Iron and Steel Trade Is Steadily Expanding-Structural and Agricultural Steel in Demand. Buying of Cottons Limited.

NEW YORK, May 27 -R. G. Dun & Co.'s cekly review of trade temorrow will may: Changes in the business situation are in the tre better and this was plainly indicated by he downward tendency of prices. Visible improvement is taking place in the on and steal trade. There is a larger de-ind for both pig from and for finished solucts, especially in agricultural and struc-ral lines. Demand from relironds for alphant is somewhat restricted by uncer-inty regarding freight rates, yet some good whices in colling stock is regarded as cer-in, and falls have been taken in moderate rounts. amounts.

Buying of cotton goods, is limited and mills are still indisposed to accept long contracts. Curtailment is growing as the crop season advances. The trend of trade is toward improvement, however, in woolens and contracts and mills are conservative in the matter of coperation on Fall lines not under order. Trade in footwear continues slow and unsets insactory, large jobbers throughout the country having falled to follow up initial purchases by supplementary buying, and curtainment of production is a necessity. The question of price has apparently little bearing on the volume of present traffic. Leather is generally inactive.

Pronounced duliness continues to rule throughout the hide market.

TRADE REPORTS FROM NORTHWEST. Cool Weather, Though, Is Still a Bar to

Activity. Activity.

NEW YORK, May 27.—Bradatreets tomerrow will say:
Quiet still rules in trade and many lines
of industry, while speculation, especially
in grain, seems in a weak stage, awaiting
clanages. Relatively most activity in jobbing trade is centered in meeting current
demands and Fail business still lacks form.

Retail trade has shown some rain at
leading Western markets, but is still classed
as hellow expectations. Unscasorably cool
weather is commonly assigned as the cause
for backward trade, but there are still in SELL HIGHER ON A BETTER
LOCAL DEMAND.

The stock market besides has been lapsing to-stock market besides has been lapsing to a process of uncertain and narrowing fluctuations, which are characteristic of the market when in purely professional hands.

The activity of the first hour was due to a rumor of the Hiness of J. P. Morgan, which originated in Chicago. Meantime, Mr. Morgan is in Paris and was in cable communication today with business associates in New York. The circulation of false rumors is held generally to signify activity by a bear party.

The subvioty of speculation is capable, activity by a bear party, activity by a bear party, attivity by a bear party, by a bear party, by a bear party. The subvioty of speculation with facilitate desired liquidation. Wintover the purpose of the early operations, they were discontinued soon and the proceedings for the rest of the day were almost devoid of interest.

The lack of response to the formal announcement of the sale of St. Paul bonds in France to the amount of 200,000,000 frances brought out some professions of disappointment. The fact need not cause surples when it is considered that this bond asle has been a constant subject of stock of weeks.

PRICE AT SEATTLE DROPS TO \$20 A TON.

Oats Are Weak and Wheat Is Quoted Lower-Dairy Produce Is Firm. Plenty of Berries.

SHATTLE, May 27.—(Special.)—Barley dropped to \$20 a ton today and was unsate able even at that quotation. Oute were also weak Bluestem wheat was marked down to 83 cents, club to 70 cents and red to 75 cents. It is stated that Northwest prices are not yet on a par with Eastern mathest and that considerable decline is likely to be seen before the bottom is reached. All dairy produce was firm today, yet the demand was not very brisk, Receipts of fresh ranch easy were surprisingly lives the contract.

Six carloads of bananas reached the city.

New potatoes are fast crowding old stock off the market. There is no lenger any likelihood of prices on old stock advancing.
