South Portland Wants Cleanup.—In a letter to Chief of Police Cox yesterday the South Portland Boosters' Club, through Secretary Burt Jones, solicited the aid of the police department in keeping the southern end of the city in a cleaner condition. Specific instances of streets which were allowed to remain in a dirty condition were named in the letter, and a request for assistance on the part of the police in doing away with such conditions was made. Patrolman Rudolph, to whom the request was referred, reported to Chief of Police Cox yesterday that he has been doing everything possible to make the people comply with the law with regard to clean sidewalks and streets. He said that it was almost impossible to secure good results, however, on account of the persistent opposition which he met with all over South Portland. "In the back yards of some of these boosters even there is enough dirt and filth to make a whole regiment of soldiers sick," said Patrolman Rudolph in his report. A, police order was issued some time ago that all violators of the city ordinance with regard to dirty sidewalks were to be arrested and punished.

#### SICHEL AFTER APPEARANCE

New York Style of Headgear Takes Eye of Commissioner, So "Why Not Here in Portland?" He Says-Decision This Week.

Will the time-honored helmet worn by the police of Portland since the de-partment was first organized be changed for a military cap? Sig. Sichel, chairman of the Port-iand Board of Police Commissioners, says the substitution should be made, and, to consider this matter, a meet-ing of the commissioners will be called some time this week.

Some of the local guardians of the peace are firmly opposed to the change, while others are in sympathy with the agitation begun by Mr. Sichel.

Certain of the local policemen are up in arms, to as great an extent as they dare, over the proposed change. One old-timer who has walked a beat on the recond night relief for many years, delivered himself thus:

"Caps? Huh! Water down your neck all the time, Tramp around all night with soaking wet clothes. Fine. Not for me May be all right in Nor.

Not for me. May be all right in New York, where it doesn't rain all Win-ter. Out here a 'copper' has to have fins and feathers in the Winter time. No caps in mine." No caps in mine

No caps in mine."

This sentiment is echoed by other officers, also. It is said there are some, however, who are in favor of the change, believing caps will add much to the appearance of the men on drill.

Mr. Sichel said a waterproof covering for the caps had been devised for wet weather, and according to him, they are more of a protection than the helmets when it rains.

PORTLAND LODGE ANXIOUS TO GET 1912 CONVENTION.

That was all.

Isis has sold the National Interact, on Seventh near Washington, to the People's Amusement Company, the local company, the latter concern taking possession yesterday. The new owners will immediately close the house for a few days and will at once refurnish, redecorate and rename the theater.

The theater will be reopened next Wednesday. Its name will be the Odeon. The National Theater has had a peculiar career. It was first opened to house the Cameraphone, the so-called singing and talking pictures. It proved a failure and since then has gone through every possible change of fortune, always using the Independent pictures.
