YOUNG MAN BURNED ALIVE

Fire Also Badly Injures Two Men at Hood River.

HOOD RIVER, Or., May 18. - (Spe cial.)—Hood River experienced the most destructive fire in its history to-day, when half a block of buildings was destroyed and a young machinist named Ray Utter was burned to death. His company will put down double tracks on the street as soon as the grading is finished. It is the intention of the street railway company to bring its Rose City Park carline to East Burnside by way of Sandy boulevard and East Tenth street. While the present improvement only extends to East Twenty-eighth street, the intention of the property owners eastward is to have the same improvement ande to the city limits some time this year. cial.)-Hood River experienced

rescuing his machine.

In addition to the garage, which had just been completed, a blacksmith and machine ship, in which was located \$18,000 worth of new machinery, was burned to the ground. A nearby dwelling belonging to D. A. Turner was totally destroyed and the homes of J. B. Hunt, C. H. Vaughan and W. F. Laraway were on fire and kept from being burned with great difficulty on account of the high wind. The loss is estimated at over \$25,000, with \$4000

Utter, who was but 18 years old, lost his life through the explosion of a machine for vulcanizing tires and which caused the gasoline tank in connection with it to be set on fire. Before it could be rescued. Utter's body was almost entirely consumed.

Man in Rags Carries \$1800 in His Pockets.

Dime Handed Him by Woman Is Hurled to Middle of Street.

O not arrest the poor old man," said a kind-hearted woman last night to Sergeant Patten and Patrolman Croxford as they were about to take into custody a ragged old man who was sit-ting at the roadside at Union avenue and Going street. Giving the aged man a dime, the kind-hearted woman passed on down the street, thinking perhaps she

ad performed a charitable deed.
"Thinks I am a bum, does she," mutered the old man as he gazed after her

retreating figure.

Rising to his feet, he hurled the dime into the middle of the street and in the presence of the two officers reached into a pocket and produced a roll of green-backs amounting to \$800. "I need a dime do I?" he continued, as he dove into another pocket and produced a second roll of \$1000.

On being questioned the man said he had walked from Canada to Portland and carried his blankets on his back. "It is too expensive to pay railroad fare." he said, "and by walking and sleeping

Portland Academy Closes.

The Portland Academy was again closed yesterday after being opened one day. School inspectors found nine cases of scarlet fever among the pupils and it was decided to close the school for ten days, or until the disease is stamped out. So far this month there have been 77 cases of scarlet fever as against 141 during May. 1909. This year, however, the disease reached a malignant stage, while last year it was so light that many had it without scarcely knowing it.

Twenty-three cases of diphtheria bave been reported so far this month as been reported so far this month as against 22 during the month of May last year. No more deaths other than the two out of three cases at the Mount Tabor school, have occurred. The school has been fumigated and no new have developed.

Oregon City Takes Precautions.

OREGON CITY, May 18,-(Special.)-City Health Officer Norris has been authorized by the City Council to enter any house in Oregon City for fumigating, as a result of the epidemic of scarlet fever and kindred diseases that is prev-alent in Portland and Willamette Valley points. There is but one case of scarlet fever in Oregon City, which is very mild.

BUNCO MAN SENTENCED

YEAR IN JAIL FATE OF BAR-ROOM ROBBER.

Frank Simpson Is Convicted and Companions Will Be Tried for Vagrancy Today.

Three hundred and sixty days in the County Jall was the sentence meted out to Frank Simpson, alleged bunco and 'stick-up' man, by Judge Bennett in the Municipal Court yesterday morning. Simpson was accused of the theft of \$20 from G. Verhaegen in the Princess Hotel

last Monday night.
Charges of larceny against Fred Jones,
James Johnson and C. W. Harris, were
dismissed on motion of Assistant District Attorney Hennessy on account of lack of sufficient evidence. A charge of vagrancy was filed against them, and their cases were continued until this morning for trial.

A vigorous attempt was made yester-A vigorous attempt was made yester-day morning to have all the cases thrown out of court on account of the state-ments made by the defendants to the effect that Verhaegen, the complaining witness, was drunk on the night in ques-tion. Jones, who said he was a "hasher." testified that he met Verhaegen Monday evening in front of the Princess Hotel and the latter asked him to have a drink. He said he had never seen Verhaegen before, and it was only after consider-able persuasion that he complied with

the request.

Patrolman Hennessy told of seeing three of the defendants jostling Verhagen in the saloon, but thought at that time they were merely playing in a halftime they were merely playing in a half-drunken manner, and so he did not interfere. Verhaegen positively identified Simpson as the one who had reached in his pocket and taken the \$30 gold plece therefrom. He also identified Harris and Jones as the men who tried to induce him to play cards for money. In passing sentence, Judge Bennett said there was no doubt that the defendants were professional bunco men, waiting in the Princess Hotel bar for an opportunity to "trim" some one. Verhaegen happened to be the first victim, but he had the good sense to call an officer

had the good sense to call an officer immediately after he had been "touched."

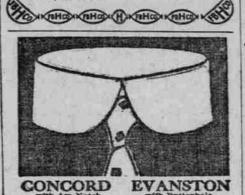

An appeal was noted, and Judge Bennett fixed Simpson's bond at \$1500, or \$1000 cash bail. Bail for the other members of the gand was fixed at \$250 each. Interesting testimony on the manner in which bunes men attempt to secure money from their victims is expected this morning when Harris, Jones and Johnson get their trial.

There have been many fine acreage tracts placed upon the Portland market, and many purchasers have received good value for the lr money and have made good profits; others could if they wished to sell. Tracts adjacent to Portland are purchased as a rule for one of three reasons: First, that they may be utilized as building sites; second, to be used as garden, fruit or orchart tracts, and third, for investment. If you will loo k over the nearby acreage subdivisions now advertised, you will find that but few of them answer all of these requirements. They are either too far out, the roads reaching them are bad, the soil is not adapted for the purposes, the water is bad, or the location is not sightly—or perhaps the price is out of reason. In our Banner Acre Tracts you will find it reached by the best roads in Oregon, it is easy of access, the soil is of the very best, the water as pure as can be had, and the location is sightly—as beautiful as any in the West—and the price! We are now selling subdivisions of from three to ten or more acres at from \$100 to \$150 per acre. It is therefore the lowest in price of all adjacent acreage, as it certainly is the best. F. B. "Land of Opportunity"

This is the accepted slogan for Oregon, and according to records of sales of farm lands made in the last few years, investors and homeseekers show their faith in the prediction.

A tract of 2000 acres, located most favorably in the line of rapid development in the Willamette Valley, 30 miles east of Portland, 15 miles from Gresham, is offered for sale by the Portland Railway, Light & Power Company at a low price per acre on favorable terms.

A projected railroad line is to pass through or near this tract, a county road already furnishing means of entry and exit for vehicles, including automobiles.

In the wooded portion 22,000,000 feet of good saw timber stand ready for the woodsman's ax, and the timber at present prices would go far toward paying for the entire tract. There is a lumber mill within three miles in operation.

There are fully 900 acres of level or gently sloping farming land, available when cleared, and from 700 to 800 acres of fine grazing land now waiting the farmer or dairyman.

Two good-sized creeks, with numerous tributaries, furnish an abundance of water.

The tract will be disposed of as a whole, though a new owner could subdivide to great
