After this, E. E. Lytle took \$25,000 worth of stock at \$35,000, giving his note. In the meantime, the bank had pur-chased Puget Sound Home Telephone bands, receiving a benus of \$100 worth of stock for every \$100 worth of bands.

"These directors, adepts at frenzied finance," said Mr. Flizgerald, "reached the acme of their high finance on De-cember 15, when they conceived the idea of divesting themselves of all these notes without paying for them. without paying for them. "The notes were charged up on the books to loans and discounts. It appeared from the books that the bank had loaned this money to the directors, and had taken their notes. This defendant wrote those notes off the books as though they had been paid and to balance the books wrote in telephone stock which already belonged to the bank." The only possible way to cure Contagious Blood poison is to remove the cause by purifying the blood. This is just what S. S. S. does; and it is the only medicine that absolutely and thoroughly cleanses the circulation of every particle of the germs and virus of the disease. Mercury, Potash, and other stro ng minerals are often used in the hope that such powerful treatment will kill the germs, but this can not be done, and when the mineral medicines are left off the trouble always returns with its aggravating symptoms of ulcerated mouth and throat, skin eruptions, falling hair, yellow skin splotches, swollen glands, and often running sores. The ability of S. S. S. to cure Contagious Blood Poison comes from its unfalling blood-purifying properties. It goes into the circulation and removes every trace of the infection, makes the blood rich and healthy, and leaves no dregs of the virus to break out later on. S. S. S. does not contain a particle of mineral in any form, but is made entirely of roots, herbs and barks each of which has a direct and specific action in cleansing the blood. In addition it contains the extracts of certain botanical herbs which make it the finest of all tonics, which is a necessary quality for a medicine in curing Contagious Blood Poison. Home Treatment book, containing much valuable information and instruction to be found nowhere else, will be sent sealed and post paid, free to all who write and request it.
