

ILLINOIS LIQUOR FIGHT IN EARNEST

Prohibition Party Is Out for Making State Dry at One Sweep.

WILL STAVE OFF BREWERS

Liquor-Makers and Dealers of Missouri Planning to Invade Sucker State if Missouri Goes Dry at Election This Fall.

DECATUR, Ill., May 10.—(Special.)—Following a bitter fight over the position Prohibitionists should take in Illinois, the State Prohibition Conference today declared for state-wide prohibition in preference to any other plan of action.

To the drafting of a resolution thus worded, little opposition was offered. Originally, the resolution declared in favor of state-wide prohibition "as opposed" to any other plan. That form was fought by the friends of local option, as was a proposal to petition the Legislature for a state-wide prohibition statute.

A committee of 25 was named to draw up the best plan possible for securing state-wide prohibition and to secure the support of men who stand for that policy. State Chairman Wilson of the Prohibition party, in presenting his plan to the committee, declared that liquor-makers, dealers and brewers of other states were getting ready to come into Illinois.

A big St. Louis brewing company, he said, had threatened to move into this state if Missouri went dry next Fall. He declared that Illinois did not want that brewing company that it had too many breweries now.

Chairman Wilson urged a movement for state-wide prohibition this year. He said that it was the only chance to have the country made a local option unit.

MINERS RESUME CRUSADE

Further Disorders Result in Pittsburg District of Kansas.

PITTSBURG, Kan., May 10.—Marching miners resumed their crusade against the operations of the mines in this vicinity today and some disorder resulted.

Forty-seven miners at Crobarg attempted to pull the fires in the mines there, but they were driven away by other miners seeking to prevent trouble.

At Currantville, the marchers succeeded in putting out the fires in the Breezy Hill mines and the men there were driven away.

The fires under the boilers of the coal company's water works also were drawn, and the town is without water. The marchers later started for the mines near Mulberry.

TWO MEN ARE MURDERED

Theory That They Killed Each Other in Duel Is Abandoned.

YREKA, Cal., May 10.—That a double murder had been committed, was proved today by the autopsies performed on the bodies of the two men found dead near Edgewood, whom it was at first believed had killed each other in a duel. The nature of the wounds show this to have been impossible.

There is absolutely no clue to the identity of the dead men, further than that both were loggers.

RIOTERS DESTROY MISSION

Fresh Disorders Cause New Reign of Terror at Yuen Chow, China.

CHANGSHA, China, May 10.—Word has reached here that riots have occurred at Yuen Chow, which is 225 miles from Changsha and that the inland mission has been destroyed.

No details are given as the telegraph wires have been cut.

EUGENE HALTS WOOD WALK

Council May Pass Ordinance Affecting Whole City.

EUGENE, Or., May 10.—(Special.)—The City Council last night read an ordinance prohibiting the construction of wooden sidewalks in a district that includes nearly the whole city.

CUMMINS DEFIES FOES

(Continued From First Page.)

trifling change of rate in each case, shows how cunningly the revision was arranged to deceive the public.

"In the many attempts to defend the Payne-Aldrich tariff, frequent use has been made of a very remarkably table of figures quoted by the President, at Winona, indicating duties have been increased on articles consumed in the United States to the extent of about \$5,000,000, while the 'consumption value' of articles upon which duties had been increased amounted to only about \$578,750,000 (and that most of the latter were 'luxuries' such as silks, liquors and jewelry).

Statistics Are Available.

"This would indeed tend to prove a 'most substantial downward revision.' If the figures were accurate. Fortunately, the necessary statistics to render an analysis comparatively easy are available in public documents prepared under the supervision of the finance commission. Such a document will convince anyone how deceptive and misleading this much-quoted table really is.

Senator Dooliver declared the purported decrease rates on sugar, consumed to the amount of \$300,000,000, was "too great a joke to receive serious attention, for the reduction was but five cents per 100 pounds, and in order to derive a dollar's benefit from this change, even if the trust gave it to him, the consumer would have to eat a ton of sugar."

The rates on agricultural products, the Senator said, were also cunningly revised to produce the appearance of "real and substantial downward revision," while examination shows the figures to be increased.

In further detail the Senator said: "Schedule N, sundries, is the masterpiece, however, of cunning tariff jugglery to look like real revision downward, for

here the Aldrich table claims decreased rates on consumption value \$1,719,425,000, against \$101,626,528 increased, and that the increases were on luxuries. To be sure, they overlooked the increased rates on rubber goods, the consumption of which amounts to \$20,000,000 a year."

"Included in the grand total is the item of 'bluminous coal,' amounting to \$304,384,722, of which we export seven times more than we import, and on which the remarkable reduction of 22 cents a ton was made—for the benefit only of the Atlantic seaboard manufacturers, who may thereby get their coal a little cheaper from Nova Scotia."

"There is also the reduction of 5 per cent on agricultural implements of a consumption value of \$24,622,164, which we produce more cheaply than any other Nation and supply the world. No duty is needed for protection. The production is largely in the hands of a trust and the trifling reduction of 5 per cent was merely to rob the farming community."

Free List Limited.

"A great deal of stress has been laid on the supposed enlargement of the free list, and yet the only new items on the free list of the Payne-Aldrich tariff are hides, a few semi-finished coal tar products, radium, works of art over 20 years old, miners' appliances and Brazilian nuts."

"If we keep on revising the tariff upward on finished articles, the differences between the values of importation of dutiable and free goods inevitably will increase and the average rate of duty collected will decrease, even though no new articles are put on the free list. For example, if the rates on all articles now dutiable were made absolutely prohibi-

TAFT BILL PASSES HOUSE, 200 TO 126

Good Margin for Commerce Court Especially Pleasing to President.

14 DEMOCRATS WON OVER

Physical Valuation of Roads, Taft Points Out, Is Already Within Power of Commission, Cost Being Chief Difficulty.

WASHINGTON, May 10.—Without a single dissenting Republican vote, the House today passed the railroad bill, one of the chief measures which Pres-

ers to work at once covering the city. Besides this, 100 others may offer their services. They commenced work this morning and expect to finish by Saturday, but a telegram was at once forwarded to Supervisor Hendricks at Salem asking for the consent of time. Of the statements taken one from a grocery man in East Eugene stated that out of the 31 customers he had personally interviewed 19 had not been enumerated.

DEATH RECALLS WRECK

FINANCIAL DISASTER OF '87 HIT C. J. KERSHAW HARD.

Canadian, With Fortune, Loses All in Grain; Recoups Losses and Again Suffers; Dies at Tacoma.

CHICAGO, May 10.—(Special.)—The announcement from Tacoma, Wash., of the death of C. J. Kershaw, recalls the disastrous Harper deal of 1887, which culminated with the collapse of 20 leading Board of Trade firms after Hooper had looted the Fidelity Bank of Cincinnati to the extent of several millions of dollars.

Kershaw was one of the prominent firms employed by Harper and was a heavy sufferer by his losses, going to the wall in the crash. After his failure here, Kershaw went back to Milwaukee for a few years, later going to the Pacific Coast. He was 78 years old and leaves a widow, three sons and three daughters. He retired from active business a number of years ago.

Kershaw came to Chicago from Montreal 57 years ago with about \$100,000 and was a prominent and successful grain speculator for many years. The failure of the prominent Milwaukee milling concern swept away the bulk of the first fortune, but he more than recouped it on the successful Armour-Plankinton wheat corner of 1882.

Frank J. Burley Dead.

OREGON CITY, Or., May 10.—(Special.)—Frank J. Burley, a prominent sawmill man of this county, died last night at his home at Seventh and Center streets, in this city, as the result of a severe attack of pneumonia. Death came at the end of a week's illness. Mr. Burley was a native of Pennsylvania. Moving with his parents to Randolph, Gastatus County, New York, he resided there till six years ago, when he came with his family to Oregon City. He was a member of the firm of Burley & Stafford. He is survived by his widow, and two sons, aged 19 and 15 years, of this city, and his parents, three sisters and two brothers, who reside in New York. The funeral will be held tomorrow.

Franking Inquiry Modified.

WASHINGTON, May 10.—Just before adjourning today, the Senate adopted a substitute for the resolution directing an investigation of abuses of the franking privilege, which was introduced yesterday by Senator Stone of Missouri. The substitute authorizes an investigation into the special case covered by the Stone resolution, which had reference to the circulation of pamphlet in defense of the Payne-Aldrich tariff law.

Rancher Burned Out.

MONTESSANO, Wash., May 10.—(Special.)—E. H. Luark, a rancher living across the river from Montessano, lost his house with all its contents late Sunday afternoon. The house, shed and milk-house were burned to the ground, and Mr. Luark says his loss will be fully \$1500.

FOOD FOR MEMORY

The Kind That Builds Up the Brain.

It is hard to believe that certain kinds of food will strengthen the memory, and the condition of the brain depends on the character of the food, and its power to remember and to exert itself in various ways, and a healthy brain can only be maintained by well-selected food.

Now we know that daily use of the brain uses up certain parts that are thrown out through the pores to the outer surface of the skin. This waste is natural and must be made up from food.

Grape-Nuts food was made especially to rebuild the brain and nerve centers.

An experience in Chicago will illustrate:

"I had a terrible attack of gastritis; my stomach refused everything in the way of food until I had a bowl of Grape-Nuts. It was perfectly wonderful and marvelous to see the difference—I began to improve at once."

"I weighed myself about that time and found that I had 118 pounds to my credit. I gained in weight, strength and health steadily and rapidly, and now weigh 160 pounds and am strong and in better health than ever in my life."

"I have lately had a seven months' course of instruction in vocal music, and have memorized 58 songs and most of the accompaniments besides several piano pieces. When I started in it seemed difficult to memorize one, but my memory has been growing better every day and I now find it easy to commit to memory without difficulty."

"I have taken no medicine, but my steady diet of Grape-Nuts food has given me strength, health and memory."

"Read 'The Road to Wellville,' found in pages 'There's a Reason.' Always read the above letter! A new one appears from time to time. They are genuine, true, and full of human interest."
