Johnson has not been weighed sinc he has taken up his quarters at the Seal Rock House, but judges for him-self that he would tip the beam at 226 pounds. He does not look to be up to that weight by any means, judging the man as he stands, and it is quite likely that he will be surprised when he actually gets on the scales.

"Personally, I would be glad not to commence boxing for a couple of weeks," said Johnson, "for I ought to best my condition, but the public ds it and I will show the people lust what is my condition.

The use of such a room for cooling is only another evidence of the extreme care used to prevent any impurities from entering into the beverage.

To make sure that no dust or dirt falls into the beer, the air entering the room is taken from 100 feet above the ground.

Even if other brewers were as careful as we, they couldn't make quite as good beer, for
