We are catering to you. We care not about the great amount of money you think you ought to have. That isn't the question. But if you are thinking of leaving the city; thinking of becoming your own boss; thinking of living where you and your wife can educate your children to be producers as well as consumers; thinking of a simple, contented home, which will eventually make you; independent in your later days, we are offering you an opportunity in PRICES and TERMS that you may purchase irrigated lands in the great fruit belt of the Lower Yakima and Columbia. This opportunity, like other opportunities of this great valley, will soon leave you, never to return.

MONTAVILLA MADE Health Officer Says Parents Must Keep Scarlet Fever Quarantine.

THREAT TO ISOLATE.

CASES ARE MILD IN TYPE

Care Enjoined, Lest Malignant Forn Develop-Dr. Wheeler Says He

May Stop Streetcars and

Arrest Lawbreakers.

Because of the prevalence of mfld cases of scarlet fever in the Montavilla school district and because of a disposition said

to have been manifested by parents to disregard quarantine measures, Dr. C. H. Wheeler, City Health Officer, threatens to quarantine that entire socion. It was reported yesterday that there were many mild cases—so mild that

neither the children nor their parents knew what they were until a school in-spector had caused a diagnosis to be made by a representative of the Board of Health. Unwillingness to observe

quarantine even after attention had been called to the facts, however, is the chief cause of the health officer's ire. "The situation in the Montavilla dis-trict is a repetition of difficulties ex-

perienced with newly-annexed territory," said Dr. Wheeler, yesterday, "Residents of the outlying districts become accus-tomed to do as they please, and when they become a part of the city, do not

want to obey regulations or be told what to do. Children with mild cases of scar-let fever have been attending the Monta-villa school and mingling with each other

without regard to quarantine measures. It would do no good to close the school, for the children would mingle just the same. When they are in school we can

watch them and when they are absent

Stern Measures Threatened.

"The parents will not call a doctor, and when we get the children they laugh and say nothing is the matter. I have talked to those people all I propose to, and unless they pay strict attention to quarantine regulations I shall get out warrants of arrest for those caught breaking the law, and if necessary close up their streetcar line and shut off that whole section of the city and everybody in it from the outside world. "It is true that the cases have been of

"It is true that the cases have been of the mildest form, but there is no know-ing when a new case might develop into

a malignant type, and then the situation would be serious. In all parts of the city, and particularly on Twenty-third street, where the four deaths occurred, the situation is well in hand.

the situation is well in hand. "There has been more of a scare over scarlet fever than an epidemic. About 0 cases have been reported during the last three months. Had it not been for the four deaths in a district where the lisease assumed a malignant form, from some unknown cause, I doubt if there would have been any scare. I have tried to find out the cause of the malignant form on Twenty-third street, but the only ceason that seems apparent is that all

reason that seems apparent is that all the streets in that territory are form up it is possible the stirring up of the ground had something to do with it. At

iny rate, contractors should not be al-lowed to tear up miles of streets at a time and leave them in an impassable and probably unsanitary condition for a nonth or six weeks.

Parents Can Help.

in hand, and, with the assistance of parents, we will be able soon to stamp

out the disease. "The situation again brings out the

need for a municipal quarantine hospital

contagious diseases.

believe the situation is now well

St. Vincent's

look them up to find out why they

Wheeler, Superintendent Rigier decided not to close the schools now, but each principal and teacher will keep a sharp watch on all children, and when any be-come fil the case will be immediately re-ported to the heath officer. It will be hwestigated and if the case proves to be scarlet fever the child will be sent home and quarantined. Although assurances are held out by the Board of Health that there need be no apprehension of a scarlet fever epi-demic at this time, that the situation is well in hand and that there probably will be no spread of the disease. There has been an exodus of parents and children from Portland to the beach. Although the disease hus been mostly in private schools, which are now closed, many children have been taken out of the public schools and sent to the country. In some cases physicians have advised parents to take their children out of school for a week or 10 days until the scare blows over, but a great many more have needed up professional suggestion to leave the scene of possible danger.

QUARANTINE IS ANTIQUATED

Barracks Hospitals Are Solution, in

View of Dr. Baar. That Portland's system of quarantine

That Porliand's system of quarantine and treatment of contagious diseases is wholly inadequate, has not kept pace with medical progress, is out of date and nothing short of being a disgrace to a civilized community, is the declara-tion of Dr. Gustav baar. The only solution of the problem, according to Dr. Baar, is a contagious disease hos-pital, built on the barracks plan, so that each disease may be treated seppital, built on the barracks plan, so that each disease may be treated sep-arately. He advocates the construction of a municipal institution where the poor as well as the rich may receive the best medical attention without en-dangering the lives of immediate mem-bers of their families. "I am in favor of a municipal hos-pital for contagious diseases," said Dr.

cash on paper by the use of the mysteri-ous brown envelopes makes it appear that the bank was very hard pressed pital for contagious diseases," said Dr. Baar. "If you will consider that it is illusionary only to think of quarantine

as it is practiced in our city, you will see the necessity for it. Take, for in-stance, three or four grown-up children

Morris testified that the bank's cash was very low on August 2%, and that in order to increase it, he made an arbi-trary credit to loans and discounts of \$25,000, and placing a slip marked "Credit loans and discounts, \$25,000," in a brown envelope, marked the envelope "Cash item," and carried it until December 15, as eash. He did the same thing again on August 27, he said. When he withdrew the who support their mother. One is taken sick with measles or scarletina. You have to quarantine the whole house, preventing the children from earning their living and perhaps putting them back financially for many months. Sup-pose there is a family of children and one of them is taken with the measles or scarletina, and you have to quaran-time the whole family, keeping all the children out of school for maybe six August 27, he said. When he withdrew the envelopes, December 15, he simply re-moved the slips, he said, there being no cash in the envelopes. weeks and perhaps causing some of them to lose a whole term. "The present facilities for isolating

cash in the envelopes. He explained the payment of the \$75,090 worth of Moore and Morris notes with Puget Sound Home Telephone Company stock, alleged by the state to have been the property of the bank, by saying that on October 5, 1906, the bank purchased \$200,000 worth of Puget Sound Telephone bonds at par, receiving a bonus of stock contagious diseases are, to say the least, inidequate, if not positively harmful. While the St. Vincent's Sanitorium does everything in its power to accommodate those with contagious cases many times sick children are rebonds at par, receiving a bonus of stock cases many times such children are re-fused because there is no room. Realize that in a house crowded into two floors there are 40 beds, taking care promis-ciously of cases of scarletina, measles, diphtheria and meninghts, and you will realize the situation. There ought to be four or five different houses on four or does acres of scarb houses. to the same amount.

Another Block Bought.

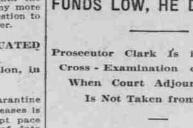

or five acres of ground, each house taking care of one disease. This is the barracks system practiced in every civlized country nowadays. The cost of such barracks would not exceed \$35,000 and the rich as well as the poor would get excellent service and not endanger the measles child with conditions of diphtheria, and so forth. It happened here two years ago that a child who was sick with measles died from diphtheria which it contracted while in been given in payment of the capital stock of the bank. Three motions to take the case from

"The methods of preventing the dis-semination of infectious diseases are simple ones, but they cannot and will quarantine system beneath which there is much antiquated stupidity."

MAN IS KILLED BY CAR U. R. Thurston, Milwright, Is Run

### Down by Oregon Electric.

Stepping out from behind a woodpile at Stepping out twater and Montgomery the corner of Water and Montgomery streets yesterday morning about 8 o'clock to be run down and killed by an Oregon Electric car, was the fate of U. R.

W. Cooper Morris was on the witness stand in his own behalf in Judge Gantenbein's department of the Circuit Court yesterday afternoon, and made an effort to unravel the tangled skein of the Oregon Trust & Savings Bank's affairs. His examination by M. J. Gordon, for the defense, occupied only a half hour, and Special Prosecutor A. E. Clark was in the midst of the cross-examination when the midst of the cross-examination when time for adjournment came last night. Morris' explanation of the manner in which he arbitrarily increased the bank's

for money, and perhaps insolvent, long before it closed its doors.

Cash Low, Says Morris.

Another block of stock and bonds of the same amount was purchased on De-cember 11, 1905, he said, after which Louis J. Wilde, W. H. Moore and Morris en-J. Wilde, W. H. Moore and Morris en-tered into a secret agreement by which half the proceeds from the sale of the stock was to be divided, half to Moore and Morris, and half to Wilde. This would give Moore and Morris each an eighth, and Wilde a quarter of the total net proceeds. It was this stock, accord-ing to Morris, which he and Moore used to write off their notes. The notes had been given in payment of the constant

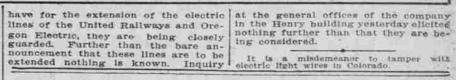

Three motions to take the case from the jury were denied by Judge Ganten-bein yesterday morning. One was based on the grand jury's statement in the in-dictment that a full description of the notes could not be given, because un-known to the grand jury. Another was on the ground that the state had not said on which charge of embezzlement the indictment stands, whether of money or of notes, on the assumption there are

or of notes, on the assumption there are two charges. One Charge, Says Clark,

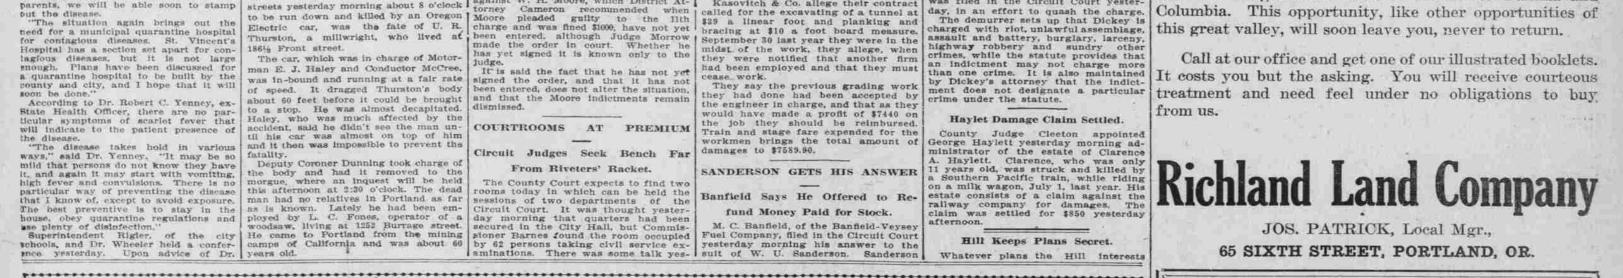

Attorney Clark, for the state, main-tains that there is but one charge. There was also a motion for a directed ver-

demands that a farm in Canyon County, Idaho, which he traded for 150 shares of stock in the company, be restored to him, as well as cash he paid in ad-dition. Banfield denies having misrep-resented the value of the stock and t..e condition of the company

# MAIN 2002, A 2002

#### REPORT OF STATE EXAMINER SHOWS BANKS IN OREGON TO BE IN VERY PROSPEROUS CONDITION.

SALEM, Or. May 8.-(Special)-The quarterly report of James Steel, bank examiner, for the period beginning January 31, 1910, and ending March 29, 1910, shows the banks of the state to be in a very prosperous condition. There has been an increase of four in the number of state, savings, private and foreign banks, and an increase in the resources of this class of banks of \$2,457,799.83. There are two new National banks, and an increase in resources of \$9,985,183.24. The report follows:

	State, Savings, Private and Foreign Banks,				National Banks.				Combined figures of all the Banks in the State.

## FREE EXCURSIONS O MADRA

Call on us for full particulars.

We are the only agents selling inside business and residence lots in Madras. Like all good things, there are many additions.

Inside residence lot \$150 to \$300. Central business lot \$400 to \$800.

There will be such a rush into Central Oregon it is becoming a problem how to care for the people. That is why we want you to go there now. We want the Oregonians to have first opportunities; it is their right if they will act now.

The Deschutes Valley in Central Oregon will populate so quickly, and MADRAS, its principal city, will grow so rapidly that many Oregonians will wake up a year later and wonder why they passed up the best investment and did not secure a business lot in Madras while it was cheap.

Prices will go up again soon.

CUT OUT THIS COUPON AND MAIL TO US.
