Be Careful, Say Doctors, of Scarlet Fever Epidemic.

NO NEW CASES REPORTED

Physicians Declare That Only Precautions to Prevent Contraction of Scarlet Germ Is to Shun Victims of Disease.

The best preventive and precautions against scarlet fever are to keep away from it. This is the unanimous opinion of leading physicians of Portland. Not one physician would say yesterday that there is a preventive of the disease. All were of the opinion that the best way not to get it is to keep as far away as possible from anyone who has it.

"There is no way that I know of to prevent the disease," said Dr. Alan Welch Smith, president of the Board of Health, "except to ayold it, keep the body clean and surrounded with sanitary conditions. body clean and surrounded with sanitary conditions. Do everything to generate vitality, so that the body will be strong. Observe quarantine regulations, and, by the way, if anybody knows of quarantines being broken, they will confer a favor on the Board of Health by notifying us, and we will see that the law is obeyed."

Dr. M. B. Marcellus said: "I know of no preventive except to keep away, and o preventive except to keep away, and

ot get exposed. Dr. F. A. Short sald: "Avoid the dis-ease, and when a child breaks out with a rash of any kind, keep it home and im-mediately summon the doctor." Dr. J. A. Pettit said: "Avoid contact with any person who has it or is peeling off. Antiseptic washes of the nose and throat may help as a precaution." Dr. R. C. Yenney said: "Keep away

from it."

Dr. Sandford Whiting said: "Keep away. Furnigate the house and keep children away from children who have or have had it."

Dr. George F. Wilson said: "There is no efficacy in any kind of drug. Keep away from the disease, and wash the throat in a mild antiseptic."

Dr. R. J. Marah said: "I know of no protection after exposure."

Scarlet fever is a germ disease, and generally enters the body through the throat or nose. The germs multiply very rapidly and have the body in their grasp within a few days. Results of the attack may affect the brain, causing meningitis; the heart, kidneys and ears Doctors now take precautions against these resultant effects, and there is less trouble from permanent affliction than i former years.
Dr. C. H. Wheeler, city health office said no new cases of malignant scarlet fever were reported yesterday, and he believes the disease is now well under

#### SINGER WILL GROW APPLES Leading Baritone of National Opera

Company Buys Orchard.

There will be an operatic colony of fruitgrowers in the Rogue River Valley before long. ## "Land of Opportunity"

This is the accepted slogan for Oregon, and according to records of sales of farm lands made in the last few years, investors and homeseekers show their faith in the prediction.

A tract of 2000 acres, located most favorably in the line of rapid development in the Willamette Valley, 30 miles east of Portland, 15 miles from Gresham, is offered for sale by the Portland Railway, Light & Power Company at a low price per acre on favorable terms.

A projected railroad line is to pass through or near this tract, a county road already furnishing means of entry and exit for vehicles, including automobiles.

In the wooded portion 22,000,000 feet of good saw timber stand ready for the woodsman's ax, and the timber at present prices would go far toward paying for the entire tract. There is a lumber mill within three miles in operation.

There are fully 900 acres of level or gently sloping farming land, available when cleared, and from 700 to 800 acres of fine grazing land now waiting the farmer or dairyman.

Two good-sized creeks, with numerous tributaries, furnish an abundance of water.

The tract will be disposed of as a whole, though a new owner could subdivide to great advantage.

For terms and full particulars call on or address Land Department, Room 623, Electric Building, Portland.
