# TAFT, AT BUFFALO, TALKS INCOME TAX

Confident Hughes Will Decide Right in Speech Made to Ad Men.

#### KNOX USES OPPORTUNITY

Secretary Complains at "Some" Newspapers Diluting News in Attempt to Misrepresent-Gold Pen Presented to President.

BUFFALO, N. Y., May 1 .- Presiden Taft and Secretary of State Knox were suesis of honor at the banquet held in ratification of the two leading commer-cial organizations of Buffalo-the Cham-ber of Commerce and the Manufacturers' Club. Thomas Penney, ex-District Attor-ney of Erie County, acted as toastmaster. Mr. Knox devoted his time to explana-tion of recent reforms in the diplomatic tion of recent reforms in the diplomatic and consular services. He declared anew that diplomacy and trade must go hand-in-hand and that it was a misconception to construe it otherwise.

The President devoted the greater part

of his speech to purely local matters.

Conservation Touched On. Mr. Taft spoke of the conservation bills

Mr. Taft spoke of the conservation bills in Congress, and especially the one confirming the right of the executive to withdraw the lands from public entry. "There has been objection to this," he said, "as a reflection upon those officials who already have exercised the power, in suggesting that they usurped the power of Congress. If the Supreme Court should decide that this power does not exist we decide that this power does not exist, we would have a perfect mess. There are people who say the power does not exist and are trying to secure title to land on that ground. The fact they are willing to face lawsuits shows the course they have long pursued and are preparing to fight."

Pile President said the subject of conservation was rather abstruse. "But," he added, "there are a great many people in favor of conservation, no matter what it means."

Tribute Paid to Hughes. Mr. Taft paid a tribute to Governor

Mr. Taft paid a tribute to Governor Hughes.

"As I look on this New York audience," he said. If feel like applogizing on the one hand, and felicitating the country on the other, in taking from you a great Governor to make a great Justice of the Supreme Court of the United States.

"Even though I do not agree with Governor Hughes in his construction.

"Even though I do not agree with Governor Hughes in his construction of the income tax, and hope that your Legislature will adopt that amendment, I shall still be willing and glad if it does, to submit its construction to Mr. Justice Hughes in full confidence that without regard to what view he may have taken before, he will give again his judicial quality to the solution of that problem. You know and I know that he is that kind of man, who can that problem. You know and I know that he is that kind of man, who can, when he takes the oath of office, de-cide every question without fear or favor as faith gives him power to see

#### Both Guests at Club.

As guests of the Buffalo Ad Club at Iuncheon today, Mr. Taft and Secretary Knox made two little impromptu speeches, which won them enthusias-tic applaudits. At the Ad Club luncheon the President was presented with a gold fountain pen. Referring to the Democratic National Chairman, Norman E. Mack, and to W. J. Conners, he remarked that if their expectations of a Democratic Congress were realized he might have to use the pen more frequently to explain why he did not sign acts than in signing them. The committee which waited on the Portland Railway, Light & Power Company announced that the company cannot possibly lay the tracks on Killingsworth avenue before next year. After this announcement the club decided to delay the hard surfacing of the street until the railroad company is ready. The street will be graded and cement walks and sewer, gas and water mains will be laid. The Pacific Telephone Company will put its wires in the ground soon. The club decided that the best place for the new schoolhouse will be between East Fifteenth and East Nineteenth streets, somewhere between Killingsworth and Ainsteenth and East Nineteenth streets, some-where between Killingsworth and Ains-worth avenues. The club will protest against a Twenty-fifth and Alnsworth location. Meetings of the club are held every Wednesday, at 8 P. M.

#### TWO SHOPLIFTERS CAUGHT Man and Wife Taken, With Goods on Person; Attack Officers.

Two shoplifters, giving the names of Edward A. Lamberson and wife, were detected in the act of pilfering the counters of women's wearing apparel and jewelry in the department store of Olds, Wortman & King by Detective Sergeants Day and Hyde last night. The couple was held without ball. A quantity of the stolen plunder was subsequently identhed by the department store employes. Among the stolen articles was a combination suit of women's underwear, an HS ostrich plume and a \$25 picture hat which the woman annexed and had placed on her head.

The capture of the shoplifters occurred after the detectives had trailed the couple through several Washington-street depart-ment stores. Lamberson was caught in the act of hiding the suit of underwear under his coat while his wife had attracted the attention of a clerk at another counter. When the detectives accested them Mrs. Lamberson made an actempt to escape. Both resisted and struggled for freedom. In his efforts to releas gled for freedom, in his efforts to release the hold of Officer Day, Lamberson turned on his captor and struck him a stunning blow over the right eye with an umbrella he carried. near the corpse, suggesting the suicide theory. The bottle was tightly corked, however.

In the pockets of the clothing was ures for April 1992. ures for April, 1969, Show the City's Prosperity.

General increase in the volume of business in Portland is shown by a comparison of figures for April of this year with the figures for April, 1202.

Bank clearings, building permits, real estate transfers, grain shipments, postal receipts show a healthy increase. The principal advance is shown in the bank clearings, where the increase is 27.8 per cent. Building permits, with an increase of 22 per cent over April, 1909, have set a new high mark for Portland by passing the \$2,000,000 mark. Real estate transfers show an increase of 16 1-2 per cent. Grain shipments are so great that they will undoubtedly place Portland in the second place for the entire country for the nine months of the cereal year ending on April 30. The record is significant in that in April, 1909, there were no wheat shipments from Portland. Postal receipts show a net gain of 18 per cent over April, 1909.

The bank clearings which showed the largest increase, or 37 per cent, amounted to \$46,275,083.28, as compared

of 21 per cent over the corresponding

four months of 1909.

That an even higher record will be attained this month is evident from the fact that there is already on hand in the office of the building inspector plans aggregating in valuations \$1,010,000 000. The largest of these are the Selling building for \$400,000, the city crematory for \$100,000 and the Baker Theater for \$100,000, while seven other sets of plans make up the remaining \$410,000.

Real Estate transfers are particularly interesting in that to date for the year an increase is shown of 33 per cent, while for the month just passed the increase is 16 per cent over the corresponding period of last year. Transfers of property last month numbered 2017, as opposed to 1675 in April, 1908. and the valuations placed on the prop-erties, as recorded in the deeds, amounted to \$2,975,068 as compared with \$2,558,032 for the same month last year. The aggregate for the opening four months of this year is \$13,119,-941, and \$9,884,768 for the first third

Steadlly keeping pace with the prog ress which has marked each of the past several montas, the Portland Postoffice will show a net gain of at least 1½ per cent for April. The total receipts will approximate \$71,000, as estimated by Cashier Hursch tast night.

In January, 1910, Portland gained 23 per cent; February, 20 per cent, and March, 22 per cent. For the same months the Postoffice official figures show that Seattle gained 17sper cent, 3 per cent and 25 per cent, giving Port-land the advantage in totals of 20 per cent for the same period of time.

Wheat shipments from Portland for April amounted to 478,549 bushels as compared with not a sackful of wheat shipped the preceding April Lumber exports amount to 7,057,578 Lumber exports amount to 7,057,578 feet sent to foreign ports, this being the 'argest amount shipped in the present calendar year. Coastwise ship-ments of lumber amounted to 12,706.-000 feet, as compared with about 10.-000,000 feet for April, 1909. No flour was shipped this year, the great pro-ducing mill being shut down while rebuilding. Last year the shipments of flour amounted to 42,050 barrels.

## FIVE TESTS TO SATISFY HIM

A letter from D. M. Adamson, Pleas ant Grove, Utah, is interesting, as it shows that his physician could hardly believe his eyes and made five tests on five succeeding days, every one of them showing a complete disappearance of the albumen. Adamson enclosed us the physician's reports, with the statement that he was taken down with Bright's that he was taken down with Bright's in January. Distressing heart involvement caused him to be short of breath, and to use his own expression, he thought he "was near the end." He then went to a hospital. He then went home and put himself on Fulton's Benel Company and has taken it ever Renal Compound and has taken it ever since. His physician made tests for albumen on Oct. 20-21-22-23 and 25. Such cases of debility cannot be completely cured by modicine not designed to eradicate catarrh. In every case where our remedy falls to give entire satisfaction we will not charge a cent for the medicine employed during the trial. Now, surely no one should hesitate to believe us or to put our claim to a practical test under such conditions. We will take all the risk; no one else can lose anything by the transaction.

We make these statements and this

We make these statements and this offer because we know and have time and again proved that Rexall Mucu-Tone rarely falls to do as we claim. It is not a cure-all prescribed to cure every discase that flesh is helr to. It is intended for one purpose, i. e., to cure catarrh by assafiling the diseased condition in a reasonable, scientific way, which is to employ agents that have been found to have the tonic and alterative power to correct faulty met-abolism (tissue change) and to stimu-late and help nature overcome the cause or causes of catarrh. This being done, appetite increases, nutrition im-proves, weight is gained, comfort of body is attained and life's work taken

only is attained and life's work taken up with the zest natural to the perfective healthy individual.

We want you to try Rexall Mucu-Tone. Follow directions and take it regularly and consistently for a reasonable length of time. Then, if you are not satisfied, come back and tell us and the money you paid for the treatment will be returned without and treatment.
