

REGULARS UNITE WITH DEMOCRATS

Insurgent Senators Beaten by New Combination to Pass Rate Bill.

STATE RIGHTS RESPECTED

One House Amendment Adopted by Aid of Democrats, Who Will Name Terms for Agreement to Push Bill Through.

WASHINGTON, May 18.—Abandoning all hope of reaching any common understanding on the railroad bill with the insurgents, the regular Republican Senators moved an early adjournment of the Senate today to permit the Democrats to get together to consider propositions looking to the completion of the bill.

Before adjournment Aldrich made an effort to obtain an agreement to take the final vote next Wednesday, but there were several objections and the request was not pressed.

It is the general understanding about the Senate Chamber that the Democrats will be asked to assist in expediting the bill by permitting amendments to be laid on the table, by refraining from speechmaking, and by other means, with the understanding that in return the last three sections of the bill relating to capitalization, would be withdrawn.

Democrats Eager for Action.

The Democratic Senators have opposed these provisions because of their supposed infringement on states' rights. Many of them are anxious to dispose of the bill and are willing to resort to any proper means to hasten its passage.

The Democratic conference was attended by about a dozen of the Democratic lawyers. After considering propositions advanced by the Republican regulars, they decided to submit their views to their colleagues in time to consider any suggestion that may be made at tomorrow's session looking to the fixing of a day for a final vote on the bill.

As a result of the day's labor the Senate accepted by a majority of 17 votes the House provision regulating the defense of cases arising out of the orders of the Interstate Commerce Commission as offered and amended by Smith of Michigan and as later modified at the suggestion of Hughes of Colorado.

This provision, as it passed the House, places the conduct of such cases in the hands of the Attorney-General and permits the Interstate Commerce Commission to intervene.

Combination Beats Insurgents.

As offered in the Senate by Smith, the provision was modified so as to permit ample notice to the Commission and he accepted afterwards a suggestion from Hughes which also permits the intervention of shippers or other parties at interest, and not only prohibits the Attorney-General from discontinuing such cases without notice to the intervenors, but authorizes them to proceed with the case, even after the Attorney-General may have withdrawn from it.

The vote on this combined provision of the Michigan Republican and the Colorado Democrat stood 40 to 35. Thirty-seven of the affirmative votes were cast by Republicans and the other three by Fletcher, Hughes and McEnery, Democrats.

Four of the negative votes were by Republicans—Beveridge, Borah, Bristow, Burkett, Clapp, Cummins, Dixon, Dolliver and LaFollette.

Concessions Win Democrats.

The success of the Smith-Hughes provision was admittedly due to the adoption of the House section, which is generally conceded to be more favorable to shippers than was the provision of the original Administration bill.

Without some concessions, it would have been impossible to get any Democratic votes, and a considerably large number of Republican votes would have been lost. Indeed, the explanations made there was a fair prospect of defeat of the original proposition and for the success of the Cummins amendment substituting the Interstate Commerce Commission for the Government as the defendant in the cases.

More Time to Fight Advances.

In addition to action on the defense provision, the Senate also accepted an amendment proposed by Aldrich extending from 60 to 120 days the period during which the Interstate Commerce Commission may suspend for investigation any new rates or classifications made by railroad companies. This also was a concession in the interest of the shippers and was accepted without division and without debate.

Rayner made a sharp onslaught upon the Smith-Hughes amendment and succeeded in arousing Hughes, who resented what he construed to be an intimation that he was "lined up" in favor of the House plan. Subsequent explanations led to a more amicable understanding and the incident closed with assurances of mutual good will.

Millions of Lives Lost

An Awful Toll Collected by Consumption. Many Unnecessary Deaths from this Disease

If people could only understand that systematic use of internal medicine that external applications cannot cure, they would not need to be warned so often about this malady, which, when neglected, leaves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

Catarrh is caused by a general diseased state of the system which leads continually to annoying and perhaps serious local conditions, which may prove a fertile breeding ground for germicidal organisms. External remedies give but temporary ease.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Mucic-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Mucic-Tone on our recommendation and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucic-Tone on our guarantee. We have Rexall Mucic-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies in Portland only at our store—The Rexall Store, The Owl Drug Co., Inc., cor. 7th and Washington Sts.

Dayton, Contracts will be let for building stone embankments on both sides of the river for more than a mile.

Macadamizing of streets and roads will be begun at once. The committee which is raising funds for proposed improvements obtained \$1000 more today in a few hours.

TUNNEL WORK DROPPED

HARRIMAN LINE TO USE HILL GATEWAY TO TACOMA.

Oregon & Washington Depot Also Abandoned, and New Station Will Be Joint Terminal.

TACOMA, Wash., May 18.—(Special).—Official announcement was received here today that the Oregon & Washington Railroad had completed traffic arrangements with the Hill lines, whereby it will jointly use the new water grade four-track line to be built by the Northern Pacific from Tenino into Tacoma via Point Delance.

The announcement was confirmed by Walter Christian, Tacoma counsel for the Harriman interests. Mr. Christian says that the \$900-foot tunnel the Harriman line has been boring into Tacoma is to be abandoned, as is also the road's station project. The Oregon & Washington will use the big Hill depot now building. The tunnel is about 320 feet and has been making slow progress owing to water. Work on the tunnel will probably cease tomorrow, everything being put into shape to be preserved against possible need at some future day. This also means the abandonment of the steel viaduct that was to be built from the tunnel portal across Pacific avenue, and the drawbridge across the city waterway. The Harriman road will have its own freight yards and docks on the tidelands as originally planned.

Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them. LETTER FROM ANY OF THE GUGGENHEIMS

SALEM, Or., May 18.—(Special).—Members of the committee are discussing the probability of a report during the present session of Congress. Several members expressed the opinion today that the hearings could not be concluded and the mass of testimony reviewed and passed upon before Congress adjourned. Senator Root will leave at the end of this week for The Hague and Democratic members of the committee have suggested that it would be improper for him to cast his vote prior to the completion of the investigation. The Republican regulars still would hold the control with Senator Root eliminated, even though Madison, the "insurgent," should vote with the Democrats. The vote would stand 6 to 5. Chairman Nelson said today that it was impossible to forecast just when the investigation would end.
