SEATTLE COUNT IS NOT OVER 215,000

Supervisor Says Anything in Excess of That Number Will Be Padding.

PROOF AGAINST ARGUMENT

Unchanged Throughout Work That Queen City Has Few Over 200,000 People-Enumerators Have Finished.

SEATTLE, Wash., May 4—(Special.)—With the census and the checking up on it practically complete today, it is admitted that not more than 215,000 people will be counted as the population of Seattle.

While Supervisor Hill refuses to make any statement for publication regarding the population of Seattle that will be shown by the seaton of shown by the census taken under his di-rection, he is known to have stated sev-eral times recently that it would not be over 25,000, and that, if it did go over that number, he would be inclined to be-lieve that some mistake had been made,

lieve that some mistake had been made, that a duplication or over-count had occurred semewhere.

From the day that he and his enumerators began taking the census, Mr. Hill has stated that he thought that there were few, if any, more than 200,000 people in this city. Despite all arguments and claims to the contrary, he has held to this opinion right along and has been heard several times recently to express the opinion that he would be discredited as an honest census-taker if the count should run over 215,000.

All the enumerators will have their final reports by tomorrow and the results will

VISITING NURSES ARE BUSY

Association Supplies Care and Pure Milk to Poor Sick.

During the past month 370 visits have been made by nurses of the Visiting Nurse Association in Portland. Of this number 184 have been made to tubercular cases, the remainder to tubercular cases, the remainder coming under the regular work of the association. To 44 patients suffering from tuberculosis 570 quarts of milk have been furnished and, in addition to this, 100 dozen fresh eggs have been

donated.

At the annual meeting of the board of directors the following officers were elected: President, Mrs. Millie Trumball (re-elected): first vice-president, Mrs. W. B. Ayer: second vice-president, Mrs. R. J. Marsh; Secretary to be chosen at next meeting; assistant secretary Mrs. Louis Tarpley and treas-

retary, Mrs. Louis Tarpley, and treas-urer, Mrs. A. F. Biles (re-elected). There are four nurses now actively engaged in the work, but the need of a special maternity nurse and of a nurse to care for babies was discussed. A folding screen for the use of the association in its rooms at the Medical building is now needed. Anyone desiring to donate such a screen is requested to notify one of the officers or the nurse in charge.

He said that the man was called out of the store by the policeman and placed under arrest, without reason. He admitted to the police that Vale was paid \$18 a week for the simple duties of sweeping out and arranging the stock. The police believe that the man is kept about the place to start the bidding and keep the story when "live ones" are front of it going when "live ones" are front of the counter. Ball was fixed at \$50 and Vale will have a hearing today.

MAKE FINAL FENDER TEST

Decision May Be Reached After Today's Experiment.

The special fender committee of the City Council has ordered a final test to-day at 10 o'clock of the Kemp fender, the wheel guard of the Portland Railway.

Death Comes as Man W whieel guard of the Fortland Railway, Light & Power Company and the Nelson sutomatic atr-controlled fender. After today's demonstration the committee will hold a meeting to recommend one of these devices for adoption by the Council. It is thought a final decision will be reached at the next meeting of that body. The special Council committee has been conducting these fender tests for the past 16 months, during which more than 49 devices have been tried. Of the entire lot the three above named have made the best showing. The test will be held at Twenty-sixth and Upshur streets.

FAIR WEATHER IN SIGHT

OFFICIAL FORECAST PREDICTS BASEBALL CHANCE TODAY.

The mid-year institute of Mulinomah Drizzle Rain Continues to Fall Over Large Area of Pacific Northwest-River Falls.

Fair weather is in sight for Portland and vicinity. The official forecast for the district is for showers today, fol-lowed by fair and warmer weather. The barometer has risen during the past 24 hours and temperatures will be higher. Cooler weather during the past 48 hours has caused the river to fall slightly. At Portland the Wilamette fell .3 of a foot, the reading yesterday being 16.2 feet. The Snake River is falling at Lewiston and the Columbia is slowly receding at all points. A few days' warm weather, however, will start things moving on both the Snake and Upper Columbia.

While Portland again enjoyed a drizzling rainfall yesterday, much of the same condition prevailed over the major por-tion of the entire State of Oregon, Light tion of the entire State of Oregon, Light rain also is reported to have failen in Southern Idaho, Northern Nevada and Northern Utah. Across the Cascades and over in Northeastern Washington and in Southeastern Idaho the temperature has fallen, while in the interior of Northern Celifornia it is reported slightly warmer. It looks like baseball weather in Portland this afternoon, for the weather man have promised showers for this district VANCOUVER, B. C., May 4.—(Special.)

GILLIAM WILL HAVE BIG CROP

Generous Rainfalls Improving Prospects Fully 100 Per Cent.

CONDON, Or., May 4-(Special.)-Pros pects for a record grain crop in Gilliam County this year, already promising, were improved 100 per cent by the generous rain which visited this section of the state yesterday. The rainfall came just at the opportune time to prove of incalculable benefit to the Spring-sown grain, many of the big wheatgrowers having just finished planting. Fall-sown grain, of which the acreage this year is not up to average because of the back-ward season, was beginning to feel the need of rain and was also benefited.

need of rain and was also benefited.

The ground is now thoroughly supplied with moisture, more so than for 10 years, and with the usual June rains, which seldom fail, only an onexpected calamity can defeat the harvesting of a record-breaking grain crop here this year. Some farmers are optimistic enough to declare that the June rains can be dispensed with by reason of the abundance of moisture now in the ground, without entailing any danger to the crop. Througout the county grain of all kinds is farther advanced now than it was in June last year. This means than it was in June last year. This means that the farmers will begin harvesting

Thin, Weak Blood During Development May Easily Cause a Life of Misery and Suffering Which Can Be Avoided by the Timely Use of Dr. Williams' Pink Pills

At no time in her life does a woman stand in greater need of pure red blood. and the strength which it alone can give her, than when she is developing into womanhood. It is then that any inherited tendency to anaemia, chlorosis or green sickness, needs only the slight-est encouragement to rapidly develop. This it too often receives for not girls can take the proper care of their health. Many are confined within doors, are overworked, do not have enough nourishing food, and are depressed by worry and cares. All of these conditions quickly impoverish the blood and are among the most common exciting causes of sickness in growing

girls.

If at any time during her development a girl finds that her strength is falling and she is becoming pale and nervous, has no ambition and is languid, it is a certain sign that her blood is failing to meet the demands made upon it, because it is impure and thin.

To insure perfect development and health, steps must be taken at once to strengthen the system by wallding and strengthen the system by bullding up and purifying the blood. Dr. Williams' Pink Pills do this so well and have cured so many cases of anaemia and chlorosis that they may justly be called a specific for these common diseases of
