SALMON RATES CUT

Steamer Invasion of Trade Forces Roads to Act.

TARIFF DROPS 20 CENTS

All Transcontinental Lines Join in Lowering Charge for Transporting Canned Fish East—Change Will Be in Vogue Soon.

As the result of water competition first felt decisively by the railroads last year all transcontinental lines have announced a material reduction in the rates on canned salmon shipments to points as far East as Chicago.

Last year the tramp steamers and even the regularly established steamship lines cut into the salmon traffic theretofore carried by the railroads to an extent that made traffic officials take notice. It is said that some of the big packers of the Columbia shipped as much as two-thirds of their output around the Horn. The same competition was felt in the Puget Sound territory and even to a greater extent in Alaska shipments.

Last year agents of the steamships accumulated canned salmon in large quantities and made up shipments which, on arrival at the Atlantic seaboard, were placed in storage and transhipped by rail to the interior as the market demanded. During the long trip around the Horn the cost of storage was avoided by the owners of the salmon, making water shipment a further inducement. The rate from New York to Chicago is 30 cents on 100 pounds and it is said that by water and rail transshipment salmon was laid down in Chicago at figures averaging about 60 cents for 100 pounds.

Quicker Delivery to Count. In respect to Chicago and St. Louis the new rates will probably barely meet the water rate if they even do that, but it is expected that the competition will be met in part by the quicker delivery offered by rail.

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE. One of the most valuable qualities of Mother's Friend is that it safe-guards the future health of the mother. It is a liniment to be applied externally to the body, the use of which lubricates the muscles and tendons, softens the glands and ducts, prevents lumps forming in the breasts, and relieves the pain, nervousness, nausea, and other troubles from which so many expectant mothers suffer.

EAT WHAT YOU LIKE

If Your Digestion Is Good You'll Enjoy it. If You Don't Enjoy It, Take a Little Kodol. It Digests All Food You Eat.

We mean any kind of food. It makes no difference what you may eat—no matter how difficult of digestion your food may be for the stomach, a little of Kodol will digest it. A tablespoonful will digest 2 1/2 pounds of food easily and naturally, just as a healthy stomach does. That is why Kodol is so sure to prevent dyspepsia and the many other serious ailments which result from undigested food remaining in the stomach. Indigestion and dyspepsia are always caused by food not properly digested in your stomach. When your stomach cannot properly digest food, of itself, it needs a little assistance—and this assistance is readily supplied by Kodol. Kodol assists the stomach by temporarily digesting all of the food in the stomach, so that the stomach may rest and recuperate. Kodol is really a very excellent preparation for any digestive disorder. Our guarantee—Get a dollar bottle of Kodol. If you are not benefited—the druggist will at once return your money. Don't hesitate; any druggist will sell you Kodol on these terms. The dollar bottle contains 2 1/2 times as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. DeWitt & Co., Chicago.

Nature's Gift from the Sunny South

Cottolene Is a Food Product of Absolute Purity

In recent years there has been a wave of reform in the making and inspection of food products. National and State Pure Food Laws have been passed, regulating their manufacture, to insure the customer getting pure, healthful food.

Any product which contains hog fat is subject to the taint or possibility of disease germs. Lard is made from hog-fat—it may be pure, and it may not. At any rate, it is at best indigestible, and will raise havoc with any but the hardiest stomach.

Cottolene is a vegetable product, which is far superior to lard for all shortening and frying purposes. After the cotton seed oil has been refined through purifying processes of our own, it is made neutral and odorless, and an absolutely pure and healthful fat is the result.

Cottolene is a product of nature and is bound to be wholesome. It is the one dependable, healthful product for frying and shortening, and is carefully inspected and made to conform with all pure food laws.

COTTOLENE is Guaranteed Never Sold in Bulk Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test. Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
