**BOYS' heavy ribbed basketball Hose**, sizes 6 to 9 1/2; wear like iron; on special sale at this very low removal price, the pair **22c**

## BEACH RUSH EARLY

All Trains to Seashore Are Crowded Now.

## SCARLET FEVER BLAMED

Ticket Agents of Various Routes Predict Season Will Be Fully a Month Longer Than Usual.

Resorts Have Been Improved.

Fully a month earlier than has ever before been known, a heavy volume of travel to the Coast resorts has started. While a large part of this is due to unusual conditions, such as the epidemic of scarlet fever, it appears as if the beach season is to be longer than usual this year.

The Astoria & Columbia River Railroad is working on a schedule for the fast trains that have long been promised, and will put it into effect shortly. In the meantime the Astoria trains are pulling out with record loads. Harry Adams, general freight and passenger agent, said yesterday: "The beach season is a full month ahead of time this year."

City Ticket Agent Stinger, of the O. R. & N. and Ilwaco Railroad, has a similar report. Mr. Stinger says the Hassalo has been leaving for Megler with her full sleeping accommodation of 50 taken every night and that there is a large waiting list from day to day.

Mr. Stinger says it to the fever epidemic, for he says there is a tendency on the part of parents to withdraw their children from school and take them to the beaches. He is convinced the beach season this year will be a month longer than usual.

At both the Oregon and Washington beaches, great preparations are being made for record attendances. At North Beach the plans for an ocean boulevard and a new water scheme are well under way and will have partly materialized before the close of the Summer season. Gearhart celebrates the season with the opening of a new

hotel and Seaside has made a number of improvements to attract the Summer visitor.

#### BUYERS AND SELLERS LISTED

#### Canadian Wholesalers and Portland Shippers to Be Brought Together.

What is thought will prove an admirable method of increasing business in Portland has been adopted by A. J. Morse, special representative of the traffic department of the Harriman lines. Mr. Morse has drawn up a list of car-load shippers of Oregon, who ship fruits, canned vegetables and canned goods generally. At the same time he has drawn up a list of wholesalers who purchase in carload lots and who are situated in Manitoba, British Columbia, Alberta and Saskatchewan.

He intends to forward the list of Oregon shippers to the Canadian buyers and the list of Canadians to the local shipping houses. Both buyer and seller will then be brought into touch with each other in a manner that it is felt should have the effect of enormously increasing shipments from this district.

Following are the exhibitors listed for purchasers and sellers: citrus and deciduous fruits and vegetables, dried fruits, nuts, beans, honey and canned goods.

Other than the mere publication of the names, there is no advertising matter attached, and it is expected the publication of the list cannot fail to attract business to the local houses.

#### Guide Booklets Issued.

The Denver & Rio Grande Railroad has been getting out an attractive series of booklets in connection with scenic operating observation cars on its transcontinental route again. "Around the Circle" is a pictorially beautiful publication, featuring the scenic trip through the narrow gauge route of the old Rio Grande, which is intended to prove an admirable guide. A list of all hotels and boarding houses along the Denver road comprises a second volume, which gives addresses, rates, proprietors and a wealth of other detail.

#### Depot Car Route Changed.

All depot cars will in future be routed over Fifth street. At present the Willamette Heights cars are run over Third street and the change will be made immediately on completion of a curved connection at Fifth and Morrison. In the case of big crowds at the ball park or on other occasions it is planned to make a circular trip from Washington to Fifth and back, via Morrison street.

Chamberlain's Stomach and Liver Tablets invariably bring relief to women suffering from chronic constipation, headache, biliousness, dizziness, sallowness of the skin and dyspepsia. Sold by all dealers.

## BRIDGE HOPE BRIGHT

#### Terminal Company Alone Blocks Negotiations, Rumor.

#### SOUNDINGS TO BEGIN SOON

#### Next Monday First Block of Bonds, \$250,000 Worth, Will Be Offered for Sale in Spite of Sluggish Market—Modjeski Confers.

#### Biologist Says Fight Scarlet Fever With Good Blood.

#### Elmer Colwell Said to Be Slated as Successor in Marshal's Office. Dunne May Be Retained as Revenue Collector.

#### With the return from Washington, probably within the next week, of Dr. Henry W. Hensley, who figures prominently in the presidential campaign of 1908 on behalf of President Taft, much of random political speculation concerning the outcome of two pending Federal appointments may be set at rest. These are the United States Marshalship and the Internal Revenue Collectorship.

#### Already assurance has come from Washington to the effect that Colonel David M. Dunne, internal revenue collector, will be retained in that position. As a matter of policy, it is said, to the end that factional fight may be avoided, he may not be re-appointed by President Taft, but permitted to hold, as is being done at present.

#### Both Colonel Dunne's and Marshal Reed terms expired in March, and as yet neither has been re-appointed nor has a successor been named. Information of local political prophets is to the effect that Reed has little chance of continuing long in the office, though any definite action in the matter of appointing his successor will be postponed by the President until after the adjournment of Congress.

#### Reed left two days ago for the East. He announced on leaving that he was going to attend the commencement exercises at Harvard University, when his son will graduate. Doubtless he will go to Washington. It is said also that he will go to New York and confer with Francis J. Heney, the former Federal Prosecutor, who secured for him the appointment as Marshal four years ago. Heney will be asked to use his influence in his behalf with the President again.

#### The name of Elmer Colwell, supported by forces opposed to Senator Bourne, is being mentioned locally in connection with the appointment as United States Marshal. It is given out here

#### is one of the largest pieces of work now under his supervision. Next Monday afternoon at 2 o'clock the ways and means committee of the City Council will offer for sale the first \$250,000 block of the Broadway bridge bonds. The bid at the previous calling was rejected because it was considered too low. It is considered doubtful, however, if the committee will receive a better proposal this time, for the bond market is said to be very sluggish just now.

#### Mr. Simon announced yesterday that it is the intention of the special committee of the Council, of which he is a member, to take up next Wednesday to the Council and ask to be discharged.

#### Dr. Louis Dechmann, biologist, occupied more than an hour yesterday before the Elliot School circle of the State Congress of Mothers in a lecture on Hygiene and Food Values. He cast aside many of the accepted ideas of handling the diseases of children, prevention of diseases and food values. He devoted considerable time describing the nature of scarlet fever and the methods of prevention. He advised the warm bath and warm pack covering the abdomen, from which he said all diseases arise.

#### Dr. Dechmann said that there was little excuse for any physician making a mistake in the diagnosis of scarlet fever and submitted for the inspection of the mothers colored pictures showing the symptoms of the disease in all its forms and also of chicken-pox. The speaker condemned the feeding of children on pasteurized or sterilized milk, remarking that it was like giving the child dead food. He said that the child should be given pure cow's milk. Among the foods mentioned Dr. Dechmann recommended onions, leeks and garlic. He put special emphasis on the need of keeping the blood of the child pure, so it could resist the approach of disease, contending that when in such condition the system resists disease.

#### Lion Foudles A Child. In Pittsburgh a savage lion fondled the wand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through Colds, Croup and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup writes Mrs. George Best of Pittsburg, Pa. Among the foods give to him when he takes cold, Dr. King's wonderful medicine for babies. Best for Coughs, Colds, LaGrippe, Asthma, Hemorrhages, Weak Lungs, etc. 50c. Get it at your drug store. Guaranteed by all druggists."

#### Best proposition ever made. Tillamook Beach lots. See Sunday Oregonian.

## GOE TO GIVE NEWS

#### Doctor Believed to Know of Federal Jobs.

#### MARSHAL REED GOES EAST

#### Elmer Colwell Said to Be Slated as Successor in Marshal's Office. Dunne May Be Retained as Revenue Collector.

#### With the return from Washington, probably within the next week, of Dr. Henry W. Hensley, who figures prominently in the presidential campaign of 1908 on behalf of President Taft, much of random political speculation concerning the outcome of two pending Federal appointments may be set at rest. that Colwell is certain of appointment. If Dr. Coe chooses to talk he probably will be able to throw much light on the Astoria & Columbia Railroad, and watched by those interested in the outcome of the appointments.

Colonel Dunne last night said he knew nothing to say about his own case, as he had heard nothing.

#### FORESTRY COURSE ADDED

#### Agricultural College Class Leaves to Study Wooded Nature.

For the first time a Western college will make a practical study of the subject of forestry. The Oregon Agricultural College is taking the initiative in this matter and following in the footsteps of some of the great Eastern colleges. Accordingly seven students in forestry left yesterday for the timber lands of the Clark & Wilson Lumber Company back of Goble on the Astoria & Columbia Railroad, and about 35 miles below Portland.

They will stay in this timber for a period of 10 days and will make a special study of the maximum and average stand per acre of the timber, of cruising and of the typical forest. They will endeavor to determine the actual and possible value of the stumpage and will try to determine what kinds of forests are best adapted to reforestation.

In the party which left yesterday were H. H. Barbur, H. J. Eberly, H. D. Gill, A. M. Nilsson, T. J. Starker.

S. A. Wilson and J. F. Pernot, Professor Peavy, of the O. A. C. faculty, will join the party later.

Officers of the civil service in New South Wales must insure their lives.

#### A Public Benefit

#### Portland People Greatly Interested in the Generous Offer of The Owl Drug Co., Inc.

The people have already demonstrated that they would rather trust a man who is naturally honest than one who is honest only because he had to be.

The Owl Drug Co., Inc. have a firmly established reputation for square dealing and sterling honesty. When they told the people that Rexall Remedies are the most and most dependable medicines that it is possible for modern science to produce, and that they would tell the public what each one of these 300 or more remedies contained, and that they sold Rexall Remedies, all of which proved that they would give entire satisfaction or they would not cost the user a single cent, they were believed.

Ever since this announcement the Owl Drug Co., Inc. store has been largely patronized by people buying Rexall Remedies, all of which prove that they store has the confidence of the people and that honesty is the best policy.

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or a class of ailments closely allied. For instance Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well known medicinal agents. This remedy sells for 25 cents, 50 cents, and \$1.00 per package, persons who are suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, The Owl Drug Co., Inc., the corner 7th and Washington sts., is the only store in Portland where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

#### WE CONQUER ASTHMA

Dr. Stegall's ASTHMA REMEDY is PROMPT, SAFE and SURE. Nothing else offered like it. Write for booklet "Free All" to Dept. O.

HENRI MILLAR REMEDY CO., 214 St. Helens Ave., Tacoma, Wash.

## SCROFULA

Scrofula disfigures and causes life-long misery. Children become strong and lively when given small doses of Scott's Emulsion every day. The starved body is fed; the swollen glands
