The subject was referred to the City attorney, who will investigate the legality of such procedure.

ity of such procedure. After several months of effort local offi-cers have falled in their quest for con-victing evidence, and detectives recently brought to Dayton have met similar dis-appointment. One place in particular, it is charged, is a haunt for bootleggers and the proprietor is under surveillance. Several men have told of securing liquor at the place but none will take the stand against the proprietor.

My limbs and body were swoften one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering.
