

### HANLEY OF BURNS HAS SECRET INDICTMENT

#### Rich Eastern Oregon Stockman Accused of Felling Government Timber.

### SECRET INDICTMENT FOUND

#### Capitalist Visiting in Portland to Be Arrested Today, Marshal Giving Him Time to Get Bond—Conviction Entails Jail Term.

William Hanley, of Burns, considered the wealthiest stockraiser of Eastern Oregon, will be arrested this morning to answer a secret indictment found on his charge against the federal grand jury, charging him with cutting timber on Government land.

This is the second time the Government has accused Mr. Hanley of violation of the Federal laws. A year ago he was found guilty of felling about 83,000 acres of Government land unlawfully and was sentenced to pay a fine of \$500 and meet the costs of the case, which in all amounted to \$235.56. The case was appealed and will be argued before the United States Appellate Court at San Francisco May 4.

There are two charges against Mr. Hanley in the indictment of March 23, one alleging the cutting of 1000 cords of wood on public land in November, 1907, and the other accusing him of removing timber from public land in December, 1909.

If the Burns capitalist is found guilty he will be required to serve at least some time in jail, as the statute under which he is indicted provides that a fine shall be imposed of three times the value of the timber removed and a sentence of imprisonment not to exceed 12 months shall be made a part of the punishment.

Two large ranches, the "P" ranch and the Diamond ranch, in Harney County, are controlled by Mr. Hanley. It is understood that the wood Mr. Hanley is alleged to have unlawfully taken from Government land was used for the operation of a dredger on one of these ranches in the Harney Valley.

Although it has been more than two weeks since the indictment was returned, Mr. Hanley was returned, he did not know of its existence until yesterday, when he was informed by Marshal Reed. Mr. Hanley is frequently in Portland and the Government was saved the expense of sending a man to Burns for him by waiting for his appearance here.

Hills bordering the Harney Valley are covered with juniper, of generally dwarfed growth, and since white people took possession of this district it has been the custom of many to help themselves to wood. As the juniper trees were not of any use in the lumber business, it is said there has been a general understanding that the law against the use of timber on public lands did not apply to juniper growth.

Mr. Hanley explains. Mr. Hanley made the following statement last night concerning the charges. Among other things I have in Harney County, I manage the properties of the Harney Valley Development Company.

On this property is over 80,000 acres of worthless tule swamp, which I thought it would be good to drain for future farms when the railroads came and the cattle ranches could be broken up into farms and homes. To drain the tule swamp I engaged the owners to let me dig up an old dredge and go to work. I run the dredge I had to have to do with the dredge. I want to be perfectly frank and say if I had known they were cutting juniper on Government sections, I would have thought nothing of it, for juniper has never been classed as timber and I had no intention of selling it as such. Not until this indictment against me has any one in the West ever considered that juniper is a timber. It has been the custom of settlers to help themselves to it for fuel and fencing so if I had known that the men I contracted from were going to cut on Government lands, I would have thought nothing of it.

After the wood was corded up, delivered and paid for, it was taken to the sawmill and the men who cut it were browbeaten, threatened and given evidence for the Government. They were told by special Agent Reed that he had a complete case against me and that my fellow they were after. Apparently I am a bad citizen.

I was tried and convicted of fencing Government land on this same ranch—when I never developed a word of evidence for the Government. They were told by special Agent Reed that he had a complete case against me and that my fellow they were after. Apparently I am a bad citizen.

### FAIR WEATHER PREDICTED

#### Showers Over, Is Belief of Observer. Willamette River Falling.

After five days of showery weather and unsettled conditions a change for the better is in sight. The Weather Bureau predicts showers for this morning followed by fair weather. The wind will shift from the south to the west and all signs point to a general clearing up in the northwestern district.

At Portland the barometer has risen slowly. Over British Columbia there has been a slight drop. In other sections it has remained stationary. Rain has been general and the precipitation at Portland for the 24 hours, ending at 5 o'clock last evening, was .85 of an inch. The deficiency for the season has been reduced to .18 of an inch. The Willamette River at Portland is falling.

### RAILWAYS TO MEET BOARD

#### Forest Grove Committee to Aid in Securing Right of Way.

FOREST GROVE, Or., April 7.—(Special.)—President W. N. Ferris of the Board of Trade, announced today that he had been informed by General Manager

Wickersham, of the United Railways, that a part of the new owners of the railroad in the near future, would come to this section to look over the field and that they would meet the members of the Board of Trade on that occasion.

Right of way for the proposed line of the United Railways has been secured from Forest Grove to Gales Creek, and that from Gales Creek to the city will be gone after by the special committee of the Board of Trade.

Mr. Ferris appointed today the standing committee for the ensuing year. The Board of Trade contemplates an earnest campaign for a better and bigger Forest Grove.

### U. O. SORORITIES UNITE

#### Co-eds Join National Body to Regulate "Rushing"—Officers Named.

UNIVERSITY OF OREGON, Eugene, Or., April 7.—(Special.)—The Pan-Hellenic Association, an organization of college women's national sororities and Greek letter fraternities for the purpose of regulating "rushing" and other events of sorority life, was formed today by the three local chapters at the University of Oregon.

The members in the order of their installation at the university are the Gamma Phi Beta Sorority, the Chi Omega Sorority, and the Kappa Alpha Theta Sorority. Miss Ruth Hansen, Miss Bertha Dorris and Miss Frances Oberbauer, of the three chapters, respectively, were elected president, secretary and treasurer.

The Pan-Hellenic Association is an established order in most of the large educational universities of the United States. It makes rules as to when and how pledges are to be secured by the different sororities, and enforces strict penalties for their violation, at times compelling all new members to be forfeited. It also aims to secure closer relationship between the sororities and the college faculty.

Some time before college opens next fall, the local association will meet and formulate rules. It is probable that no "rushing" will be allowed until a certain specified date after college opens.

### MACHINE WORTH 40 MEN

#### Dayton Farmer, 71, Invents Implement to Do Many Tasks.

DAYTON, Wash., April 7.—(Special.)—G. L. Bradley, 71 years old, pioneer farmer of Garfield County, says he has invented a machine to do the work of 40 farm hands. He is endeavoring to interest local capitalists in the organization of a company to manufacture his machine. Ideas gathered from 50 years' hard work on a ranch are embodied in the invention.

Mr. Bradley's machine is a grader, scraper, ditcher, plow, orchard cultivator, weeder, hay-rake and manure-spreader, but it will do practically any farm work. It has a span of 12 feet and stands four feet high. The old man has been working on the machine for three years.

Free Sunday excursion, Woodburn Orchard Co., Henry Bldg. Both phones.

### SECRET INCINERATOR CAMPAIGN BEGUN

#### Mayor Says That Hauling Distance Will Be Equalized by New Plant.

#### FACILITIES ARE MODERN

#### Incinerator for Which Contract Has Just Been Let Is Surrounded by Safeguards Against Spread of Infection.

Mayor Simon announced yesterday that it is his intention ultimately to secure the construction of a second garbage

to the dumping floor will be by means of a concrete viaduct 18x23 feet. The chimney will be of the best modern construction of especially-moulded, perforated, radial bricks, the materials of which will be manufactured in the vicinity of Portland. At present this class of material is made not nearer than Indiana.

The incinerators will be enormous furnaces, 50 feet long by 27 feet wide and 18 feet high, or larger than the average eight-room residence. These are warranted to be operated at practically white heat and in such a manner that nothing will escape from the chimney except a light white vapor or invisible, odorless gas.

The incinerators are of the best modern design, containing every feature worth using of the plants at Seattle, Vancouver, B. C., Staten Island, N. Y., and the best English designs, but are modified to reduce greatly the operating costs for labor which characterizes the English systems when used under American conditions.

In burning the mixed refuse of the city there will be much incandescent rubbish, such as tin cans, broken crockery, glassware, barrel hoops, etc., which will pass through the fire and emerge as clinker. For handling this clinker and the ashes from the plant the engineers apply their patented method by which no ashes nor debris from the furnaces ever enter the firing rooms, but fall directly into cooling cars of steel from which they are emptied once daily. The consulting engineers and contracting company promise a completed plant 150 days from the date of the contract.

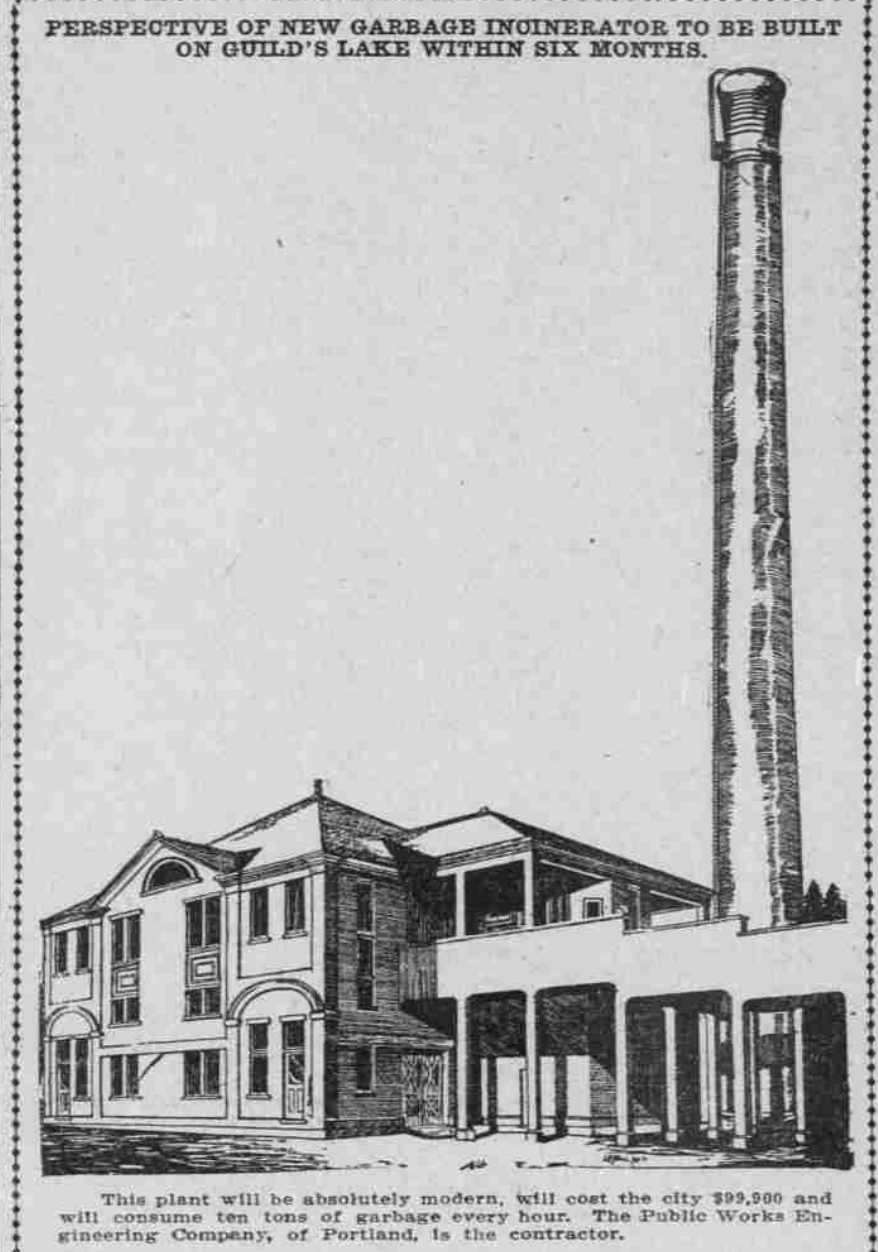

The plant will produce its own steam for the operation of its power apparatus, such as the forcing pumps, the fans, the ventilating system, heating system and hot water supply. Sewage purification to prevent the further pollution of Guilds Lake is an added feature of interest, a septic tank being provided with the plant to eliminate sewage from the dumping floors and collecting carts.

Attorney R. A. Wade, Second and Washington streets, who figured recently in the alleged discovery by the police and Constable Wagner of the existence of an organized gang of automobile thieves operating in Chicago and selling stolen cars on the Pacific Coast, was arrested yesterday upon the charge of obtaining money under false pretenses, brought by Frank P. Eagan, a real estate dealer of White Salmon, Wash.

Eagan alleges that Wade passed a check for \$200 drawn upon the New York Produce Exchange Bank, which was worthless.

Wade was taken into custody at the corner of Third and Washington streets by Detective Hyde just after he had left his office. He was released on bonds of \$1000 late in the afternoon. He will be required to stand trial in White Salmon.

Wade may be the subject of further investigation according to the beliefs of the police and of Constable Wagner. These officials believe that Wade has information concerning the gang of automobile thieves who are wanted by the Chicago police and efforts are being made to induce Wade to tell what he knows. According to the officials, he has not yet explained how he came into the possession of the machine which he sold to Attorney Riddell and his connection with the others supposed to be involved in the case.

This plant will be absolutely modern, will cost the city \$95,000 and will consume ten tons of garbage every hour. The Public Works Engineering Company, of Portland, is the contractor.

### Appendicitis

#### How to Avoid It and Escape a Surgical Operation, Told by One Who Knows.

#### A Simple Method That Is Always Efficient—Trial Package Free.

It has only been a few years since it was discovered that a surgical operation would cure appendicitis; in fact, it has been but a short time since the disease was discovered and named.

Whenever there is an inflamed condition of the appendix, caused by impacted feces in the small cavity opening into the intestine, you then have appendicitis.

The older doctors used to call this inflammation of the bowels, and were puzzled to know the cause. Even now, with all the knowledge we have of the disease, no medical man can tell you why we should have an appendix, why we find it where it is, or what are its functions, if it has any.

The disease for which the operation is a cure is usually caused by indigestion, and in many cases follows a large and indigestible meal.

Physicians have until recently recommended an operation, but now, as it is known that it is caused by indigestion, or dyspepsia, a cure without an operation is assured.

Where the patient is treated with Stuart's Dyspepsia Tablets, the unhealthy conditions prevailing rapidly disappear, the stomach and intestines are placed back in their normal condition, every organ of the body opens up, and the inflammation is reduced and the operation is avoided.

Conscientious physicians, who are looking after the best interests of their patients, will always keep a supply of Stuart's Dyspepsia Tablets handy in their office, where in cases of sudden attacks of indigestion they can relieve the patient at once.

There is no record of a case of appendicitis where the stomach and bowels were in a healthy condition and properly digested the food from meal to meal.

No better advice can be given to any one who has attacks of indigestion, or who has been threatened with appendicitis, than to tell him to go to the drug store, pay 50 cents, and take home a package of Stuart's Dyspepsia Tablets.

Whenever heartburn, gas in stomach or bowels, heart disease or stomach troubles, sour eructations, acidity or fermentation are present, act at once. Take a dose of the Tablets and get relief as soon as possible.

At all drug stores—50 cents. Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

tomable thieves who are wanted by the Chicago police and efforts are being made to induce Wade to tell what he knows. According to the officials, he has not yet explained how he came into the possession of the machine which he sold to Attorney Riddell and his connection with the others supposed to be involved in the case.

### A CERTAINTY

#### MONTECLAIR

We are enthusiastic about "MONTECLAIR" because we positively know the future of that section. Our judgment is based on the successful handling of fourteen Portland subdivisions.

SUFFERING FROM ECZEMA  
New Discovery Has Revolutionized the Treatment of Skin Diseases.

Nothing in the history of medicine has ever approached the success of the marvelous skin remedy known as poslam, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these ills.

The success of poslam is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and proceeds to heal at once. The very worst cases of eczema, as well as acne, herpes, tetery, piles, salt rheum, rash, crusted humors, scaly scalp and every form of itch yield to it readily. Blemishes such as pimples, red noses, muddy and inflamed skin disappear almost immediately when poslam is applied, the complexion being cleared over night.

All druggists, including the Skidmore Drug Co. and the Woodman-Clarke Co. keep the 50-cent size (for minor troubles) as well as the regular \$2 jar. But no one is even asked to purchase poslam without first obtaining a sample package, which will be sent by mail, free of charge, upon request, by the Emergency Laboratories, 23 West Twenty-fifth street, New York City.

### Best of All Our Oranges and Lemons Are "Sunkist"

We pick, pack and ship over 20,000 cars of California oranges and lemons each season from our 5,000 groves. These are of varying grades. From all this vast quantity we select the finest—the superior grades—which we wrap in tissue paper bearing the famous "Sunkist" label so that you may know them as the choicest fruit. So be sure to get "Sunkist" oranges and lemons at your dealer's.

He has a fresh supply today. "Sunkist" oranges ripen on the tree. The warm California sunshine gives a tender, sweet pulp, matured and made exquisitely juicy by Nature.

#### "Sunkist" Navel Oranges Are Seedless

These oranges are distinct, full-flavor, thin-skinned. They are picked by gloved-hands; thoroughly cleaned; wrapped in "Sunkist" tissue paper; packed carefully to insure firm, unbruised fruit.

#### How to Tell "Sunkist"

Each "Sunkist" orange and lemon is wrapped in tissue paper upon which is printed the "Sunkist" label. Lemons or oranges without "Sunkist" wrappers are not "Sunkist" brand.

Free—Best Rogers' Orange Spoons—Send us 12 "Sunkist" orange or lemon wrappers and 6 two-cent stamps for postage, packing, etc., and we will send free, a Wm. Rogers & Son full standard, AA plate orange spoon. For each additional spoon send 6 two-cent stamps and 12 wrappers. You can easily have a full set. Get a dozen "Sunkist" oranges or lemons and send for your first spoon.

Address California Fruit Growers' Exchange 34 Clark Street, Chicago, Ill.

### Keep Your Bath Room Spotlessly Clean with Gold Dust

Soap will not do the work properly because soap only cleans the surface—it does not dig deep after germs and hidden impurities like GOLD DUST—the greatest of all sanitary cleansers.

To keep bath tub and lavatory shiny-white and inviting—To keep metal pipes, fixtures and taps brightly burnished—To purify closet bowl—To keep tiling and woodwork spotless and beautiful—Simply add a heaping teaspoonful of GOLD DUST to a pail of water. You will be surprised at the ease with which it does the work. GOLD DUST sterilizes as well as cleans—and saves you one-half the labor.

Made by THE N. K. FAIRBANK COMPANY, Makers of FAIRY SOAP, the oval cake.
