taken to Portland this afternoon by Detectives Hellyer and Maloney. Bradley served two terms in New Westminister prison and Quentin Hill attempted to pass a check for \$1000. They were arrested, it is alleged, by posing as a lodge organizer.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. There is no telling when it may be wanted in case of sudden emergency. It is most excellent in all cases of pneumonia, sprains and bruises. Sold by all dealers.

See Woodburn Orchards Co.'s advertisement, page 7, today's issue.

"Paddle Your Own Canoe"

7,666,066 Loaves of Delicious Table Queen Eaten in Portland Last Year

HOW many times have your kind old father and mother told you in the days of your youth, always to "paddle your own canoe?" Keep this advice fresh in your mind right now, and when you purchase bread, do not let the other fellow paddle your canoe for you, and give you an inferior substitute, when you can, just as easily, and at the same price, secure Table Queen Bread.

Table Queen is guaranteed to be made from the purest and most costly ingredients obtainable, a large share of them being imported direct from Germany.

Table Queen is mixed under the supervision of admittedly the most scientific bread expert on the Pacific Coast.

Table Queen is baked by the most skilled and highest paid bakers in the United States.

Table Queen is baked in eight white, enamel-faced steam ovens of the latest and most improved type, each oven having a capacity of ten thousand loaves daily. The secret of delicious bread lies in the oven. Most ovens bake in a dry heat—ours in live steam. These great Royal ovens are made with low roofs to retain all moisture rising from the bread. Then other steam is forced in under terrific pressure, superheated to 340 degree. In this fierce heat the starch granules

swell until they burst into a myriad of particles, so the yeast cells quickly convert themselves into sugar. The result is the most perfect loaf ever baked—it is so moist and dainty, and of such a delicious flavor that it is nothing less than a revelation in bread baking.

Table Queen is baked in absolutely the cleanest and most sanitary bakery on top of this earth—a bakery incased in plate glass, so that all Portlanders may look through the windows and witness the preparation of toothsome Table Queen; and, if they desire, they may step inside and watch every process, for we have nothing to hide—we're proud of our Royal-made products.

Table Queen is taken by our neatly uniformed deliverymen, hot from the ovens, and in ten minutes it is delivered to the first grocer; in a few hours it is in every store. The price is five cents a loaf, and in quality it has no competitor.

THE ROYAL BAKERY & CONFECTIONERY, Inc.

Insist on Getting TABLE QUEEN—Look for the Word ROYAL Impressed on the Bottom of the Loaf

OPTION LAW ATTACKED

UMATILLA SELLERS OF NEAR BEER RAISE POINT.

If Contention Is Upheld They Will Escape and County Will Be "Wee" Again.

ALBANY TO HAVE BRICK CHURCH.

ALBANY, Or., April 6.—(Special.)—Albany's first brick church will be erected this summer. The congregation of the First Presbyterian Church has definitely decided to erect a \$25,000 edifice this year, to be constructed of brick, with stone trimmings. The new church will stand on the site of the present edifice, at the southwest corner of Fifth and Broadbald streets.

MILTON WINS CONVENTION

UMATILLA SUNDAY SCHOOL CONVENTION ENTERTAINED BY INDIAN GIRLS.

UMATILLA, Or., April 6.—(Special.)—After voting to hold the next meeting of the Umatilla County Sunday School Association in Milton, the 15th annual convention was brought to a close tonight. Athena and Hermiston were Milton's closest rivals. The total number of registered delegates in attendance was 17, more than had been expected.

Rev. C. A. Phipps, state Sunday school organizer, was the principal speaker of the convention. One of the attractive features of the sessions was the singing of hymns in Nez Perce by a Sunday school class of young Indian girls from the Tutulla Mission. Several Indians attended the convention.

They say that the law specifically requires the canvassing board to canvass the election returns and then notify the County Court of the result. They hold that then and only then is the County Court empowered to issue an order forbidding the continuance of liquor selling within the county.

While the point is purely technical, it makes a clear-cut issue. The facts in the case will be stipulated by both sides and the courts given a chance to pass upon the question without delay.

Raley and Winter represent 20 clients who were recently indicted for violating the law, on the ground that the "near beer" they were selling contained more than 2 per cent alcohol. If

CHILD KILLED AT PLAY

HAT BLOWN FROM HEAD, BOY REACHES AND FALLS OVER BLUFF.

SPOKANE, Wash., April 6.—(Special.)—When reaching for his cap, blown away when he was playing, Albert, 4-year-old son of Mr. and Mrs. H. A. Wilkinson, slipped from the top of a bluff overlooking Hangman Creek and was instantly killed today.

The body was discovered by boys a short time afterward. It was not mangled, death having been caused by a fracture of the neck at the base of the skull.

A woman on the opposite bank of the creek saw the child's peril, but was unable to utter a warning or go to his aid.

The mother was first informed of the accident when the dead body was brought to the home. She had not missed the little one from the yard.

Man Killed Between Logs.

Epworth Leaguers to Meet.

SCAPPOOSE KILLED

BROWNSVILLE OR.

SCAPPOOSE, Or., April 6.—Bernard Hanneman, a married man, aged 35, was accidentally killed yesterday afternoon in the logging camp of the Chapman Timber Company, near this place. He was employed on the log-

loading roll-way and in some way was caught between moving logs. He leaves a widow and several small children. He was a sober and industrious man and out of his earnings had saved a comfortable home.

BROWNSVILLE, Or., April 6.—(Special.)—A district Epworth League convention, comprising 100 delegates from every section of the Eugene district, will be held in Brownsville April 29 and 30 and May 1.

Epworth Leaguers to Meet.

Facts for Weak Women

Dr. Pierce's Favorite Prescription

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.
