PATIENT IS BEATEN

Nurse Her Assailant, Swears Seattle Woman.

BRUTAL ASSAULT CHARGED

Aged Victim of Alleged Pounding Declares Body Black and Blue. Head of Institution Aroused by Ringing of Bell.

SEATTLE, Wash., April 14.—(Special.)—Alleging that she was brutally beaten by Mrs. Elizabeth Day, superintendent of Pacific Hospital, while she was a patient in that institution, Mrs. Harriet A. Stockey, 75 years old, today swore out a warrant for the arrest of Mrs. Day on a charge of assault in the third degree.

Mrs. Stockey said she had been a patient at the Pacific Hospital two weeks, last Monday, feeling extremely ill, she rang the bell for a nurse, intending to have her call the doctor. No response being made to her first ring, she continued to call.

Finally, she said, Mrs. Day entered the room, snatched the bell from her hand, and told her to remain quiet. "Then when they went out of the room, I threw the bell at the door and also a teapot, seeking to attract their

attention to my needs," said Mrs. Stockey, in her statement at the Prosecuting Attorney's Office.

This so enraged Mrs. Day that she came back to the room accompanied by a nurse and the two pounced on me as I lay helpless on the bed. While the nurse held me, Mrs. Day beat me with her fists and also struck me with some weapon that I could not see. My body is black and blue.

Dr. Wittig, Mrs. Stockey's attending physician, said that she was suffering from heart disease and might die at any moment. He acknowledged the finding of black and blue marks on the body.

STORM WRECKS AEROPLANE

Biggest Air Craft Falls Into German Lake, None Hurt.

PLAU, Germany, April 14.—Major von Parosval's new aeroplane, the largest yet constructed, which early this month underwent successful preliminary trials here, was caught in a violent wind while flying over Lake Plau today, and, turning turtle, fell into the water.

Engineers Blochmann and Hoff escaped unhurt. They dropped with the machine but succeeded in freeing themselves from the wreckage and were picked up by a passing craft. Major von Parosval's invention is a monoplane with a four-cylinder motor of 120 horsepower. It carries 170 pounds of petrol and was expected to remain in the air three hours. The breadth of the plane is 42 1/2 feet and the length of the machine is 45 feet. It is provided with torpedo-like floats for descending on water, and with wheels for a descent on land.

Aeronaut Falls, May Die.

BERLIN, April 14.—Aeronaut Lorenz became entangled in the guide ropes of the military dirigible balloon M-4 as it

was leaving the ground today, and was carried high above the field, where he clung for a moment, and then fell. He was probably fatally injured. The accident occurred on Teal Field and was witnessed by 400 members of the Prussian Parliament, who had been invited by the Minister of War to see the airship maneuvers.

Phonograph to Aid Passion Play.

SOUTH NORWALK, Conn., April 14.—The scenes of the passion play at Oberammergau will be embellished and made more realistic this year with the help of mammoth phonographic records which have been prepared here this winter by Professor Herman Schultze. In a shack on the outermost point of Nauvoe Island, a bleak spot in Long Island Sound, where the waves pound terribly on a rocky beach, the professor has lived during the winter, and when the storms were raging has been securing records to be used in the play. The records were taken on a special machine, the largest ever constructed.

Detective Uncerth Murder Plan.

CHICAGO, April 14.—"I promise to pay you \$50 for medicine that will kill my husband. I will not pay you the money if it kills him right away. I don't want him to die now. I'm afraid." Posing as a physician, Detective Joseph Vana claims to have obtained the foregoing from Mrs. Mary Kaprina, of Melrose Park. The woman was arrested and, according to the police, confessing today that she had entered into a plot to rid of her husband, a steelworker, in order that she might marry Frank Demovitch, a young man boarding at her home.

The National Congress of Mothers since its last meeting in 1908 has more than 100,000 members. The next congress will be held in Denver during the second week in June and there will be more than 1000 members present. They will represent organizations in 52 states, in 1908 there were organizations in only 18 states.
